Read—

Report on the Budget-Estimate of the Public Works Department for 1869-70 by the Officiating Accountant General, Public Works Department, dated 8th March 1869.

RESOLUTION.—The Governor General in Council observes with satisfaction the early date at which this report has been submitted.

2. The tables appended to the report are as usual well arranged, and appear to afford all the information that can be desired in regard to the distribution of the Public Works grants for the period which they embrace, *viz.*, six years, from 1864-65 to 1869-70 inclusive.

3. The paragraphs of the report which appear to call for special notice are the following:—

Para. 4.—The Government of Bombay should explain the necessity for providing so large a sum as £10,300 for the repairs of Cantonment roads in that Presidency.

Para. 9.—It is satisfactory to observe that, while the expenditure on Public Works in India is increasing year by year, the estimate for Establishment charges for 1869-70 is proportionately less by 1. per cent. than that of 1864-65.

Para. 11.—The attention of the Governments of Bombay and the Punjab is invited to the apparently large sums provided in their estimates for travelling charges. A careful check should be exercised over the expenditure against these items.

Para. 18.—It seems desirable that a date should be fixed for the submission of the Local Fund Budget-Estimates, and there is apparently no reason why they should not be submitted on or about the same date as the Imperial estimates; but before issuing any final orders on this

point, the Governor General in Council would be glad to be favoured at an early date with an expression of the opinion of the several Local Governments and Administrations as to the most convenient time at which these returns may be furnished.

ORDER.—Ordered, that the foregoing Resolution, together with the papers read, be forwarded to all Local Governments and Administrations, to the Financial, Military, Home, and Foreign Departments, and to the Quarter Master General of the Army, for information.

R. STRACHEY, *Colonel, R. E.,*
Offg. Secy. to the Govt. of India.

Report by LIEUT.-COL. P. P. L. O'CONNELL, R. E., *Officiating Accountant General, Public Works Department, on the Budget-Estimate of the Public Works Department for* 1869-70.

The general imperial budget-estimate of the Public Works Department for the year 1869-70 was submitted to the Government of India with my Note dated 8th February 1869. I now beg to forward the usual analytical tables, comparing in detail the grant for 1869-70 with that of each of the preceding five years. These tables will, I trust, be found to contain all the information that may be required in regard to the distribution of the Public Works grant, and the services to which it is applied. It may be added that the grant for Military Works as shewn in these tables differs by £110,000 from the grant as shewn in the general Budget-Estimate. This difference represents a reduction made in the grant for Military Works in consequence of instructions received from the Secretary of State.

2. It may here be observed that the grant for 1869-70 does not provide for stores to be supplied from England during that year, the cost of such stores being now treated under the orders of the Secretary of State as a final charge in the Home accounts. The amount of this item, as per estimate received from the Financial Department with Resolution No. 1097, dated 17th February 1869, is £427,160, of which £257,000 is on account of the Punjab Northern (State) Railway, and the balance for all other Public Works.

3. It is satisfactory to observe (*vide* Table D) that the estimate for repairs to Military Works, which has been gradually increasing every year up to 1868-69, shows a reduction for 1869-70 of upwards of £11,000. The amount appropriated by the Government of Bombay for this service, though reduced by £5,520, is still very large, compared with the estimates of other Provinces.

4. From the following table it will be seen that the amount provided for repairs to cantonment roads in Bombay is about equal to the sum required for the same purpose by Madras, Bengal, and the North Western Provinces taken together, and nearly double the amount of the Punjab estimate. The necessity for this is not apparent, and should, I think, be enquired into:—

The works to which the Extraordinary grant of 1869-70 is to be applied, are detailed in Appendix II accompanying this report.

6. Referring to table B, it will be seen that the grant for services other than Military and Agricultural for 1869-70 has been increased, as compared with that of 1868-69, by £264,000. This amount has been distributed as follows :—

	£
Civil Buildings	89,836
Communications	71,923
Miscellaneous Public Improvement ...	45,653
Establishment	71,328
	278,740
Deduct decrease in grant for Tools and Plant ...	14,740
Net increase to grant for "Other Services" ...	264,000

This does not include an increase of £40,000 which has been allowed for services chargeable to the Bombay Special Fund.

7. The following table will be useful, as showing in one view the main heads of the grant for Establishment, and the percentage which the amount under each head bears to the total grant for Public Works in each year under review :—

8. Including the Bombay Special Fund, it will be seen that the grant for Establishment for 1869-70 amounts to £1,350,455, against a grant of £1,122,574 for the current year. The increase of £227,881 in 1869-70 is explained as follows :—

Increase caused by additional Establishments for Irrigation Works—

	£	£
Madras	12,752	
Bombay	10,000	
Bengal	61,300	
North Western Provinces	20,578	
Punjab	45,269	
Central Provinces	4,893	
Rajpootana	2,844	
		157,636
Increase for Establishment for Special Fund Works, Bombay		3,000
Charges for Madras Civil Engineering College transferred from the budget-estimate of the Civil to that of the Public Works Department		4,182
Increase to charges for collection of canal revenue, Punjab, caused by percentages for fees to Lumberdars and Putwarees being brought to account as charge, instead of as heretofore being deducted from revenue		8,620
Carried over ...		173,138

	£
Brought forward ...	173,438
Increase to Establishments caused by an expansion of Ordinary Public Works—	
Punjab	7,454
Central Provinces	5,990
British Burmah	7,500
Central India	4,000
Coorg	902
	25,846
Appointment of a third Superintending Engineer in the North Western Provinces	2,103
Other items	26,194
Total increase ...	227,881

This amount will be accounted for thus:—

	£
To be charged to the grant for Extraordinary Irrigation Works	153,553
To be charged to the Special Fund Works	3,000
„ „ grant for Other Services	71,328
Total ...	227,881

9. It will be noticed with satisfaction that the percentage of charges for Establishment to total grant has been reduced from 17·22 in 1864-65 to 16·47 in 1869-70. Excluding the charges for Collection and Police, the grant forms about 16 per cent. of the total assignment in 1869-70, against 17 per cent. in 1864-65. Table K shows the cost of the Establishment of each Province. This calls for no special remark.

10. The following abstract shows the division of the grant for Establishment under the heads "Salaries," "Travelling Allowances" and "Contingencies":—

	1865-66.	1866-67.	1867-68.	1868-69.	1869-70.	Difference. Increase.	Difference. Decrease.
Excluding Special Fund.	£	£	£	£	£	£	£
Salaries	713,065	853,848	872,349	940,219	1,119,766	179,547	.
Travelling Allowances	93,352	107,604	108,566	115,836	140,720	24,884	..
Contingencies	33,802	38,740	31,785	49,519	69,969	20,150	...
	870,219	1,000,192	1,012,700	1,105,574	1,330,455	224,881	..
Including Special Fund.							
Salaries	746,281	870,876	889,319	957,219	1,139,766	182,547	..
Travelling Allowances	93,352	107,604	108,566	115,836	140,720	24,884	.
Contingencies	33,802	38,740	31,785	49,519	69,969	20,150	...
Total ...	873,435	1,017,220	1,029,700	1,122,574	1,350,455	227,881	.

11. It will be observed that the grant for Travelling Allowances for 1869-70 is in excess of that for 1868-69 by £24,884. Of this excess £6,364 has been absorbed by Bombay, £4,712 by Bengal, £6,104 by Punjab, and the balance by the other Provinces. The attention of the Government of Bombay has already been drawn to the increase of charge under this head. The increase in Bengal may be accounted for by the additional establishment required for Irrigation Works, but there is no apparent reason for the large increase in the charge for the Punjab, which seems to require explanation.

12. Referring next to the grant for Contingencies, the following table shows the assignment under this head for each Province for 1869-70 as compared with that for 1868-69:—

	Direction.		Construction.		Accounts.		Collection and Police.		Total.	
	1869-70.	1868-69.	1869-70.	1868-69.	1869-70.	1868-69.	1869-70.	1868-69.	1869-70.	1868-69.

Central India ...	440	628	1,400	1,300	160	45	...	...	2,000	1,973
Coorg	...	...	60	90	...	...	...	...	60	90
Total ...	18,083	16,115	39,423	27,921	5,628	5,121	6,835	362	69,969	49,519

13. The increase in the grant for Madras is due to the charge for official postage, which is included in the estimate for the first time. The grant for Bombay, though somewhat less than that of the current year, is still high, being the largest of all the Provinces in India. The large grant assigned to the Punjab is sufficiently explained by the fact of the percentages paid to Putwarees and Lumberdars for collection of canal revenue having been brought to account as charge, instead of being deducted from revenue as heretofore.

14. Table P shows that the grant for expenditure on State Railways for the ensuing year is estimated to amount to £116,800 as follows:—

	£	£
Punjab Northern Railway		100,000
Calcutta and South-Eastern Railway—		
Construction	3,800	
Working expenses	13,000	
		16,800
Total ...		116,800

15. The details of this grant are given in the table, which calls for no further remark.

* Note.—In para. 41 of the Report on the Budget-Estimate for 1868-69, it was mentioned that the grant for contingencies for the Office of Account, Bengal, was about Rs. 400 a month. This includes a portion of the charge for official postage, which excluded, the charge is reduced to about Rs. 200 a month.

16. None of the provincial local fund Budget-Estimates have been received as yet, but the grants under this head may be stated approximately as follows:—

	Original Works.	Repairs.	Total.
	£	£	£
Civil Buildings	86,230	10,668	96,898
Agricultural	6,693	4,369	11,062
Communications	502,930	353,097	856,027
Miscellaneous Public Improvement	149,295	69,161	218,456
	745,148	437,295	1,182,443
Establishment			113,842
Tools and Plant			4,578
Grand Total ...			1,330,863

17. This does not include the expenditure from Municipal Funds in Madras, Bombay, Bengal, and the North-Western Provinces. Measures have been taken to obtain information on this point.

18. The great delay which generally occurs in the submission of the Budget-Estimates of expenditure from local funds on Public Works should, I think, be noticed. For 1868-69, the last of the estimates, that from Bombay was not received till September 1868, while, up to this time, the Punjab is the only Province from which a local fund Budget-Estimate has been received for 1869-70. No date has been fixed for the despatch of these estimates, which is probably in some measure the cause of the delay which now occurs. The provincial Imperial Budget-Estimate is required to be received in this Office on the 1st of January preceding the year to which it refers, and I can see no reason why the local fund Public Works Budget-Estimate should not be despatched on or about the same date.

19. The Table of Contents given at page 12, will facilitate reference to the several statements appended to this report.

Rec. Proc. 16th April 69 No 356

Proceedings of the Madras Government, Public Works Department,
10th April 1869.

No. 266. Read the following Circular from the Government of India, dated Fort William 19th March 1869, No. 21:—

Budget-Estimate of the Public Works Department for 1869-70.

Read—

Report on the Budget-Estimate of the Public Works Department for 1869-70 by the Officiating Accountant General, Public Works Department, dated 8th March 1869.

RESOLUTION.—The Governor General in Council observes with satisfaction the early date at which this report has been submitted.

2. The tables appended to the report are, as usual, well arranged, and appear to afford all the information that can be desired in regard to the distribution of the Public Works grants for the period which they embrace, viz., six years, from 1864-65 to 1869-70 inclusive.

3. The paragraphs of the report which appear to call for special notice are the following:—

Para. 4.—The Government of Bombay should explain the necessity for providing so large a sum as £ 10,300 for the repairs of Cantonment roads in that Presidency.

*Para.*9.—It is satisfactory to observe that, while the expenditure on Public Works in India is increasing year by year, the estimate for Establishment charges for 1869-70 is proportionately less by 1 per cent. than that of 1864-65.

*Para.*11.—The attention of the Governments of Bombay and the Punjab is invited to the apparently large sums provided in their estimates for travelling charges. A careful check should be exercised over the expenditure against these items.

Para. 18.—It seems desirable that a date should be fixed for the submission of the Local Fund Budget-Estimates, and there is apparently no reason why they should not be submitted on or about the same date as the Imperial estimates; but before issuing any final orders on this point, the Governor General in Council would be glad to be favored at an early date with an expression of the opinion of the several Local Governments and Administrations as to the most convenient time at which these returns may be furnished.

ORDER.—Ordered, that the foregoing Resolution, together with the papers read, be forwarded to all Local Governments and Administrations, to the Financial, Military, Home, and Foreign Departments, and to the Quarter Master General of the Army, for information.

ACCOUNT, No. 24.

1. Clause 4 of paragraph 3 of the the foregoing Resolution will be communicated to the Public, Marine, and Revenue Departments, with a view to information being furnished to this Depart-

ment as to the earliest date within which the several Municipal, Port, District Road, &c., Fund Budgets may be expected annually to reach the Government.

2. The Imperial Public Works Budgets of the Local Officers are due in the Government Office on the 30th September of each year.
