Order no 140 D/2nd Feb 1858

No. 58. Extract from the Minutes of Consultation under date the 2d February 1858.

Tabular Report of a lapsed enam in the District
of North Arcot for the 3d Quarter ending
30th September, dated 4th November and sub-
mitted with the remarks of the Board of Re-
venue 23d December 1857, No. 4656.

Ordered that this Tabular Statement be returned for correction.

2. The claimants are in the copy of the Sub-Collector's recommendation stated to be in one place, "great-great grandsons of the original grantee," and immediately below he is described as their "great-great uncle" and their "great-great grand father" is said to have been "never included in the enam grant."

3. In the face of such contradictions as these, which are probably the result of carelessness in the Collector's office, the Government are unable to confirm the Board's decision which is based to some extent on the particular relationship of the claimants to the deceased. What this relationship was is nowhere distinctly stated, though it may partly be inferred. The Collector in his note states that the enam "has passed from the family of the original grantee," which does not appear to be the case. The lapse occurred in 1843, and has only been reported, and the case altogether has been sent up with a want of care that is not creditable to the Collector's establishment, and evidences a want of supervision on his part.

4. The Board are requested to remind the Collector that in the Government order dated the 27th February 1857 No. 211, it was directed that original deeds should always be submitted with tabular statements of enams.

(Signed) H. FORBES,
Acting Secretary to Government.
