Fort Saint George, Revenue Consultation of 25th May 1858.

No. 32. Read the following Extract from the Proceedings of the Board of Revenue; dated 6th May 1858, No. 1628.

In Cons. 6th May 1858. Read letter from the Acting Collector of Malabar, dated 2d April 1858.

(Here enter No. 50.)

The Board are of opinion that the description given by the Collector of the present state of the Wynaad Ferries, and of the difficulties which lie in the way of any improvement renders it desirable to accede to the offer now made by the Planters Association to charge themselves with the management of the ferries, and construction of proper boats. It appears to the Board that the sum allotted for constructing and working the rude rafts now in use, with the addition of a light toll on passengers and cattle, will no more than cover the necessary expences to be incurred by the Association, and as the traffic is infrequent and the population scanty, a lease of three years would perhaps be hardly a sufficient term to grant, in order to reimburse the planters for the outlay which will be required in substituting boats for rafts. The Board resolve therefore to authorize the proposed arrangement for five years as desired by the Association, and to request the sanction of Government for permitting them at the same time to levy tolls at the rate named in their Honorary Secretary's letter.

No. 33. ORDER THEREON, No. 654; dated 20th May 1858.

The Government approve the recommendation of the Board to transfer the management of the Wynaad Ferries to the Planters Association, with the annual allowance of near 200 Rupees now disbursed from the Treasury in the payment of the Ferry-men. The transfer will be made over under a lease of five years, as the Board think that period necessary, to allow the planters sufficient time to reimburse themselves for the outlay, which they will have to incur in the construction of proper boats. Sanction is also given for levying a light toll, to be arranged between the Collector and the planters, to cover the expense of maintaining the Ferries. In thus acceding to the proposal of the planters, it is to be understood that no compensation is to be claimed, should Government resolve to bridge the rivers hereafter, or the present line of communication be diverted in the meantime.

2. The planters will be required to keep and submit yearly to the Collector an account of the working of the Ferries, for the information of the Board and Government.

(Signed) W. H. BAYLEY,
Acting Secretary to Government.
