Memo

September Part 1. The accompanying returns for the month of January show that in the Salem District there is a considerable deficiency of field work. This has partly arisen from defective arrangements on the part of the Deputy Director. Immediate steps were taken to correct this in future. It has also partly arisen from portions of the Establishment being drawn off for testing previous work and completing boundary pillars, while this month was also selected for granting leave to several applicants after long exposure in field work for the past year. The Collector's Journey also has interfered with the progress of the work.

2. In the Rishra District the party took up fresh ground, and while little is shown as completed during the month, there is an area of nearly 200 square miles in progress in demarcation. Taking the approximate

approximate proportion of this work which has been done the standard is fully reached. The same applies, though in a less degree, to the Classification, which in the same way comes up actually to about 100 square miles.

3. In the Mallore District we only 84 square miles appear as the area of villages completely demarcated in the month, but the very large area of 300 square miles in progress in 73 villages, as well as the rate of actual work, shows that this party has done well during the month.

4. In Wynaud there is a marked improvement, as much as 114 square miles being returned for the month, notwithstanding the prevalence of fever and other difficulties.

5. The Salom Survey party has measured as much as 136 square miles in the month or more than the standard.

6. The Godamery Survey party attained to 70 square miles. Some of the Aumeens were employed in working up areas

areas of fields. The wet state of the Aulápur Taluk and the inconvenience of going backwards and forwards to the islands, created delay, while also the Village authorities were absent in some cases for the Pongamony.

7. The Kistia Survey party accomplished 61 square miles, 13 Aumeens of this party were employed in office work and 1 Head Surveyor was sick during the whole month.

8. The return for the Wynaud Survey party has not yet been received.
