No. 714.

Extract from the Minutes of Consultation under date the 31st May 1858.

Read the following letter from the Acting Secretary to the Board of Revenue.

Reporting on the settlement of the land and Extra Revenue of the Madras Presidency for Fusly 1265, A. D. 1855-56. (Here enter 12th October 1857, No. 3414.)

1. With the above letter the Board of Revenue submit the prescribed Statements of the entire Revenues of the whole of this Presidency from land, and other sources for the Fusly year 1265, comprising the interval from 1st July 1855 to 30th June 1856, at the commencement of which Fusly the appointment of a separate Commissioner in the Northern Cirkars was abolished.

2. In comparing the results with the previous Fusly, it must in many cases be borne in mind, that that year was shortened by eleven days in consequence of the accounts having then for the first time been closed on 30th June, instead of 11th July, as had hitherto been customary. The Statements from the Districts were for the first time submitted in the new forms prescribed on 23rd August 1856.

3. The rains in the Fusly under review were below the average fall. The S. W. Monsoon failed to a considerable extent, and the freshes in the rivers fed from the western ghauts, and watering large portions of the eastern coast were fewer, and lower than had been known for many years. The fall of rain during the N. E. Monsoon was in the northern districts tolerably abundant, but in the southern part of the country it was scanty, and throughout the whole country it was partial and irregular.

4. The dry crop was abundant: The wet crop, in the great proportion of the land, which is dependant for its irrigation on the fall of rain, was comparatively a failure, rendering necessary large remissions for withered crops, and to induce specially the cultivation of dry crops in wet lands where the season did not admit of the usual cultivation. In marked contrast with this, was the state of the country whose irrigation was supplied by the two great annicuts of the Kistna and Godavery rivers. Here wet cultivation was carried on widely, and abundant crops resulted, and this effect was more especially marked in the talooks of Amalapoor in Rajahmundry, and of Goodewadah in Masulipatam, where very heavy losses must have ensued but for the artificial supply of water thus afforded.

5. The year generally was healthy, except in the Districts of Malabar and Canara, where small pox was very prevalent, and in the last District and in Madura fever prevailed to an unusual extent. Cholera would seem to have been comparatively rare, and murrain among cattle was less than usual.

6. The Board submit a statement of the fall of rain as recorded in each District, but it is evident that much more care is needed before the returns obtained from the talook guages can be relied on. In the present instance, the returns from Vizagapatam and Salem, involve some manifest error, and it is scarcely to be believed that less rain fell in Tinnevely than in any other district in the whole Presidency. The Board of Revenue will please to call the attention of the several Collectors to this subject.

7. Prices ruled exceedingly high, the average of the whole being, in all sorts of grain, save cholum and horse gram, in advance even of the high rates obtained in the previous Fusly, and still more so of the commutation rates, while they were far beyond those which had prevailed during the ten years from fusly 1253 to fusly 1262. It is satisfactory to observe that these high prices are no where stated to have caused individual distress among the poorer classes, and from the abundance of the harvest on the whole, and judging by the ease with which the revenue was collected, the Government are disposed to believe that there was no unusual pressure upon them. The subject however is not one that should be passed by the Board without notice or remark. It is observed that in paras. 16 to 22 of their report on fusly 1264, the Board discussed the subject as connected with that year, and a similar course should be adopted in future.

8. Garden produce too stood very high, and on the whole, it may be said that though in some Districts prices fell somewhat lower than in the previous year, there was not manifested

any general disposition to recede from the high standard attained in the year of scarcity 1884 and since still raised, notwithstanding the increased production, and the greater breadth of land under cultivation consequent on the measures that have been taken during recent years for the reduction of excessive assessment.

9. The effect of these may be partly judged of by the following facts. In the year under review more than 1,250,000 acres of fresh land representing a full assessment of nearly 35 lacs of Rupees were brought under occupation, and deducting the extent of land given up for the usual fallow, and from incidental causes, which in this year were somewhat aggravated in places by the abolition of the dittum, and the announcement to the ryots that they would have to pay for all land not formally resigned whether cultivated or not, there was still a considerable net increase in the area occupied.

10. This occupation of new land was specially observable in North and South Arcot and in Trichinopoly, where more particularly the recent reductions of assessment have been carried out. In these 3 Districts upwards of 400,000 acres of fresh land, assessed at more than 12 lacs of Rupees were taken up, and the general effect in South Arcot is stated to have been that in unirrigated land the cultivation rose from 25 to 35 per cent. of the cultivable area; that in irrigated land, there was a considerable increase, while in two crop land, the cultivated area was 23,515 acres in the year under report as compared with 13,223, the average prior to the reduction of assessment.

11. The very favorable state of the market, as above noticed, aided the collection of an unusually large amount of revenue with comparative ease.

Current year's Revenue.	
Land...	Rs. 372,04,062
Sundry sources...	107,67,688
Extra revenue and interest...	4,21,025
Total.....	483,92,775
Collections of Revenue.	
Rs. 435,41,098 within the fusly.	
41,39,747 from end of fusly to 31st Jan. 1857.	
Total... 476,80,845	
7,11,930 balance on last date.	
483,92,775 Total.	

12. The net increase of Revenue over that of the previous year was upwards of 20½ lacs of Rupees as noted in the margin, distributed in due proportion over the different sources of Revenue, and the Government will now proceed to notice the outturn of these, as compared with the previous year.

Net increase of Revenue in Fusly 1265 over 1264.	
Land Revenue	Rupees. 12,44,046
Sundry sources	7,16,555
Extra Revenue and interest...	95,146
Total.....	20,55,747

See Statements 12 and 15 and para. 30 Board's letter.

The total Revenue from all sources amounted to Rupees 483,92,775, as noted in the margin, being higher than that of any one of the last 12 years, and of this sum, Rupees 435,41,098 were collected within the Fusly, during which period also a further sum of Rupees 43,17,463 was realised out of the outstanding balances of former years, the total collections within the year exceeding those of the preceding year by nearly 40 lacs of Rupees. A further sum of upwards of 40 lacs of Rupees was collected on account of current revenue.

of Rupees as noted in the margin, distributed in due proportion over the different sources of Revenue, and the Government will now proceed to notice the outturn of these, as compared with the previous year.

Land Revenue.

	Rupees.
Land under Permanent Settlement...	49,76,039
Do. under Ryotwari...	312,29,587
Do. rented for 1 year...	2,02,012
Do. for more than do. ...	1,93,630
Do. under "Amany"...	1,05,823
Quit rent of Enam and Shrotriem villages...	4,96,971
Total.....	372,04,062

13. The total land revenue for the year was Rupees 372,04,062. Of this sum, about 50 lacs were derived from land under the Permanent Settlement, and upwards of 312 lacs from land under Ryotwari Settlement, the remainder being revenue from land rented for terms of years, or on division of produce, and from the quit rents on Shrotriem and Enam villages.

14. The Ryotwari Settlement is the only one calling for particular notice. In this there was a net increase of Rupees 12,45,730 over the preceding year, and this notwithstanding the unusually large amount of remissions necessary on account of withered crops, and as a special inducement in Tinnevely to raise dry crops in land bearing a "wet land" assessment, but in which the supply of water failed signally. It was distributed over 16 Districts out of 21, and was largest in North and South Arcot, Trichinopoly, Nellore, Salem, Tanjore and Tinnevely. In the two last Districts it was due to the enhanced price of grain according to which a large portion of the land revenue fluctuates under the "Woolungoo" system. In the other Districts it was mainly the result of the encouragement to cultivation afforded by the recent measures for lowering the assessment where unduly heavy, and as such is very gratifying. In South Arcot alone the increase was nearly 5½ lacs of Rupees.

15. The net increase of land revenue was Rupees 12,44,046 as noted above.

16. The cultivation of Indigo was increasing and promised to be progressive, that of sugarcane had slightly fallen off, while in cotton there was a decrease of upwards of 70,000 acres in the area cultivated. More than half of this was in Bellary, and is explained by the fact that the state of the market rendered grain a far more profitable article of cultivation.

Revenue from Sundry Sources.

	Rupees.
Abkarry ...	22,32,662
Mohiturpha...	10,97,486
Salt ...	53,99,547
Sea-Customs ...	11,80,808
Sayer...	1,96,431
Stamps...	6,60,754
Total.....	107,67,688

17. The increase in the Salt revenue is the only point calling for notice from Government. The net increase of Rupees 3,70,639 under this head resulted from a gross increase of Rupees 5,18,981, and gross decrease of Rupees 1,48,340.

The increase was in every branch of "Home" "Inland" and "Exportation" sales. The quantity sold for "Home" and "Inland" consumption, which last includes the trade across the frontier into the territory of the Nizam, was 53,17,854 Indian Maunds, being in excess of the average similar sales of the previous 5 years by 4,53,781 Indian Maunds.

The stock on hand at the close of the season after deducting upwards of 5½ lacs of Maunds, being the difference between 400 and 24 Mercals, the former and present equivalents of 120 Maunds was 82,55,712 Indian Maunds.

18. The large increase in the revenue from this, and the other "Sundry Sources" affords an additional reason for believing that distress among the poorer classes was not a concomitant of the high prices ruling in the market. The Revenue under the head of extra revenue (Sevayi Jumma) and interest, calls for no particular notice, save to observe on the satisfactory result of the management of the forests in Canara, from which source Rs. 1,31,541 were derived from the sale of timber in the year under review, showing an increase of upwards of Rupees 72,000 over the previous year.

19. The total collections of current revenue and arrears, during Fusly 1265, amounted to Rupees 478,58,561, and the total charges of management and collection, including those for the Police administration of the country, which under the present system cannot be distinguished, were Rupees 54,51,630, or about Rupees 11-6 per cent., the increase over the previous year being mainly due to the longer period of time included.

20. The balance due on account of the current year's demand was on 31st January 1857 reduced to Rs. 7,11,930, which on the date of the Board's report remained for future adjustment; much of it, it was expected would be realized. Act XXIII. of 1856, has supplied many of the defects of the previous laws for realization of arrears by distraint of personal property, and the still existing difficulties, will it is hoped, be speedily removed by further legislation.

21. The outstanding balances of former years had up to the end of January 1857, been reduced by a sum of Rupees 51,23,682, either collected or remitted. A further sum of Rupees 2,23,056 was subsequently remitted by orders of Government, and the remaining total of old arrears is divided by the Board as follows:

Recoverable	Rupees.
Doubtful...	6,19,558
Irrecoverable	1,78,900
	2,02,218
Total...	10,00,671

22. Of the last mentioned amount, the Board propose for remission the sum of Rupees 1,77,165-13-5 composed of items under each head of revenue, and regarding some of which the Board supply information, while the whole having been carefully scrutinized by the Council accordingly authorizes the writing off of this sum of Rupees 1,77,165-13-5 to Profit and Loss in the Public accounts.

23. The Statement No. 16 submitted by the Board, and referred to in para. 45 of the letter under consideration, is one of interest, incomplete and imperfect as it is admitted to be, and goes to show that the average assessment per acre on so much of the cultivated area of the Presidency as is included in it is not so excessive as is usually supposed. But averages are proverbially fallacious, and although it may naturally be expected that the least unfairly assessed part of the cultivable area will be selected for cultivation, it is beyond doubt that the assessment on even the cultivated area includes much of burdensome and repressive taxation, which it is trusted may be remedied by the approaching general survey and revision of the assessment. The quinquennial returns due with the next report will probably throw further light on this question.

24. These proceedings of Government have been delayed in order to obtain from the Board an explanation of the discrepancies apparent between the entries regarding Fusly 1264 in the Statement accompanying the present letter, and the similar ones in those which accompanied the report for that Fusly. The Board's reply shows how some of these have arisen, but generally fails to prove that they were unavoidable, or consequent on the new forms of Statement, and the Government trust that they will not appear in future.

25. The Government note with much satisfaction the expression of the Board's approval of the conduct of public business by all the Revenue officers subordinate to them.

C.
W.M.

In the above letter
the Bd. of Revenue submit
the prescribed statement
of the entire Revenue of
the whole of this Presidency
from Land and
other sources for the
Fusly year 1265 comprising
the interval from 1st July
1855. to 30. June 1856.
at the commencement of
which Fusly the appointment
of separate Commissioners
in the H. P. was abolished.
In comparing the results
with the previous Fusly. it
must in many cases be
borne in mind that that
year was shortened by
heavy rains in consequence
of the accounts having

time for the first time been seen
on 30 June. instead of 11 July
as had hitherto been customary

The rains in the South
western rivers were below
the average fall. The S.W.
monsoon failed to a considerable
extent. and the prices in
the rivers fell from the Eastern
Shanto. and watering large
portions of the Eastern coast
were fewer. and lower than
had been known for many
years. The fall of rain
during the S.W. monsoon was
in the Northern Districts tolerably
abundant. but in the Southern
part of the country it was
scanty. and throughout
the whole country it was
lateral. and irregular.

The Dry crop was abundant.
the wet crop. in the great
proportion of the land. which
is dependent for its irrigation
on the fall of rain. was
~~considerably~~ ^{considerably} a
failure. rendering necessary
large Expenditure for
watered crops. and
to induce specially the cultivation
of Dry crops. in wet land

The statements from
the Districts confirm
the first view taken
in the last form of
23 August 1856

714
5

During the season did not see
of the usual cultivation.
In some had contract
with this. was the state of
the country. whose irrigation
was ^{supplied} regulated by the
great currents of the district
and Godavari rivers. but
the cultivation was carried
on widely. and abundant
crops resulted. and the
effect was more depressed
marked in the Taluk of
Amalapur. in Rajahmundry
and of Godavari in
Machilipatnam. Some very
heavy losses must have
resulted but for the artificial
supply of water there afforded.

The year generally was
healthy. except in the District
of Malabar. where
Smallpox was very prevalent
and in the last District. and
in Madras Town prevailed to
an unusual extent. Cholera
would seem to have been
comparatively rare. and
mortality among cattle
was less than usual.

The 18th submit a table
of the fall of rain
recorded in each District
but it is evident that
much more care is needed
in the returns obtained from

The Hon. of Ind. will please direct the attention of the several collectors of this subject?

Garden produce too stood
 very high, and on the whole

 in some Districts. prices full
 somewhat lower than in the
 previous year. There was not
 manifested any general
 disposition to recede from
 the high standard attained
 in the year of scarcity 1863.
 notwithstanding the increased
 production, and the greater

It is satisfactory to have that
these differences are now stated.
I have carried individual differences among
the lower classes, and from the abundance
of the harvest on the whole - and judging by the
case with which the Museum was collected, the
Government are disposed to believe that there was no
humanal prices are upon them. The object of Law
is not one that should be passed by the B.A. with
justice or humanity. It is obvious that in persons of
this report on the B.A. his mind is not yet as com-
plete as that year, and a similar crisis should be adopted.

The effect of these may be
partially judged of by the
following facts. - In the year
1860 we owned more than
1,250,000 Acres of Fresh Land
requiring a full Assessment

This occupation of land has been especially ~~important~~ ^{important} in North & South Ariz. and in Tichirofoly. & the most particularly the great reductions of the reservation have been carried out.

In these 3 Districts upwards
of 400,000 Acres of Trapper
land. succeed at more
than 12 Acres of Super-
bison taken up in the year.

The total Land Revenue for the year was Rs. 3,37,254.00. Of this sum about 50 Lacs were derived from Land under the Permanent Settlement and upwards of 3.2 Lacs from Land under Ryotwari Settlement. The remaining

The best increase of value
was \$12, 44, 046, as
noted above.

so increasing. and promised
the progressive. that of
Sugar cane suddenly
fallen off. While in 1880
there was a decrease of
upwards of 70,000 acres in
the area cultivated. More
than half of this was in India
and is explained by the fact
that the state of the market
rendered grain a far
more profitable article of
cultivation.

L. K. Swenna from
"Schmidt"
the bones there has a
net increase of upwards
of 7 lbs. distributed over
each of the 8 ribs included
under that head except
Rokomika in which there
was a slight decrease.

This increase in the
Salt Revenue is the only
point calling for notice
from Govt.

The net increase of
D. 3,70,639. and this had
resulted from a Gross increase
of D. 5,898/- and a Gross
decrease of D. 1,48,340.

The increase was in every branch of "Home" "Industry"

Collection within the Society.

Trans. No. M. 435, 41, 098.

Old brass. 43, 17, 463

$$\frac{714}{9}$$

The total Collection of
Current Revenue and Treas.
During July. 1265. amounted
to Rupees. 4,78,58,561. and
the total charges of
Management. Collection.
including those for the India
administration of the country
which under the present
system cannot be less than
Rs. 54,57,030
or about Rs. 11.6. per cent.
The increase over the previous
year being mainly due to
the longer period of time in
collection.

The balance due our
account of the Current year
Amount was on 31. Feb. 1851
Amount \$20,744,930. Which
on the date of the B. & O. report
remained for future adjustment
Much of it was expected to be
realized -

The out. standing
balances of former years
have up to the end of Jan.
1837. been reduced by a

Sum of Rs. 5,23,682. Extra
collected or omitted. A
further sum of Rs. 2,23,055
was subsequently omitted
by orders of Govt. and the
remaining total of Rs. 7,46,737
is divided by the Govt.
as follows.

Recoverable - 6,19,558
Doubtful - 1,28,900
Unrecoverable - 208,279
Total - 10,02,677

Of the last mentioned sum
the Govt. propose for Disbursement
the sum of Rs. 17,71,155.13.5
composed of Rs. 10,00,000
each kind of Revenue and
regarding some of which the
Govt. supply information. While
the whole having been carefully
examined by the Govt. and
found to be absolutely
unrecoverable.

The Govt. the Govt. accordingly
authorizes the writing off
of this sum of Rs. 17,71,155.13.5
Profit and Loss -
in the Public Accounts.

214
10

The Statement No. 16.
Submitted by the B. and
referred to in para 45.
of the ~~Govt.~~ letter under
consideration is one
of interest, in complete
and imperfect as it is
admittedly ^{to be} so, and
goes to show that the
average assessment
per acre on the cultiva-
ted Area of that portion
of the Presidency, included
in it is not so exas-
perated as is usually
supposed -
But averages are
proverbially fallacious.
and although it may
naturally be expected that
the least unfairly
assessed part of the
cultivable area

with the intention for examination
it is beyond doubt that
the assessment being the
cultivated area includes
much of burdensome
and oppressive taxation
which it is trusted
may be remedied
by the approaching general
survey and revision
of the assessment.

The quinquennial
returns due with the
next report will probably
throw further light on
this question.

These proceedings
of Govt have been delayed
in order to obtain

214
11

from the Govt an explanation
of the discrepancy
appearing between the entries
regarding July 1864
in the statement accounts
concerning the present
letter and the similar ones
in the 2d account
the report for that July

The Govt reply shows that
some of these have arisen
but generally fails
to prove that they were
unavoidable or con-
sequent on the disproof
of statements and
the Govt must that
they will not appear
in future.

The Government
is not with much
satisfaction the
impression of

the approval of the conduct
of public business by
all the Revenue Officers
subordinate to them.

16 March 58. J. A.

Revenue Board Office,
Fort St. George,
12th October 1857.
No. 3414

From,
J. O. Sim Esqre
Ag Secretary to the Board of Revenue.
To,
H. Forbes Esqre
Ag Secretary to Government,
Revenue Department.

Sir,

I am directed by the Board
of Revenue to submit the accompanying
Statements of the Revenues of this Presidency
from Land and other sources for July 1855
or from July 1. 1855 to July 1. 1856. The dis-
tinction between the Districts under the
Board and those under the Commissioner
for the Northern Circars has ceased in
consequence of the discontinuance of that
Commission at the end of June 1856, and
this Report embraces all the Districts
of the Madras Presidency. The Statements
from the several Collectors are drawn up
according to the new forms circulated on
the 23rd of August 1856.

The

2. The names of the Districts with the number of Talooks in each, are given below. The names of the Officers in charge and of the Head Sheristadars are added as in last year.

Number	Districts	Collectors	Sheristadars
1	Ganjam	5 Mr. W. H. Fox	Vencoba Row.
2	Veragapatam	3 P. B. Smollett	G. Krishna Row.

12	South Arcot	16 Mr. W. H. Fox	Geendapah.
13	Tanjore	8 Mr. J. B. Smollett	Balaji Row.
14	Tiruchirappalli	8 A. J. Sullivan	Rama Row.
15	Madurai	13 E. B. Thomas	Venkat Row and Honary Row.
16	Tinnevely	11 K. A. B. B.	Krishna Row.
17	Covimbatore	12 W. Fisher	Bonifacio Fernandes.
18	Salem	16 J. Clarke	Perronbay Honary Menon.
19	Canara	1 B. Carlisle	A. Sivavengada Charles.

3. The rains of the S.W. Monsoon were scanty generally. The River freshes were also

24
13

also affected by this cause. The S.E. Monsoon varied. In some Districts as in the Northern Circars, Nellore and the central Districts, it was favorable, while in the Southern Districts the rain which fell during this period was rather scanty. Still the season was not altogether unfavorable. The Dry Crops yielded a fair return in the whole. The want of rain was chiefly felt in irrigated lands though such as draw their supplies of water by means of ancient formed an exception. The condition both of the Revenue and of the people, where the irrigation is thus supplied with certainty, so far as human arrangements can ensure such a result, forms as usual a striking contrast (as will be seen in the course of this review) with that which is presented where the same favorable circumstances do not exist.

Ganjam.
Veragapatam
Rajahmundry
Madulipatam
Guntur.

In the five Districts composing the Northern Circars the out turn of the Dry Crops with the exception of the Jonna in certain parts of Rajahmundry (which was injured by excessive rain in the month of October) was favorable. In Guntur however the season was suited to the

the Janna Crops which, though affected
by the want of rain in August, recovered
afterwards and yielded a good return.
The Wet lands generally in the Northern
Circars were less productive. In Ganjam
the rains which had been abundant
before, failed at a critical time, when the
Crops were in an advanced state of maturity.
In Vizagapatnam (in the South Western
parts of the District where the Government
Villages are situated) the early rains were
scarce, while heavy falls took place late
in October. The deficiency of the early
rain in this District led to a contrac-
tion of the cultivation as well as a loss
of produce, but the season, from the
copious rains of the N.E. Monsoon, was
on the whole prosperous. In the Districts
of Rajahmundry, Masulipatam and
Guntur, the cultivation of lands under
rain fed Tanks and River Channels,
not possessing the continuous supply
of water which an ancient secures,
was deficient. For many years, the
Collector of Rajahmundry observes,
there has not been a season in which the
failure

Report on the Settlement
Para 7.

By Col^l Masulipatam
Report P. 3.

1303
failure of the Godavary was so marked. One
fresh only, deserving the name, occurred at
the latter end of August. In like manner
there was a want of water in the Kistnah
causing an entire failure of supply so far
as regards those Channels which are not
connected with the ancient. It was far
otherwise where the two ancients regulated
the supply. Thus in the Delta Talooks
of Rajahmundry the wet cultivation was
carried on to the full extent of the water
available and followed by good Crops. There
was a partial failure of the Harvest in
Amalapur, a Delta Talook of Rajahmundry
from want of seasonable rains and the loss
would have been much greater had not
ancient water been made use of, for the
first time to any extent in this Talook.
The benefit of the Kistnah Ancient was
experienced in a marked manner in the
Goodewadah Talook in Masulipatam,
where large remissions would have been
necessary this year but for the supply
of water placed at the command of the
Ryots by this work, as it was the Revenue
was punctually realized and the Ryots
reaped

reaped an abundant harvest, the value of which was much increased by the enhanced prices which prevailed. The acting collector of Guntoor also notices the marked advantage of the irrigation being uninterruptedly sustained by the head of water at the anicut across the Nistnah at Bezwadah. In the Western Talooks of that District the rains did not afford a timely and sufficient supply generally to the Tanks. In like manner the numerous Tanks in the Talooks of Guntoor bordering on the Nistnah and supplied by means of shallow channels from that river, were left half dry through the specks not having risen high enough to enter them. On the other hand within the influence of the Nistnah anicut the supply of water was timely and abundant. With a trifling exception the anicut of cultivation in Guntoor, its operations hitherto have been confined to securing a larger and more certain supply to existing works. These are the old Songabudra and the Commamoor branch channels which

From acting collector
Tirup.

are now very efficient.

5 The main features above described are more or less applicable to the central and Southern Districts. In all the early or S.W. Monsoon was scanty, but ample falls of rain occurred in Kolleru and the central Districts, during the N.E. Monsoon, and saved the Ryots from heavy losses to which they would have been otherwise exposed. In Chingleput, South Arcot, Tanjore, Trichinopoly, Tinnevely and Coimbatore the N.E. rains were either late or more or less failed. The river freshes in the Southern Districts, as in the Northern, were deficient. Those of the Coleroon and Cauvery were late and unusually low throughout the year. The Vijay in Madras received no water in the early months when it was most needed, and only a low fresh in August. The Tambaperoony in Tinnevely was unable to furnish a supply to the distant Tanks in the Talooks of Arcotgomtum and Panchamal and so scanty was the quantity of water in this River from August to October that a portion of the crops

a
From Coll. of Tanjore.
do of South Arcot.
do of Trichinopoly.

b
do of Madras.

c
From collector. Pond.

dependent

dependant upon it could not be brought to maturity. Similar failures occurred in Coimbatore the irrigation of which is drawn from the Cauvery, the Pawan, the Noyel and other minor streams.

The rains in Canara though much below the average quantity, were seasonable. In some places the rice crops suffered but on the whole the harvest in this District was more abundant than in the previous year. Malabar was not so fortunate. The first crop was by no means an abundant one and the second, which is reaped in January and February suffered severely in some parts of the District.

The Statement entered in the margin shows the quantity of rain reported to have fallen in the District under report in each district, but the Board have great doubts if the Gauges are properly attended to especially in Vizagapatnam and Salem. The fall of rain as reported

	Sept to October 1855 inches	October 1855 to March 1856 inches	For the whole year inches

Sanitary condition
of Presidency

From Collector's Report

ported in Malabar and Canara, is much below what is supposed to be the average of the Western Coast.

Fever is particularly mentioned by the Collectors of Madras and Canara as having been prevalent and small pox by the Collector of Malabar. This Officer deputed his own Doctor specially to do what he could in alleviating suffering, in the Talook of Coimbatore where the disease was chiefly raging. In Quilandy, the chief town of Coimbatore, the deaths from Small Pox at one time were from 10 to 15 per week. With these exceptions the sanitary condition of the Country generally was favorable presenting little difference from ordinary years.

Prices.

Prices, though in some Districts slightly below those of the preceding year, showed little disposition to recede from the high standard they have preserved during the last two years. In the Northern Circars the Price of Paddy maintained its ground, partly apparently from there being little of this description of grain in Store and partly from an unabated

unabated demand for it in the markets of Europe. The prices of Sonna and Horse Gram fell in consequence of an abundant Harvest in both these kinds of Grain, arising in the former case from the dryness of the season during the early months and in the latter from the favourable rains of the N.E. Monsoon.

10 As regards the other Districts, the price of Horse Gram fell considerably every where, but other descriptions of Produce for the most part bore higher rates than in the preceding year. The current prices having been so much higher than when the assessments generally were originally fixed, were highly remunerative, and enabled all to discharge their rents with ease, notwithstanding short produce in some cases as noticed above: the more substantial land holders profited largely. The enhanced prices, which have prevailed of late might have been expected to give way in South Arcot, where so much fresh land has been occupied in consequence of reductions in the assessment,

214
17

1600 assessment, but it was otherwise and Mr. Hall, the Collector is of opinion that the demand for all sorts of produce is so far from being satisfied, that increased production, other things remaining the same, is not likely to affect prices for some years to come.

11 In Canara the prices of grain were higher than at any time during the past 30 years. This is attributed by the Collector to the circumstances of the supplies, usually brought into the District from about the Ghauts, having been taken to places where there was scarcity and to the produce of Canara having been exported to Malabar, where the crops had failed in some degree. All Garden products, including Cocoanuts, were in increased demand and obtained enhanced rates. The price of Cocoanuts

was influenced by the demand for the oil of this Nut in Europe. Betel nut, Pepper and Cardamoms stood high.

In Malabar the wholesale price

	Betelnut per Candy	Pepper per Candy	Cardamoms per Candy
Average price from July 1253 to 1255 during the Kandab duties - 3	Rs. 2 1/2	Rs. 13 3	Rs. 7 0 9

Increase	4 13 10	10 1 1	227 7
Percentage	13 1/4	36	59 1

214
18

price of Rice was about 10 per Cent above the high rate of the preceding year and 4.8 per cent above the average of the five previous years. With a comparatively short season Malabar was also subjected to the abstraction of a considerable quantity of its home produce from the Western part of the District to fill up the vacuum occasioned by the scarcity in Coimbatore and Cochin, but prices were regulated in its Bazaars by very large importations of rice from Canara and Bombay, chiefly from the former place. The trade was almost entirely in the hands of Native Merchants, who are represented as keenly alive to the state of the Demand and supply in the several localities within the sphere of their operations. The price of Coconuts in Malabar was also very high during the season under report, not so much in consequence of an unfavorable character of the season as from a brisk foreign demand for Coconuts &c.

13. Statement N^o 2 accompanying shows the average wholesale prices of grain in the several Districts for July 1263-1853-54.

Statement 2 A exhibits in like detail the retail prices. The following is an abstract of the latter document and affords a general view of the Market rates of the chief descriptions of grain for the period in question, in comparison with the rates of the two preceding centuries and the average of 10 years previous to July 1263-1853-54 during which prices were more or less depressed.

Extent of land in occupation.

The practice of taking formal engagements from the Ryots at the commencement of the season as to the extent of land to be occupied in the ensuing year, or the "Dittum" as it was termed, has, as the Government are aware, been discontinued. These formal engagements, apart from the evils attending the system (such as forced occupation

15 At first sight it would appear that there has been a great relinquishment of land this year. Such however is not really the case. As much of what may have been given up at the commencement of the season, and thus brought under Entry is occupied afterwards if the season as it advances becomes more favorable and is then entered as land taken up. This was experienced in a considerable degree in the present year. Again a large extent of land was given up that it might be fallow for a time but such relinquishment is in a great degree made up, by applicants for land in other parts of the Village. These two causes viz doubtful prospects of the season at its commencement, and the necessity of fallows will always affect this item of "relinquishment". Again in Bellary the old practice of allowing Ryots to retain land which they did not intend to cultivate, and the assessment of which it was customary subsequently to remit at the annual Settlement, was this year abolished to some extent and the Ryots were informed that they would be held liable for the assessment of all land actually occupied. This accounts partly for the entry under the head of Land relinquished.

16 The value of fresh lands occupied was very considerable amounting to about 35 lacs of Rupees. This was produced in part by the two first causes mentioned in the preceding para but

714
19

occupation of land, and occupation of unproductive land to be afterwards deducted at the Settlement, have been found to be altogether unnecessary. The extent of land occupied during the preceding year, with deductions for land relinquished and additions for such land as may be newly taken up, forms the basis on which the current Settlement is made. Thus the extent of land in occupation in the year under Report, exclusive of Canara, Malabar and Madras in which the extent of land is not entered, was 122,05,313 Acres assessed at 304,34,710. With the three excepted Districts the assessment amounted to Rupees 34,39,213. The particulars, shewing the relinquishments of land and the additional land newly occupied are as follows.

Land in occupation in the preceding year		121,02,024
Land given up		
Land taken up		90,14,07 - 11,45,312
Waste remitted		11,20,207 - 27,01,090
Actual Cultivation		12,56,830 - 32,15,303
Assessment of Waste charged		12,61,803 - 31,14,659
Land Assessment of Canara		31,27,24 - 71,97,43
Land Assessment of Malabar		12,20,5313 - 30,40,4710
Land Assessment of Madras		22,50,7800
		39,88,800
		22,72,593
		1,78,638
		70,471
Total		34,39,213

Note. The for each District are shown in the Report N. 3.

but the main increase is to be traced to the improved condition of the agricultural resources of the Country, particularly in those Districts where pressure from excessive assessment has been lately relieved by special reductions of assessment. North Arcot, South Arcot and Trichinopoly are particular instances of the result of this policy. The extent and assessment of new land taken up in each of these Districts are shown in the margin. The Collector of North Arcot notices the subject only briefly. The Collector of South Arcot draws attention particularly to it as highly satisfactory and observes that the extension of cultivation is mainly to be attributed to the liberal reduction which was made in the rates of assessment in July 1857. In this District the cultivation of unirrigated lands has risen from 25 to 35 per Cent of the cultivable area. In lands that are irrigated the increase is also very considerable while in lands yielding 2 crops of rice where the annual extent cultivated prior to the reduction of assessment was 13,223 Acres on an average, the extent was 25,315 acres in the year under report. The Collector of Trichinopoly also notices the increase as highly encouraging particularly when it is considered that the early part of the season was unfavorable.

The assessment of the actual cultivation of all the Districts amounting as

B.
C.

as stated in para. 14 to 34,394,218 ¹⁸² includes also Rupees 896,850 on account of waste land charged in the Ryots Pottahs. This item appears large, but it embraces the waste lands in Masulipatam and Rajahmundry, where joint pottahs prevail, the entire Waste being included in these Pottahs.

The particulars of the cultivation in the several Ryotwar Districts are exhibited in Statement No. 4. as this system has peculiarities in Tanjore, Trimucelly, Coimbatore and Madras, three separate summaries to that Statement are forwarded, explanatory of the details of the Settlement in these four Districts. The peculiar feature of the Settlement in Tanjore (at least in those Villages where the field assessment is not observed) and in Trimucelly, is the adjustment of the Demand on the Ryot in each year with reference to current prices. A standard price, as it is termed, and a standard grain assessment were fixed some years ago but the actual demand in each year is regulated with reference to the average of the prices that may prevail during the year.

year, the grant assessment remaining invariable. Thus in these two Districts looking to the land in occupation during the season under report the excess in Revenue amounted to Rs. 11,55,436 according to the rules of the settlement 10 per cent of this sum or Rs. 2,15,207 is struck off, and the remainder or Rs. 14,10,228 is collected from the Ryots.

In Canara the extent of land in the occupation of the several land holders is not recorded in the Revenue accounts. Each holder of land pays to Government, a consolidated sum for the aggregate land in his holding, which is composed of distinct isolated plots, situated either in different parts of the same village or in several villages. The peculiar features of the system in this District as well as of that observed in Tinjore and Tirunelveli were explained in the Proceedings of the Board reporting on the Settlement of the Land Revenue for July 1862/53. The Land Revenue in the Collectorate of Madras, as shown just sent and does not call for special

N. 4 A.

17th August 1862
N. 1740
Part 7 C 9 and 32

remark.

19. The general result of the Settlement of the Land Revenue exhibits an increase of Rs. 12,45,734 above the preceding year, as explained in the following tabular Statement.

	July 1865.		Increase or Decrease	
	Excess.	Assessment.	Area.	Assessment.
	Acres	Rupies.		Rupies.
Unirrigated	94,77,455	12,33,620	+1,80,667	+6,77,216
Irrigated	2,72,788	16,85,201	+32,780	+9,66,315
Total	1,22,05,313	29,323,331	+2,13,447	+16,33,531
Deduct for second crop		4,35,158		- 8,107
Increase from the land being brought under a higher rate.		6,45,527		+11,57,866
Total		30,02,706		+17,41,205
Canara Malabar and Nicobar where no rate of land is made.		3,98,950		- 3,467
Total		34,39,428		+17,37,739
Deduct Remissions		4,88,160		+1,73,982
Remainder		29,51,268		+12,63,757
Add Sundry items		1,77,059		- 18,023
Total		31,22,757		+12,45,734

20. Referring to the foregoing table it will be seen that the net increase of Revenue on the cultivation before Remissions and Sundry items are considered,

was Rs 17,37,739 which is comprised of a gross increase of Rs 20,51,655 in 16 Districts, and a gross decrease of Rs 3,13,916 in 5 Districts. The decrease occurs almost entirely in Bellary and is nominal, arising from the circumstances stated in the latter part of para. 15. On the actual cultivation it appears from Para. 16 of the Collector's report that there is an increase of Rs 11,602. The Districts in which the increase has been considerable are Nellore, North Arcot, South Arcot, Tanjore, Trichinopoly, Tinnevely and Salem. In Tanjore and Trichinopoly the increase of Land Revenue arises from enhanced prices of grain as already shown. In the other Districts mentioned, it is for the most part the result of the stimulus imparted by reductions of the assessment, thus fulfilling as already observed, the expectations entertained of increased land revenue with a mitigation of the assessment through the concurrence of high prices. has no doubt contributed to this result.

Decrease in Bellary 27/1827.

Increase

Nellore	19,2201.
North Arcot	18,783.
South Arcot	53,61,95.
Tanjore	2,65,665.
Trichinopoly	11,602.
Tinnevely	4,15,674.
Salem	11,227.

?Tinnevely

21 In the abstract table above the "Remissions" are entered at Rs 48,81,670, but

Remissions.

Est. of July 1839
10,774 R.C.
Statement No. 7.

but this sum does not include the Polling or tax on Cattle in Guntoor, which under the orders of Government has been finally struck off. With this item added the remissions during the year amounted to Rs 49,33,329 as shown in Statement No. 7, and consist of.

	July 1836	Amount or Remission paid with July 1836.
Occasional Remissions		
Fine — do.	2,54,625	+ 2,54,625
Payments to certain individuals at the Settlement.	23,10,252	+ 23,10,252
	25,64,877	+ 25,64,877
	49,33,329	+ 49,33,329

22 The occasional remissions were large owing to the unfavorable character of the season for irrigated lands generally. Portions of fields not cultivated and the assessment of second crops not grown are included in this class of remissions, but the principal items requiring notice in this place are the usual remissions given for withered crops, and a special relaxation of the ordinary assessment in Tinnevely, found necessary under the circumstances of the season. The former

insanitary

amounted to Rupees 48,660 exceeding the Statement No. 8
 amount granted in the preceding year
 by nearly two lacs of Rupees. The Districts
 in which this increase chiefly occurred are
 noted in the margin. In Chingleput, Tanjore
 and Simmerville the permission was principally
 given for crops partially or totally withheld. In
 the first mentioned District the total sum
 struck off for withheld crops was Rupees 13,153.
 In Simmerville the permission on this account
 amounted to Rupees 13,232 but a further re-
 duction of Rupees 2,137.30 was allowed in
 this District on account of land cultivated
 towards the latter end of the season, when to procure
 a security it was deemed expedient to pro-
 vide an extraordinary stimulus to production.
 Special indulgence was accordingly offered
 in the form of a remission of $\frac{3}{4}$ of the ordinary
 assessment of irrigated and $\frac{1}{4}$ of that of
 unirrigated land for all land that
 might be cultivated after the promulgation
 of the order. A similar indulgence
 had been given in the preceding year
 but it was then restricted to two Taluqs
 only

Income

Simmerville	13,152.22
Madras	22,860

714
 23

only, in which adversity of season was
 chiefly felt. The effect of this inducement
 in the year under report was to bring
 under cultivation 8,361 acres of land which
 would have ordinarily borne an assessment
 of Rupees 29,559 of which Rupees 8,829 were
 collected, and the remainder or Rupees
 21,373.30 permitted. The sum collected would
 have been lost to the Revenue and the
 produce to the people but for the special
 remissions which have been stated.
 23. The fixed remissions as the Govern-
 ment are aware, are chiefly permanent
 reductions of the original Assessment in
 certain Districts. The reduction is made
 at fixed percentages and the amount struck
 off fluctuates with the extent of land cul-
 tivated. Thus in North Arcot owing to
 increased cultivation there is an increase
 of Rupees 30,050 in the total amount reduced,
 and this mode of adjustment will continue
 till the revision of the assessment now in
 progress in this and some other Districts
 shall be complete. This class of remissions
 was further augmented in the year under
 report

24. The third class of deductions by
those which are ordinarily made at the
annual settlement in payment of allow-
ances to Village servants and others call
for no passing remark only. The increase
of Rupas 46,972 under this head is almost
entirely on account of the payments
to Village servants, whose salaries are
adjusted by a percentage on the
amount of settlement, so that with
an increase in the Revenue of the year
there is also an increased disbursement
on this account.

25. Besides the extensive occupation of
fresh land in South Arcot, already noticed,
the value of land hitherto waste but recently
taken up on lease, or progressive payments,
was in the year under report Rupas 112,278.

Stat. No. 9.

This

This item occurs largely in Cumbalors and
Salem, but the cause is not distinctly
explained by the local authorities. Statement
No. 9 A has been prepared to exhibit this
item in the Wings or Estates in Canara,
and a further statement No. 9 B shows the
Estates in the same District in which the
full amount of assessment on the entire
Estate is payable only after stated periods.
At the commencement of the year, the
number of Estates last mentioned was
118. two Estates were added during the
year but 28 having priority to full
assessment, and 6 having been struck
out of this class in consequence of their
having been relinquished by their owners,
the total number of Estates of this descrip-
tion at the close of the year of report
was 86.

Statement No. 10. 26.

The 'Sundry items' of Revenue,
such as quit rent on Enam, Tax on Palmpal
Trees, Pollary or Pasture Tax, &c amount to
Rupas 1,71,705. Statement No. 10 exhibits the
particulars in comparison with the
preceding year. The item Quit rent is
smaller

swelled in consequence of the impetuosity of a water cess in certain Agaharams in Rajahmundry, which received water from the ancient channels, while on the other hand there is a considerable decrease under the head of pasture land, owing to too thick of the demands on this account in Guntur having been struck off under the orders of Government already noticed. It was the wish of Government that the proceeds of timber sales in Canara, the Annamalais and other places should be brought under this head from that of Extra Revenue. This has not been fully attended to in the year under report. The Collectors of Coimbatore and Canara notice the omission, and state that the orders on this subject will be carried into effect next year.

27 In the cultivation of Sugar Cane there is a small net decrease below last year, though in the gross there is a decrease of 1512 acres in Cuddapah.

Statement No. 11

	July 1865	Revenue
Sugar Cane	86054	- 220.
Cotton	797506	- 79706.
Sudgr	190771	+ 29060.

This

714
25

This and the decrease in land occupied for Cotton, which occurs in most Districts, are owing to the unfavorable character of the season. In the cultivation of Indigo there is a decrease of 16,183 acres in Cuddapah, while in North and South Arcot there is a considerable increase, amounting to 13,212 and 3,1018 acres respectively. These fluctuations are ascribed primarily to the character of the season, but the Collector of Cuddapah further states that a preference was given to the cultivation of Cereals, partly as affording fodder for cattle, and partly in consequence of the high prices obtained for grain.

General Result. 28.

The general result is an increase of Rupees 13,44,046 in the "Land" Revenue above the preceding year. Considering the character of the season and the large sums given up during the year in the shape of permanent reductions of the land assessment, this result will be considered very satisfactory, complex as it is (as shown in the figures contained in the foregoing paras) with a healthy

and

and buoyant condition of the agricultural resources of the Country. For a while it will have been seen have mainly contributed to this favorable state of things; viz. permanent mitigation of the assessment in those instances where it was found to be burdensome, and the high prices obtained for all descriptions of agricultural produce. In the "Sundry Sources" of Revenue there is also an increase of upwards of 7 Lacs of Rupees.

29. Thus the total increase from all sources above the preceding year amounts to Rupees 205,747. The Actual Revenue of the year from all sources was Rupees 482,92,775 which, on reference to the marginal table will be found to be higher than any of its predecessors during the last 12 years.

30. The increase and decrease in the several Districts are exhibited in the

	Land and Tuckinderam Revenue	Surplus including interest Account.	Total.

31. The decrease under the head of permanently settled Villages arises from the provision to be made by purchase of the small Estate of Bramana shage in Canjan, of the Mootah of Malthon and Kitha Pothum in Chingleput, and by wheat of Brachekamachanoor in Madurai. A small reduction was also made

in the Purchase of Wallah in Vizagapatam, as compensation for the presumption of the Mchlaupha previously collected by the Proprietor.

32. The increase in the Revenue Districts has been fully explained already.

33. The increase in the Abkany Revenue is chiefly in the Districts of Rajahmundry, South Arcot, Tanjore, and Madras, and is partly owing to competition at the commencement of a new term of rent. In Madras the increase is as much as Rupees 39,200, and is ascribed by the Collector in part to the consumption of Brack instead of Brandy (which is not equalled in the Abkany) by the poorer classes of Europeans and East Indians, in consequence of the high price of the latter article.

34. The decrease in the Mchlaupha is partly owing to the permission of the tax on sheep and goats in Guntoor, in accordance with the order of Govt. dated 18th July 1856, and partly to a falling off in Bellary & Coimbatore in consequence of the trying character of the season.

35. The increase of Rupees 370,639 in the Revenue from Salt is the result of a gross increase of Rs. 5,18,981, and a gross decrease of Rupees 1,48,340. There is an increase in every head, viz. Home Sales, Sulam Sales, and Exportation by sea. The increase occurs chiefly in Madras, South.

Salt
Statement of 1856
1856-57
1857-58

214
27

Revenue	237,85
South Arcot	13,972
Tanjore	10,543
Canara	57,149
Madras	30,935
Vizagapatam	23,360
Guntoor	84,514
Chingleput	22,279

26° 16' 6" South Arcot, Tanjore, Canara, Madras, and the Revenue in Vizagapatam, Guntoor and Chingleput. Both arise from ordinary fluctuations of Trade. The falling off in Vizagapatam was also partly owing to a deficiency of stock on hand. In Madras the Collector is further inclined to attribute the increase to the knowledge that changes in the price of Salt were about to take place in that District and that the unprofitable Trade of Salt would be abandoned by Government, the supply being furnished in future by local manufacture about to be newly revised, and importation of the article by means of private enterprise. The increase in Madras arises almost entirely from sales for exportation by sea.

36. The actual sales under each head with the increase above the preceding year are shown in the following table.

	July 1853	Increase
Home Consumption	2,033,973	202,273
Inland	2,823,351	174,500
Exportation by Sea	11,901,27	208,031
Sold to the French Government	57,872	12,614
	6,505,853	597,929

37. The quantity sold for exportation by Sea was 11,90,127 Indian Maunds, of which 7,00,053 Indian Maunds were exported on Government Indent, and 4,90,074 Indian Maunds on private Trade.

38. The quantity of Salt on hand at the beginning of the year, the quantity received during its progress, and generally the Salt transactions of the year are as follows.

On hand at the commencement of July 1855	92,90,002
Manufactured and purchased during the year	62,82,203
Sales	1,55,81,305
Wastage	6,50,853
	7,00,350
On hand at the close of the year	73,20,753
	92,55,712

39. The Wastage appears large but of the entire quantity 1,92,051 Indian Maunds only are properly Wastage, the remainder or 50,704 is a nominal loss, being the difference between 400 and 424 Menda, the latter having been constituted the equivalent of 120 Indian Maunds in the sales of Salt since October 1855 under the orders noted in the margin.

From April 1st July 1855 to 31st Dec 1855
C.O. 1st September 1855

See Customs. 40.
28

The net increase in the Sea Customs is to be mainly ascribed to increased shipments of Rice and Oil seeds to Europe. In Canara there was a falling off in the export of Rice to Arabia owing to the high price this article bore and a diminution in the import of Goa Salt, as the duty had been raised from Annas 12 to Annas 14 per Indian Maund. Altogether the decrease in the Revenue from Sea Customs in Canara amounted to Rupees 32,701.

Frontier Customs. 41.

Maculipatam	1554
Guntur	121
Bellary	534
Cannor	338

The duties on goods crossing the Nizam's frontiers having been abolished there is a decrease under the head of Frontier Customs in Maculipatam, Guntur, Bellary and Cannor as shown in the margin. In the importations of Goa Salt by the land route into Canara there was also a falling off, the traders having found more profitable employment in the conveyance of Grain. The increase in the Net Revenue is owing partly to increased export of Paddy from Tennevelly to Travancore, and partly to an increase in the trade between South India and the French Settlement of Pondicherry.

The principal article of increase was Indigo for which there was a great demand in Pondicherry, where it is used extensively in dyeing. It appears that much of the Indigo was brought from Cuddalore, its superior quality enabling it to compete with that produced in South Arcot, notwithstanding the long land carriage to which it is exposed.

42. The increase in the Revenue from Stamps is attributed to an extension of business in the Courts. The increase in the District of Malabar alone was as much as Rupees 25205.

43. This Head of Revenue was augmented in the year under review from its including (as a temporary arrangement only, till made over to the parties) the lands of the Village Salars in South Arcot, from a large sum having been realized as the sale proceeds of the Government Proprietary in Malabar, formerly belonging to the Puttanaad Rajah, from penalties on an account

18
29

Interest.

account of Stamp paper; and from the sale proceeds of timber in the Government Forests in Canara.

44. The demand under the head of Interest on arrears of Revenue is owing to the circumstance of an unusually large amount of arrears of Interest having been realized in the preceding year from the Pottahs in Semindary in Rajahmundry.

45. Statement No. 10 is intended to show the average assessment per acre of the different descriptions of land in each of the field assessed Districts. The permanent assessments, including those recently given in South Arcot, having been previously decided in conformity with the instructions of Government contained in Extract Minutes Com. Sultation 11th March 1850. The requisition from the Board on this subject to the several Collectors has not been fully attended to, but it is believed that the present returns of the rates per acre will not be far from the truth. The average rates, taking all the Districts together, are shown in the margin; the average rate in each District is

Unimproved 1-3-0 per acre
Improved 6-3-4
Garden 4-1-0

Land Revenue	802,045.
Sundry Sources of Revenue	32,107.
Extra Revenue (Sundry Summs)	15,778.
The Total	

$$\begin{array}{r} 714 \\ \hline 30 \end{array}$$

50-

was collected with difficulty after it became generally known that under a recent construction of the old Law, Collectors had not the power of distraining personal property for arrears of Revenue. This defect was remedied by Act XXIII of 1850 but on the other hand a fresh obstacle has been created by this enactment, which, as it limits coercive process to the provisions of Regulation XXVIII of 1802, prevents the attachment and sale of the lands of the Defaulter, except with the intervention of the Civil Court. The removal of this obstacle, which does not exist in the Bengal Code is (as the Government are aware) under consideration.

51. The actual value of the property sold for arrears of Revenue was only Rupees 14770 although coercive process issued in 42232 cases involving property estimated at Rupees 125,004, shewing that Ryots frequently withhold the dues of Government till they find that the provisions of the Law will be enforced against them. The small amount of property sold shews that default from real inability to discharge the rent is

is not frequent. 74/31
 The arrears of former years are occurring in large quantities, as is evident from Statement No. 14. The collections, including Remissions, on this account within the July and subsequently to the end of January 1857 amounted to Rupees 5123,082. The Balances outstanding at the last mentioned date were as follows:-

Peshkash	24,924.
Ryotwar &c.	100,279.
Sundry Sources of Revenue	34,249.
Swag Summah	150,352.
Total	1223,727.

52. These sums include the accumulative Balances amounting to Rupees 223,050 and are to be written off in the accounts of the year 1857. The accounts of the Collectors having been prepared before that sanction was received.

Ganjam	2301.
Vizagapatam	771.
Chilass	524.
Chingaleput	415.
Sikharvelly	1740.
Malabar	12366.

53. The arrears of Peshkash occur in the Districts noted in the margin. In Ganjam the Balance is outstanding against the late Proprietor of Bramanachary and is in arrears. The balance is outstanding against the late Proprietor of Bramanachary and is in arrears. The report of the Collector on the subject has been received and will be speedily disposed of. This Zemindary was sold for arrears and is now the Property of Government. The Balance outstanding in Vizagapatam is against the ancient Zemindary of Pauchepentah and accrued in

in July 1254 in consequence of losses sustained
by the Zemindar occasioned by dissensions
with the managing Dewan and the hostility
of the Aill-Mocassadars to that functionary.
Under these circumstances and in consideration
of the poverty of the Zemindar Mr. Robertson,
the agent at the time when the balance ac-
crued recommended that the Zemindar
should not be pressed to pay it. The balance
has however remained in the accounts un-
adjusted and Mr. Smollett the late agent
re-iterates the recommendation of his pre-
decessor in favor of its remission. The Ze-
mindar's private encumbrances amount
to about Rupees 23,300 including interest.
The Zemindar has restricted himself to
an expenditure of Rupees 1000 per annum
for his personal expenses, and a receiver
has been appointed according to arrange-
ments made by the parties themselves,
to apply the Revenue first to the payment
of the Peshush and then to the gradual
discharge of the private debt, which however
cannot be liquidated for several years as
the Estate is a poor one. Mr. Smollett

214
32

31^o 21
urges strongly that this arrangement
should not be disturbed. Concurring
in the views of the local authorities,
and in consideration of the poverty of
the Zemindar the Board have included
the balance in question amounting to Ru-
pees 770-8 as well as the Interest thereon
amounting to Rupees 459-8-10 in the re-
coverable balances to be written off.

55. Of the arrears of Peshush
in Nellore the sum of Rupees 1350-4-7
is recoverable. Rupees 3937-2-8 were re-
commended for remission in the general
report of last year, which has been sanc-
tioned, and the remainder or Rupees
1530-11-5 is due by the Chettioor Poligar.
This individual formerly enjoyed cer-
tain Pussooms which are now collected
on behalf of Government. When the col-
lections on this account fall short of the
amount due as Peshush, the difference
is usually recommended to be struck off.
This course has been followed this year
in regard to the balance of Rupees 1530-11-5
above mentioned.

The

58.

The Balance of Peshush in Chingliput is classed as doubtful. The Balances in Innervelly and Malabar are left for future adjustment, in the former District the realization of the sum due depends on the resources available in future, and in the latter it is contingent on the arrangements with the Beechee of Casmanore as already explained.

57. The Ryotwar Balances are for the most part recoverable.

58. Those due on account of sundry sources of Revenue occur chiefly in Chingliput in consequence of the default of the Khannay Renter and will be eventually realized.

59. The Balance of Levy Imm. in Malabar occurs for the most part in Malabar and is nominal, having been already included in Balances recommended to be written off.

60. The Balance under the head of Interest amounts to Rupees 90,437 nearly the whole of which or Rupees 89,805 stands against the Zemindar of Barwettinjer. The

214
33

51

Annex recommend 61.
ed to be written off.
15 February 1857 P.D.
Note. The difference between this sum and the amount actually sanctioned viz 224,041 Rs. is owing to subsequent collections 4.

The Board will make the adjustment of this item the subject of a separate communication.

Deducting Rupees 223,050, the amount already sanctioned by Government to be written off, the actual arrears at the end of January 1857 amount to Rupees 100,090 and are classed as follows.

Recoverable — 819,558.
Doubtful — 178,950.
Irrecoverable — 202,213.

Statement N. 25. Of the last mentioned item, the sum now proposed for remission is Rupees 177,105-13-5.

which is composed of

Peshush in Vizagapatam and Bellur	2387-3-6
already explained	
Ryotwar	118,001-4-11
Total Land Revenue	120,008-3-4
Sundry sources of Revenue	5532-1-1
Levy Imm. in Malabar	50,795-5-5
Total	177,105-13-5

62. These arrears having been fully scrutinized by the several Collectors and having been found to be irrecoverable, the Board beg to recommend that the amount viz Rupees 177,105-13-5 may be written off from the public accounts.

Collections both ar. 63.
years and current.
Statement N. 25.

It will be seen from the following

following Abstract that the Collections, arrears and Current, during the July under report, exceeded those of the preceding year by nearly 40 lacs of Rupees.

	July 1204.	July 1205.	Increase
Arrears			
Current	1748,324	3906,583	2108,259
Total Land Revenue	3186,2220	328,10,103	9,58,183
Sundry Sources of Revenue	3396,644	307,10,980	3050,442
Levy Summah	989,5394	107,29,545	830,751
	543,457	1,25,258	317,98
	4339,7395	4737,1780	397,4391

Statement No 26 exhibits the Collections and Charges with the rate at which the latter fall upon the Revenue in each District. No 26 A exhibits the particulars of the Extra Charges. These Statements have been prepared according to the new forms of account and seem to meet the requisition of Government on the subject. The Charges of the year amount to Rupees 54,57,030 which is Rupees 1,74,754 above the preceding year. The particulars are shown in the following Abstract Statement.

July

Statement No 26.

Extract Minutes Board of Revenue
11th March 1857
Vol. Land Revenue Report
for July 1203
1853-54

219
4

	July 1204.	Per Centage	July 1205.	Per Centage	Increase or Decrease
	Rs.	Rs. a	Rs.	Rs. a	Rs.
Charges of Management	3800,587	3-10	4011,108	3-0	+204,521
Extra Charges	14,70,289	3-0	14,40,522	3-"	-29,767
	5270,876	12-"	5457,030	11-0	+174,754

65. The increase in the one case arises from the accounts of the year embracing the full period of 12 months. while in the preceding year it was shortened by 11 days, in consequence of the accounts having been closed on the 30th June instead of the 11th July as had been customary till then. The decrease in the other case is owing to a diminution of the extra charges under the head of Salt.

66. In concluding this Report the Board feel much satisfaction in expressing their general approbation of the conduct of the Collectors of the several Districts and their subordinates in the discharge of their laborious duties during the year under review.

I have the honor to be,
Sir,
Your most Obedient Servant.

N^o 15 Statement showing the particulars of Current demand of Echea Revenue and account for July 1855.

Items	July 1854	July 1855	Excess	Decrease
Cultivation after former land settlement	19,546	26,179	6,633	
Concessional Cultivation	7,178	9,981	2,803	
Unclaimed Enam	3,102	2,499		603
Over Collection	1,490	1,241	1,751	
Fines	32,467	27,000		5,467
Commissions on the sale of lands on account of arrears of Revenue	7,844	14,497		3,347
Share of repairs collected from the Zemindars or Shrotrindars	9,975	10,476	901	
Miscellaneous Items	70,480	86,444	15,964	
Sale proceeds of Timber &c. sold in Government Estate	59,325	1,31,541	72,216	
Total	2,11,407	3,02,299	1,00,268	9,276
Stamp	30,694	35,450	24,756	
Sea Customs	17,761	22,336	4,575	
Lager	1,109	2,738	1,629	
Total Sundry Sources	57,670	91,576	34,276	370
Grand Total of Land and Sundry Sources	2,69,077	3,93,875	1,34,544	9,746
Interest Account			1,24,798	
Land Revenue	55,345	2,26,200		29,145
Sundry Sources of Revenue	1,555	2,978	14,23	
Total	56,900	29,178	14,23	29,145
				Net Decrease 27,722

The Devoy jumrah amount in this Statement, does not agree with that in Statement N^o 12, owing to the entry for Gayam in this statement including Current and Arrears, while that in N^o 12 shows the Current demand only.

The interest amount for Gayam and Vyagapattam being as stated above a disagreement between the 2 Statements occurs in regard to this item also.
