Memorandum

On the Progress statement of the Settlement and Survey operations for May 1861.

1. The work returned for the Salem Settlement party is far in excess of the estimated standard which is attributable to large tracts of perambokke occurring there, especially in the Tripattur Taluk.

2. In the Kallore District the outturn of work is in advance of that of the previous month although its progress was somewhat impeded by sickness and the non-attendance of villagers.

3. The falling off in demarcation in the Kistna District is owing to the difficulty experienced in securing the attendance of the villagers and to the nature of the country operated upon.

4. A beginning was made in the Coimbatore Taluk to which the Mysore party has been transferred during the unhealthy season there. The smallness of the outturn is attributed to the absence of the Village Karamams who were engaged at the Jamabandy when

when the party reached Coimbatore.

5 The outturn of work of the Salem Survey party is slightly in excess of that of the previous month. Its progress was however affected by the nonattendance of the villagers.

6 In the Godavary District fair progress has been made, the area surveyed being 109.30 miles, although the work was retarded by the desertion of peons, measurers and station markers on account of the heat, scarcity of water and comparative difficulty felt in obtaining provisions in the upper Taluks.

7. The outturn in the Kistna and Nellore districts is slightly above that of the past month.

8 In Coimbatore the party was thrown back for want of demarcated villages which owing to the recent arrival of the Settlement party and the obstructions noticed in para 4 were not ready in time. Arrangements have been made to meet these impediments.
