Fort Saint George, Revenue Consultation of 4th May 1858.

No. 43. Read the following Extract from the Proceedings of the Board of Revenue; dated 12th March 1858, No. 896.

In Cons. 12th March 1858. Read letter from the Collector of Canara, dated 16th December 1857, requesting sanction for the excess expenditure in the Saderward charges during the year 1856-57.

(Here enter No. 131.)

1. Resolved that the foregoing letter and its enclosure be submitted for the orders of the Right Honorable the Governor in Council.

2. It will be seen from the statement furnished by the Collector that the actual charges incurred on account of the Revenue and Magisterial Saderward of the Canara District for the official year 1856-57, exceeded the standard Estimate sanctioned by Government on the 20th May 1850, No. 508, R. D. by Rupees 3,861-6-11. This sum the Civil Auditor objects to pass without the special sanction of Government.

In Cons. 27th May 1850.

3. The excess chiefly occurred in the items of Paper, Lamp oil, Dufter cloth and Sundries.

4. The increase in the aggregate quantities of Portuguese and French paper, amounts to 444 reams of the value of Rupees 2,177.

	Reams.	Value.	Rs.
Portuguese paper.....	47	28	
French paper.....	397	2,149	
		Rupees.....	2,177

5. The Collector explains that the increased consumption of paper in the Revenue Department is principally ascribable to the creation of a new Tahsildary at Pootoor in 1852, and a Deputy Tahsildary at Sedashaghur; to the introduction of the new village accounts and the monthly Audit, (which latter requires the preparation of several pay and contingent Bills in each month instead of once a year;) and to the printing of Land Revenue and Moturpha Puttahs and Receipts. The excess expenditure of this article in the Magisterial Department is owing to a larger amount of business as evidenced by the increase in fines alone.

6. It is further explained that the excess in Lamp Oil arises from increased quantity used, and partly from enhanced prices. The Collector observes that business has increased in all Departments, and that much of the extra expenditure incurred is attributable to this cause, and to the native servants having in consequence to work longer at night. Mr. Fisher has issued instructions for the conduct of business as much as possible by day light, and hopes by this means to reduce the charge for oil in future.

7. With regard to the increase in the charges for Dufter cloth and Sundries the Collector explains that the excess in the former item is attributable to a distinct Record Establishment having been lately sanctioned in all the Revenue Offices, and in the latter partly to enhanced prices; and to the entry under the head of "Sundries" of biennial and triennial supplies, for which

8. The increase in the charges for sealing-wax and ink is small, and calls for no remark. Under the explanations afforded in the above paras, the Board of Revenue recommend that the actual charges, amounting to Rupees 3,861-6-11, incurred in 1856-57 in excess of the standard Saderward Estimate of the Canara district may receive the sanction of Government to enable the Civil Auditor to pass the disbursements on that account.

No. 44.

ORDER THEREON, No. 559; dated 1st May 1858.

Under the circumstances represented, the Governor in Council sanctions the excess in the Saderward charges incurred in Canara in 1856-57, amounting to Rupees (3,861-6-11) three thousand, eight hundred and sixty one, annas six and pice eleven.

(Signed) W. H. BAYLEY,
Acting Secretary to Government.

No. 896.
Extract from the Proceedings of the Board of Revenue, dated 12th March 1858.
Read letter from the Collector of Canara, dated 16th December 1857, requesting sanction for the excess expenditure in the Saderward charges during the year 1856-57.

(Here enter No. 181.)
Resolved that the foregoing letter and its enclosure be submitted for the orders of the Right Honorable the Governor in Council.

2. It will be seen from the statement furnished by the Collector that the actual charges incurred on account of the Revenue and Magisterial Saderward of the Canara District for the official year 1856-57, exceeded the standard Estimate sanctioned by Government on the 20th May 1850, No. 508 R. 4. The increase in the aggregate quantities of Portuguese and French paper, amounts to 444 reams of the value of Rupees 2,177. Of this sum Rupees 1,213 is to be ascribed to increased expenditure, and the remainder Rupees 964 to the higher price paid for French paper, which had to be used instead of China paper provided for in the original Estimate, as paper of the latter description could not be procured in the District.

5. The Collector explains that the increased consumption of paper in the Revenue Department is principally ascribable to the creation of a new Tahsildary at Potoor in 1852, and a Deputy Tahsildary at Sedashaghur; to the introduction of the new village accounts and the monthly Audit, (which latter requires the preparation of several pay and contingent Bills in each month instead of once a year;) and to the printing of Land Revenue and Moturpha Puttahs and Receipts. 7. With regard to the increase in the charges for Dufter cloth and Sundries the Collector explains that the excess in the former item is attributable to a distinct Record Establishment having been lately sanctioned in all the Revenue Offices, and in the latter partly to enhanced prices; and to the entry under the head of "Sundries" of biennial and triennial supplies, for which the old standard Estimate only provides averages.

9. The revised Standard Estimate will be separately submitted for the orders of Government. The marginal extract shews the actual Expenditure of 5 years up to 1855-56 and it will be seen from it that the present Standard Estimate has been considerably exceeded of late years, though not to such an extent as happened in

1856-57 from the concurrence of high prices with increased consumption of the different articles.
