No. 58
DIRECTOR'S OFFICE,
OOTACAMUND, 24 July 1893
From
M. A. LAWSON, Esq.,
GOVERNMENT BOTANIST AND DIRECTOR OF
GOVERNMENT CINCHONA PLANTATIONS, &c.,
Nilgiris.

To
The Secretary to Government,
Revenue Department,
Ootacamund.

SIR,

With reference to G.O. dated the 28th June 1893, No 576- Revenue. I have the honor to report as follows on certain points on which Government may desire to have further information than was given in my annual Administration Report.

Para 3 of G.O. The number of plants put out on the beduattam Estates during the year is given in Statement No 6, under renewals.

Para 4 of G.O. The inferior brown barks were used in preference to the red barks, because, quinine is more easily extracted from the former, and it was not advisable to waste time in experimenting

experimenting upon the red barks,
until a sufficient quantity
of quinine had been made to
meet all probable demands.
For the last few months, however,
the red barks have been used
^{exclusively} almost ~~extensively~~ and with
satisfactory results.

Para 5 The quinine and febrifuge
will be advertised, as desired
by Government, in the Fort
St. George Gazette, and in the
leading newspapers of the
Presidency

I have the honor to be
Sir
your most obedt servt

W. L. Lawton
Capt. Batavia &
Director

Revenue {1893} Cinchona.
