PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

READ—the following letter from A. W. B. HIGGENS, Esq., Collector of Ganjám, to the Secretary to the Commissioners of Land Revenue, dated Chatrapur, 4th March 1893, Reference on No. 348-Ver.:—

In paragraph 1 of Board's Proceedings, dated 26th January 1882, No. 260, it is said that paragraph 6 of Standing Order No. 7 (now No. 6) will be modified with reference to the orders contained in the said Proceedings, but I find that it has not been modified apparently through an oversight. I have therefore the honour to request that the necessary modification may be made in paragraph 6 of the Standing Order in question.

2. I take this opportunity of suggesting that the order that the indemnity or security bond referred to should be treated as a "mortgage deed without possession" and not as a "bond" may be embodied in the said Standing Order.

3. I also beg to suggest that the forms of the tope cowle and indemnity or security bond may be printed as appendices to the Standing Order.

4. The Standing Order is silent as to the rate of assessment to be fixed on un-assessed and unclassified waste lands or poramboke lands, such as sand hills, which may be granted on cowle. I think that provision should be made in the Standing Order to authorize the Collector to fix such rate as he may deem proper. The practice in this district is for the Collector to fix such rate as he may deem proper in the case of the lands referred to.

RESOLUTION—dated 5th July 1893, No. 395.

With reference to paragraph 1 of his letter read above, the Collector of Ganjám is referred to Board's Proceedings, dated 20th September 1889, No. 658.

2. The Board observes that, since the tope rules were originally published, the available supply of waste land has greatly decreased, and that it is being still further diminished by the operations of the Forest Department. Further, the rules, if loosely worked, would practically enable a ryot to hold his land as a free inam for 20 years, during which time he could cultivate it at pleasure, and he could also by judicious planting enjoy the produce of his fruit trees before half the cowle period had elapsed. Collectors are accordingly informed that every application for planting public or private topes should be submitted for the previous sanction of the Board.

3. The Board also considers that security bonds should be abolished. It is not reasonable to expect that a person will bind himself and his property for 20 years to guarantee that another person shall carefully observe the conditions of the cowle. Further, the provision that any breach of the conditions would make the cowledar liable to pay assessment for the whole term of the cowle must deter ryots from planting topes under the rules. The Board is of opinion that, when the cowledar breaks his agreement, he should be ordered to pay assessment from the date of such infringement, and that the assessment, if unpaid, should be collected under Act II of 1864.

4. The following amendments will be made in Standing Order No. 6 (New Edition):—

(1) In the second sentence of paragraph 1, *substitute* the words "full assessment" for the words "be taxed at the rates chargeable for private topes." In the fourth sentence of the same paragraph, *omit* the words "on the road side." And in the last sentence but one, *after the words* "When the trees," *insert* "attain maturity, or,"

(2) Paragraph 2 should be struck out, as the Board has no power to regulate planting by the side of roads, which now belong to the Local Boards.

(3) In the second sentence of paragraph 3, for the words "the full tax soil" substitute "the full tax on the land will be charged. In the case of unassessed land, the Collector shall determine the assessment to be levied, and, in doing so, he may allow for the sterility of the soil or take account of other matters, which, in his opinion, may justify special treatment."

(4) For paragraph 4, substitute—

"A water-rate will be charged when Government water is used for the irrigation of the trees or the cultivation of crops, wet or dry, on tope lands which are tax-free under these rules."

(5) Paragraph 5 contains the same provision as paragraphs 1 and 2 of Standing Order No. 5 and should therefore be omitted.

(6) For paragraph 6, substitute—

"Persons who, after obtaining land under the above rules, fail to fulfil the terms of their engagement, render themselves liable to pay the full assessment on the whole of the land included in the cowle from the date of the infringement of the conditions of the cowle and the cowle may at the Collector's discretion be cancelled."

(7) Add as paragraph 9—

"Forms of the tope cowles are printed in the Appendix."

(8) Add as paragraph 10—

"Every application for land to plant public or private topes must, after approval by the Collector, be submitted by him to the Board, without whose previous sanction no grant is valid."

(9) To the list of authorities at the foot of the Standing Order add—

"Board's Proceedings, dated 6th January 1880, No. 19; Board's Circular Memorandum, dated 6th June 1881, No. 805; Board's Proceedings, dated 26th January 1882, No. 260; Government Order, dated 2nd March 1882, No. 253, Revenue; and Board's Proceedings, dated 20th September 1889, No. 658."

5. A reprint of the Standing Order as amended above is appended to these Proceedings and copies thereof will be furnished to Collectors to substitute for the existing order.

(A true Copy and Extract.)

(Signed) R. C. C. CARR,
Acting Secretary.

To all Collectors and Conservators of Forests.

Copy to the Secretary to Government, Revenue Department.

APPENDIX.

STANDING ORDER No. 6.

Tree planting for public and private purposes.—Persons desirous of planting topes for public utility and convenience should first communicate with the Divisional officer and obtain his sanction. If they neglect to do so, the plantations will be liable to full assessment. A register will be kept of such applications. Persons who, after sanction has been previously obtained, plant topes, either of fruit or timber trees, or other trees affording shade, in situations approved by the Collector, near a choultry, or near any place of public resort, for general accommodation and convenience, or other beneficial purpose, will be allowed to cultivate the ground rent-free until the tope reaches maturity, as a compensation for the trouble and expense incurred in forming the plantation. When the trees attain maturity, or, if fruit trees, have become productive, the tope will be entered in the accounts as a public tope free of all tax, and the produce will be left to the planter, to be appropriated for the support of the choultry, repair of the road, or other public purpose contemplated. Land granted for the purpose just mentioned will, as a rule, be waste land, but under special circumstances cultivated land may be granted.

2. Persons wishing to plant topes for their private benefit, including plantations for fire-wood, will be allowed land for that purpose, and it will be exempt from assessment for 20 years,

whether cultivated or not. After the lapse of that period, the full tax on the land will be charged. In the case of unassessed land, the Collector shall determine the assessment to be levied, and, in doing so, he may allow for the sterility of the soil or take account of other matters which, in his opinion, may justify special treatment. As a rule, the land granted on these terms must have been waste for ten years. If the tope be planted in Sneyal land, or land usually under cultivation, the land so appropriated will, as a general rule, be assessed with full tax from the time the trees are planted, whether it be cultivated or not. If there are special reasons for greater indulgence, the Collector is at liberty to represent them to the Board.

3. A water-rate will be charged when Government water is used for the irrigation of the trees or the cultivation of crops, wet or dry, on tope lands which are tax-free under these rules.

4. Persons who, after obtaining land under the above rules, fail to fulfil the terms of their engagement, render themselves liable to pay the full assessment on the whole of the land included in the cowle from the date of the infringement of the conditions of the cowle and the cowle may at the Collector's discretion be cancelled.

5. Grantees of land under these rules are required, under pain of resumption as described above, to plant out one-fifth at least of the whole extent in each year subsequent to the grant, so that the whole may be planted within the fifth year. The system of planting adopted, the number of trees to the acre, and their position in relation to each other, must be such as will satisfy the Collector that the land has been obtained *bonâ fide*, and is being used, for the purpose of plantation and not of cultivation.

6. The Board is authorized to make any modification of these rules which may seem requisite for adapting them to Malabar and Canara, or other districts having peculiar features.

7. Forms of the tope cowles are printed in the Appendix.

8. Every application for land to plant public or private topes must, after approval by the Collector, be submitted by him to the Board, without whose previous sanction no grant is valid.

APPENDIX A

TO PARAGRAPH 7 OF STANDING ORDER No. 6.

Form of Cowle for public topes.

Public tope cowle granted by _____, Esq., Collector of the _____ district,
to _____ of _____ taluk, under Board's Standing Order No. 6, and sanctioned by
the Board in its Proceedings, No. _____, dated _____

Terms of Cowle.

1. That the grant of the land hereunder described is made for the plantation of a tope for the benefit of _____, his heirs and successors, shall hold the land free of Government assessment, provided that the proceeds of the tope are wholly devoted to the benefit of the above institution.

3. That the whole extent shall be planted with fruit, timber or other trees, within five years of the grant, not less than one-fifth of the total extent being planted each year.

4. That the trees planted shall not be less than forty to an acre, and shall be at such distances from each other as will satisfy the Collector or other Revenue officer deputed by him to inspect the land, that the grantee has obtained it *bonâ fide* for the purpose of planting a tope, and not primarily for cultivation.

5. That the grantee shall not fell trees or allow them to be felled, without previously obtaining permission from the Collector, and shall abide by the rules in force, or which may hereafter be prescribed by the Board of Revenue in regard to public topes.

6. That the grantee shall replant those portions of the land on which the trees have withered or have fallen, so as to maintain the standard growth of not less than forty trees to an acre.

7. That when the trees attain maturity or, if fruit trees, become productive, the tope shall be entered in the accounts as a public tope, and the proceeds, if any, appropriated for the purpose of (here enter purpose).

8. That the grantee shall not be subject to assessment on account of the cultivation of either dry or wet crops on the land until the trees attain maturity, except that water-rate shall be charged when water is taken from a Government source whether for the trees or for cultivation of crops, wet or dry.

9. That if the proceeds are appropriated for purposes other than those mentioned in paragraph 2, or if any of the conditions specified in paragraphs 3, 4, 5 and 6 are not fulfilled, or are violated, the grant shall be liable to be resumed, and full assessment on the whole of the land may at the discretion of the Collector be collected from the date of such misappropriation of the proceeds or of such infringement of the conditions.

APPENDIX B TO PARAGRAPH 7 OF STANDING ORDER No. 6.

Form of Cowle for private topes.

Private tope cowle granted by _____, Esq., Collector of the _____ district, to _____ of _____ in _____ taluk, under Board's Standing Order No. 6, and sanctioned by the Board in its Proceedings, No. _____, dated _____.

Terms of Cowle.

1. That the land hereunder detailed shall be free of assessment for twenty years from the date of this cowle, if planted with fruit, timber, or other trees. The land will be fully assessed after the expiration of the period mentioned above.
2. That not less than one-fifth of the extent shall be planted in each year from the date of this grant, the plantation of the whole extent being completed within five years from the date thereof.
3. That the trees planted shall not be less than forty to an acre, and shall be at such distances from each other as will satisfy the Collector or other Revenue officer deputed by him to inspect the land, that it has been obtained *bona fide* for the purpose of planting a tope, and not primarily for cultivation.
4. That the grantee shall replant those portions of the land on which the trees have withered or have fallen, so as to maintain the standard growth of not less than forty trees to an acre.
5. That the grantee shall not be subject to assessment on account of the cultivation of either dry or wet crops on the land during the currency of this cowle, except that water-rate shall be charged when water is taken from a Government source for the irrigation either of the trees or of wet or dry crops.
6. That the grantee shall abide by the rules in force, or which may hereafter be proscribed by the Board of Revenue in regard to private topes.
7. That if any of the conditions detailed in paragraphs 2, 3, 4 and 6 are not fulfilled or are violated, the grant shall be liable to be resumed and full assessment on the whole of the land may at the discretion of the Collector be collected from the date the conditions are not fulfilled or are violated.

Proceedings, 5th July 1893, No. 395.

Amending Standing Order No. 6 (New Edition)
regarding grant of lands for plantations for public
and private purposes.

BOARD OF REVENUE (LAND REVENUE), 5TH JULY 1893, No. 395.

PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

READ—the following letter from A. W. B. HIGGENS, Esq., Collector of Ganjam, to the Secretary to the Commissioners of Land Revenue, dated Chatrapur, 4th March 1893, Reference on No. 348-Ver.:—

In paragraph 1 of Board's Proceedings, dated 26th January 1882, No. 260, it is said that paragraph 6 of Standing Order No. 7 (now No. 6) will be modified with reference to the orders contained in the said proceedings, but I find that it has not been modified apparently through an oversight. I have therefore the honour to request that the necessary modification may be made in paragraph 6 of the Standing Order in question.

2. I take this opportunity of suggesting that the order that the indemnity or security bond referred to should be treated as a "mortgage deed without possession" and not as a "bond" may be embodied in the said Standing Order.

3. I also beg to suggest that the forms of the tope cowle and indemnity or security bond may be printed as appendices to the Standing Order.

4. The Standing Order is silent as to the rate of assessment to be fixed on un-assessed and unclassified waste lands or poramboke lands, such as sand hills, which may be granted on cowle. I think that provision should be made in the Standing Order to authorize the Collector to fix such rate as he may deem proper. The practice in this district is for the Collector to fix such rate as he may deem proper in the case of the lands referred to.

RESOLUTION—dated 5th July 1893, No. 395.

With reference to paragraph 1 of his letter read above, the Collector of Ganjam is referred to Board's Proceedings, dated 20th September 1889, No. 658.

2. The Board observes that, since the tope rules were originally published, the available supply of waste land has greatly decreased, and that it is being still further diminished by the operations of the Forest Department. Further, the rules, if loosely worked, would practically enable a ryot to hold his land as a free inam for 20 years, during which time he could cultivate it at pleasure, and he could also by judicious planting enjoy the produce of his fruit trees before half the cowle period had elapsed. Collectors are accordingly informed that every application for planting public or private topes should be submitted for the previous sanction of the Board.

3. The Board also considers that security bonds should be abolished. It is not reasonable to expect that a person will bind himself and his property for 20 years to guarantee that another person shall carefully observe the conditions of the cowle. Further, the provision that any breach of the conditions would make the cowledar liable to pay assessment for the whole term of the cowle must deter ryots from planting topes under the rules. The Board is of opinion that, when the cowledar breaks his agreement, he should be ordered to pay assessment from the date of such infringement, and that the assessment, if unpaid, should be collected under Act II of 1864.

4. The following amendments will be made in Standing Order No. 6 (New Edition):—

(1) In the second sentence of paragraph 1, substitute the words "full assessment" for the words "be taxed at the rates chargeable for private topes." In the fourth sentence of the same paragraph, omit the words "on the road side." And in the last sentence but one, after the words "When the trees," insert "attain maturity, or,"

(2) Paragraph 2 should be struck out as the Board has no power to regulate planting by the side of roads, which belong to the Local Boards.

(3) In the second sentence of paragraph 3, for the words "the full tax on the soil" substitute "the full tax on the land" will be charged. In the case of unassessed land, the Collector shall determine the assessment to be levied, and, in doing so, he may allow for the sterility of the soil, or take account of other matters, which, in his opinion, may justify special treatment.

(4) For paragraph 4, substitute—

"A water-rate will be charged when Government water is used for the irrigation of the trees or the cultivation of crops, wet or dry, on lands which are tax-free under these rules."

(5) Paragraph 5 contains the same provision as paragraphs 1 and 2 of Standing Order No. 5 and should therefore be omitted.

(6) For paragraph 6, substitute—

"Persons who, after obtaining land under the above rules, fail to fulfil the terms of their engagement, render themselves liable to pay full assessment on the whole of the land included in the cowle from the date of the infringement of the conditions of the cowle and the cowle may at the Collector's discretion be cancelled."

(7) Add as paragraph 9—

"Forms of the tope cowles are printed in the Appendix."

(8) Add as paragraph 10—

"Every application for land to plant public or private topes must, after approval by the Collector, be submitted by him to the Board, without whose previous sanction no grant is valid."

(9) To the list of authorities at the foot of the Standing Order add—

"Board's Proceedings, dated 6th January 1880, No. 19; Board's Circular Memorandum, dated 6th June 1881, No. 805; Board's Proceedings, dated 26th January 1882, No. 260; Government Order, dated 2nd March 1882, No. 233, Revenue; and Board's Proceedings, dated 20th September 1889, No. 658."

5. A reprint of the Standing Order as amended above is appended to these Proceedings and copies thereof will be furnished to Collectors to substitute for the existing order.

(A true and correct Extract.)

of great indulgence, and in the
case of the third class for

28-11-05
C.O. mis 3020 8/15 August 1905

Recorded with the remark that the following should be substituted for the last sentence of para. 1 of the amended S.O.:-

4. If there are special reasons in the cases of the first two classes ^{or} ^{of} lands for showing ^{the} indulgence, or in the case of the third class for showing ^{the} same, ^{the} collector is at liberty to represent them to the Board."
