Minutes of Consultations

9th Feb 1858

Back No^s 48-50

Order No 170 of 9th Feb 1858

Port Saint George, Revenue Consultation of 9th February 1858.

Read the following papers.

No. 48. Read the following letter from the Commissioner for the Government of the Territories of His Highness the Rajah of Mysore; to the Chief Secretary to Government Port St. George dated Bangalore, 16th January 1858, No. 1.

Sir,

I have the honor to transmit for submission to the Right Honorable the Governor in Council, the accompanying copy of a letter to me from Captain Pearse, Acting Superintendent of the Astagram Division of Mysore dated the 15th Instant, together with its enclosures to his address, from the Acting Collector of Malabar, William Robinson, Esq.

From Captain J. L. PEARSE, Superintendent Astagram Division; to the Secretary to the Commissioner for the Government of the Territories of the Rajah of Mysore; Bangalore dated 15th January 1858.

Sir,

I have the honor to transmit herewith for the information of the Commissioner copy of a letter to my address from William Robinson, Esq., Acting Collector of Malabar, dated the 29th Ultimo, No. 5502.

It will be recollected that in the year 1855 under the instructions of the late Mr. Conolly, Collector of Malabar, and of the Commissioner for Mysore with the view to remove all cause of dispute, the boundary line between the two Districts was traced by their two Assistants G. B. Tod, Esq., and Captain Stephens, and the limits of each carefully ascertained and marked by stones after an inspection of the localities and an examination of the best sources of information available aided by the maps in the Collector's and Commissioner's offices, drawn up by Captain Colin Mackenzie who surveyed the country, and who is the best authority on the subject.

The boundary line fixed by these Gentlemen has never since been disputed.

I would therefore beg to observe that it has surprised me much to find Mr. Robinson reopen this finally settled question in a tone, moreover, which I have not been accustomed to find in official correspondence.

From W. ROBINSON, Esq., Acting Collector of Malabar; to Captain J. L. PEARSE, Officiating Superintendent of the Astagram Division; Mysore, dated 29th December 1857, No. 5502.

Sir,

With reference to your letter dated 10th Instant, No. 1597, I have the honor to inform you that you have been misinformed in respect to Kullerhutti, where it is admitted on all sides, that the Elephant was entrapped. Kullerhutti is among the spurs of the lower part of the Kally range of forest hills and as a reference to the Map, when on the spot, if you visited it would have shown you is within Malabar. I therefore still call on you to send back the Elephant and to repress these unjustifiable transgressions within the limits of the Company's Territory.

2. The personal examination into the circumstances of this case has however brought under my notice a much more serious matter, viz. the attempt to interfere with, and alter the long established boundary as fixed between the two countries of Mysore and Malabar, and the setting up, by the Mysore authorities of a line of so called boundary stones, far within the limits of the Company's Territories, so as to run from the turn* of the Pongoly, Rampoor, Ayanoor Mara Goody river, along the spurs of the Kally range to the Koorchynad range, thus transferring to the Mysore country all the fine teak, &c., forests of the Echeecontarrak of the Gumsapathy Unshom, which cover these hills and vallies to the North East of this line, being a large portion of the Munchalla hills and forests. Kullerhutti Chavada Vattom, Koorchynad, &c., forests the fee simple property of the British Government (not of Malabar Jemries) and worth laes of Rupees. I have carefully ranged the whole of this country myself and satisfied myself of the blunders.

Fort Saint George, Revenue Consultation of 9th February 1858.

3. The unjustifiable and unauthorized substitution of a novel boundary seems to have taken its rise in some measures taken by a second* Assistant of this district and Captain Stephens in 1855. No boundary could be clearer or better defined than that existing between Mysore and Malabar at this point, but some interested parties had expressed doubts and outrageous robberies were being committed in the Malabar Government forests by Mysore people and our own inhabitants. After some correspondence Captain Stephens and Mr. Tod met to see how the boundary ran not to fix a new boundary. The amusing record of this business is before me and the parties who accompanied them, accompanied me throughout the careful examination I have just completed of those parts.

4. Captain Stephens and Mr. Tod seem at all events to have known that Ayenoor Mare Goodee is one of the points in the boundary, indeed, it were difficult to have mistaken such prominently marked spots as the Rampoor ferry and the Pagoda, which are even shown in the Lithographed Map. But even this certain and fixed spot however has been entirely lost sight of in the subsequent operations, and I find a stone placed on the opposite side of the river at Hossen Cottah six miles to the south of the Pagoda and not far from Pongoly Cottah now, this is a spot which these Gentlemen never visited. With all their hesitation and uncertainty it is clear that their course was at least Northerly and Westerly from the Pagoda, and the setting up a boundary mark opposite Hossen Cottah, can only be termed a bold and unjustifiable attempt at fraud.

5. The record of the wanderings of these two Gentlemen show that they had but hazy notions of where they were throughout, and of what they were about, but if the N. W. by W. N. W. &c., bearings from Ayenoor Mare Goodee, frequently noted in Mr. Tod's report, mean any thing, they do not at least indicate that the spots now marked by you with stones, &c., were ever visited by these Gentlemen, and if they were so visited, the compass could not have indicated the bearings recorded.

6. Be this as it may, these novelties cannot for a moment stand. The thing was a simple farce and the innocence of Mr. Tod at least as to where he was, is clear from his having come away with the impression that "a strip of land from 2 to 3 miles broad and 18 or 20 long had been added to Malabar". While nearly as much would be transferred were countenance given to this assumption of the power to fix new boundaries between the two countries.

7. But all this was unnecessary, the boundary was clearly laid down between 20 and 40 years ago, the record of which will be furnished to you; being a transcript of what Captain Stephens and Mr. Tod should have been guided by, viz. the boundary line as fixed when the Trigonometrical Survey was made. In this and from the map you will find that the boundary between the countries, runs in nearly a direct line from the Pagoda at Ayenoor Goody to the Trigonometrical station at Shegabetta, at the back of the Koorchynad forest, and within this line I beg you to have the goodness to keep your forest operations, and likewise at once to remove these unauthorized monuments of blunderings which might lead, if left, to an extensive portion of the Government forest being transferred to Mysore, and may entrap persons into Criminal Proceedings in Malabar.

1. Eddaturrah Kathan.
2. Koorchynad Kathan.
3. Moon Mauden (young brother of Kathan).
N. B. Nemour has it that Kathan is employed in the forest Establishment or otherwise in public service of Mysore.

8. I must at the same time warn you against placing reliance on the testimony of the 3 worthies named in the margin. They were the great robbers of the Government forest, till at length they were caught at the Rampoor ford in the very act of stealing wood. They were committed and convicted and worked on the roads at Palliberry. After the expiration of their period of Penal servitude, they have, I am glad to find transferred their allegiance to Mysore. It suited them then to rob the Government forests, but I cannot permit them to be instrumental in transferring the scenes of their pillage together with their persons to their newly adopted country.

(True Copies.)

(Signed) W. CURBON, Commissioner.

Fort Saint George, Revenue Consultation of 9th February 1858.

No. 49. From H. CLEGHORN, Esq., M. D., Conservator of Forests; to the Secretary to Government Revenue Department, Fort Saint George, dated Madras 23rd January 1858, No. 267.

SIR,

I have the honor to solicit the instructions of Government on the accompanying Extract of letter from the Acting Collector of Malabar, requesting me to assume charge of certain valuable Teak Forests lying along the boundary of Malabar with the Astagram Division of Mysore.

The position of the Forest in question is fully given in the Collector's letter, I may observe that the rivers flow to the eastward, and that the only outlets are towards Mysore and Goondlepet, and the timber traffic must necessarily take the direction of Bangalore from the former place, or Ootacamund from the latter.

The boundary question was discussed and settled in 1855. Mr. Clarke the Collector of Malabar having deputed his Assistant Mr. Tod to meet the Superintendent of the Astagram Division Mysore, I have seen the Chart signed by both these authorities.

It is obviously out of the question for me to interfere at all in the present matter, until Government decide whether the boundary arrangement above referred to shall be considered final, or open to readjustment. Even in the latter case, I think it would be best to decide the question as one of boundary only, leaving me to perform my proper function after this point is settled.

Extract of a letter from W. ROBINSON, Esq., Acting Collector of Malabar; to H. CLEGHORN, Esq., M. D., Conservator of Forests, dated 30th December 1857, No. 5510.

I have the honor to request that your department may at once take charge of the extensive &c. Forests, the escheated property of Government, situated within the Gunnapathy and Moonennad Umshoms of this talook.

2. They are situated on the North slopes and spurs of the Koorchynad Hill range from the neighbourhood of the Trigonometrical station marked in the map, as Shegabetta tree, and along the line* between this point and the Ayenoor-mare Goody Pagoda, as shown in the Survey maps. The Eastern boundary runs up the Ayenoor-mare Goody, Rampoor ford, Pongolycottah river, to where the Maamana Hallow a river draining the Pongoly, Nalloor and Naarady Hills, joins the great river. The boundary then follows the bank of that (Maamana) stream as far as the Karacanarai. The Southern limit is the boundary of the Nambolakode Umshom, and the Mothamulla Hill. Within these limits are situated the Forests that cover both sides of the valley between the range of the Kally Maia and the Hills indicated by the Trigonometrical station marked "Shegabetta tree," and the whole of the Forest covering the Kally range with its spurs, &c., down to the left bank of the Pongoly river from the neighbourhood of Editeterra cottah to the Ayenoor-mare Goody ("Pagoda" in the map) and they include the Olienad Forest, a small portion of which only is valuable, the Koorchynad, Kaloer, Chiradavattom (all magnificent and very valuable Forests, full of fine ripe Teak &c.) the Aramjee near Chandapdy, (poor) and the whole of the Munchal Forest. To the South of the Pongoly (a rich one) river you have the lesser and greater Narrady, Venman, Allatoor, Pongaly and the Nallacotta Forests, all containing much fine Timber.

No. 50. ORDER THEREON, No. 170; dated 9th February 1858.

Ordered that the letters above recorded be referred to the Board of Revenue for early report.

(Signed) H. FORBES,
Acting Secretary to Government.

authority on the subject.
The boundary line fixed by those
gentlemen has never since been disputed.

I would therefore beg to observe
that it has surprised me much to find
Mr. Robinson reopen this finally settled
question in a tone, moreover, which I
have not been accustomed to find in
official correspondence.

I have the honor to be Sir,
Yours truly,
J. L. P. P.

Superintendent
Malabar Division.

Malabar Collector's Office
On Pinarikottam Hill, Kottayam.

No 5502. 29th December 1857.

From
Mr. Robinson Enquire.

Being Collector of Malabar.

At the Office of the Superintendent of the Malabar Division.

Reference to your letter dated 15th

inst. I beg to have the honor to inform

you

you that you have been misinformed in
respect to Kalladully, where it is admitted
on all sides, that the Pappanant was situated.
Kalladully is among the peaks of the
lower part of the Kallay range of forest
hills and as a reference to the map, when
on the spot, if you visited it would have
shown you is within Malabar. Therefore
still call on you to send back the Pappanant
and to remove these unjustifiable trans-
gressions within the limits of the Pappanant
territory.

The Personal examination into the cir-
cumstances of this case, has however, been
under my notice a much more serious
matter than the attempt to interfere with
and alter the long established boundary
as fixed between the two Countries of Mysore
and Malabar, and the setting up, by the
Mysore authorities of a line of so called
boundary stones, far within the limits of
the Pappanant territory as is to be seen from the
map of the Kingdom of Mysore, Mysore or the
Coorg River, along the spine of the Kallay
range to the Kooragood range, thus
transferring

Malabar Division
Kottayam

that this course must have been
and reaching from the Pagoda and the
setting up a boundary mark of fossil
Loren Cottel, the day he found a gold
and silver fossil at least at ground.

The record of the wanderings
of these two children show that they
went many miles and where they were
throughout, and in what time were about
out of the st. they st. at 11th bearing
from Governor's house bearing properly
marked as the st. also report across any
thing this does at least indicate that
the spots were marked by you with stones
and were said to be by these children
and if they were associated, the compass would
not have indicated the bearings recorded.

On this as it may, these associations
cannot for a moment stand. The thing was
a simple force and the innocence of Mr.
Took at least as to where he was, is clear
from the bearings come away with the
impression

This bearing
separate

impression that a straight line from
the Pagoda must be strong and direct
added to the children. It will surely be
much would be transferred with confidence
given to this a sample of the power to fix
our boundaries between the two countries.

But all this was unnecessary
the boundary was clearly laid down before
30 and 40 years ago the record of which will
be furnished to you being a transcript
of what Captain Stephens and Mr. To
would have been marked by you. The
boundary line as about when the
metrical survey was made. On this and
from the Map you will find that the
boundary between the countries runs in
nearly a direct line from the Pagoda at
Governor's Lodge to the Government station
at Chagaballa at the back of the Koonan
forest, and within this line I beg you to
have the goodness to keep your forest op-
erations, and likewise at once to remove

The impression
is not

then

They were committed and convicted
and worked on the roads at Stillcherry.
After the expiration of their period of
penal servitude, they have, I am glad
to find transferred their allegiance
to Mysore. It suits them then to
rob the Government of its, but I can
not permit them to be instrumental
in transferring the assets of their village
together.

Extract of a letter from W. Robinson Leake
Acting collector of Malabar to H. Colclough Leake
M. D. Conservator of Forests, dated 30th Dec. 1857. M. 5511

I have the honor to request that your Department may at once take charge of the extensive ^{man-} forests, the scheduled property of Government, situated within the Cinchona, P. L. & M. Division of the Salween.

They are situated on the north slopes & shores of the Marchyand Hill range from the north-
borough of the Trigonometrical Station marked in the
Map, to Chagabeta Pass, and along the line between
this point and the Agnew's main Gorge, Pagoda, as
shown in the Survey Maps. The Eastern boundary
runs up the Agnew's main Gorge, (Nampong Gorge,
Pangoly, Lottan River, to where the Manama has
down a river draining the Pangoly, Kallou & Namadji
Hills, joins the great River. The boundary then
follows the bank of that Manama stream as far
as the Manama. The southern limit is the lower
large of the Sambolaboda Mountain & the Malin
smaller Hill. Within these limits are situated
the forests that cover both sides of the Valley
between the range of the Kallou Hills & the
Hills indicated by the Trigonometrical station
marked "Chagabeta Pass" and the whole of
the Forest covering the Kallou range with the
Spurs & down to the left bank of the Pangoly
River from the neighbourhood of Chagabeta
Pass to the Agnew's main Gorge, Pagoda in the
plain, and they include the whole Forest in
between.

"What is the Answer
to the Question

I met her in a letter from
 Providence of 21st August
 to which she had sent a
 copy of letter to her mother
 of 10th July.

This image shows a vertical strip of a document page. On the left side, there is a dark, textured binding edge. The right side is a lighter, textured surface, possibly a cover or endpaper. The overall appearance is that of a scanned document edge.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and faint smudges, characteristic of old paper. The left edge of the page shows the binding of the book, with some visible stitching or glue. The overall tone is a warm, off-white or light beige.

On the other hand, the β -phase is not observed in the $\text{Ti}-\text{TiO}_2$ system, and the β -phase is not observed in the $\text{Ti}-\text{TiO}_2$ system.

Office of Conservation of Forests

23rd January 1898.

1824

17000

Wm. C. Clegg, Esq., M. D.
Conservator of Forests.

The Secretary to Government
Revenue Department
Fort St. George

I have the honor to solicit the instructions of Government on the accompanying circular letter from the Acting Collector of Malabar, requesting me to assume charge of certain valuable Peak Forests lying along the Boundary of Malabar with the Kolagum Division of Mysore.

The position of the Forest in question is fully given in the Collector's letter. I may observe that the rivers flow to the Eastward, and that the only outlets are towards Mysore and Gundlupet, and the Timber traffic must necessarily take the direction of Bangalore from the former place, or Bellary from the latter.

The boundary question was discussed and settled in 1855. Mr. Clarke the Collector of Malabar having departed his Assistant Mr. Todd

to meet the Superintendent of the St. Lawrence Division Mysore. I have seen the Chart signed by both these Authorities.

It is obviously out of the question for me to interfere at all in the present matter, until Government decide whether the boundary arrangement now referred to shall be considered final or open to readjustment - Even in the latter case I think it would be best to decide the question as one of boundary only, leaving me to perform my proper function after this point is settled.

I have the honor to be,
Sir,
Your most Obedient Servant.

H. A. A.
Commissioner of Mysore.

Revenue Department

No. 170.
