I see no reason for the proposed delegation
of powers, that, don't approve of it.

Any how I don't think the matter should
be dealt with in P. R. D.

ABSTRACT

The Col. says that it is very
necessary that the Div. Officer
 should be informed as he suggests - let
 for the papers printed - p. 10.
 P.W.D of April 6th/93 No 301 (I)
 although a great number of tanks
 are said to "affect" the water
 Kistner & S. C. Rant says, it does
 not appear how the effect then
 of the tank is that it causes the
 railway? That is the point -
 it is said that 165 pints etc
 tank "affect" in use of
 water. This is a vague expression
 are there in danger of bursting if
 the fill with water & if the tank
 is the danger to the railway? How
 can the points on the information
 be sent to me to be needed - The
 Col. W. have these tanks been? &
 if the find any of them to be in need

The Collector states that it is very necessary
that the Divisional officers should be
empowered to proceed under Act IV of 1886
but it does not appear from the papers
printed in P.O. of 6th April '93 No 301, I have
the ~~prints~~ tanks referred to affect the
Bellary-Kistna & East Coast Railways.
The points for consideration are whether
the tanks are in danger of bursting when
full & if they burst whether damage
will be caused to the Railways. The
Commissioner of Revenue will direct the Collector to have
the tanks examined carefully and to
take action himself under the Act
if he finds any of them to be in such
a condition as to endanger the safety of
either Railway.
