*Proceedings of the Madras Government, Public Works Department,
4th January 1876.*

No. 13.

Read the following :—

No. 1,476.

The following estimate has been forwarded by the District Engineer, Cuddapah :—
District Engineer, No. 1,902, dated 7th December 1875. Repairing bund and escapes, and constructing a weir at the south end of Rungampully tank, Pullumpett taluq.

Extensions and improvements—						Capital.	Revenue.
						Rs.	Rs.
New weir	...	...	...	...	...	165	
New revetment	...	...	...	...	...	1,220	
Repairs	...	...	...	...	...		1,095
Total						1,385	1,095
Grand Total						2,480	
Ayacut area	...	...	...	...	...		Acres 175
Assessment	...	...	...	...	...		Rupees 843
Average revenue	...	...	...	...	...		" 650
Highest do.	...	...	...	...	...		" 746
Date of last repair	...	...	...	...	...		1875-76.
Amount do.	...	...	...	...	...		Rupees 717

The larger portion of the surplus of this tank crosses the Madras Railway, North-west line, between the 120 and 121 miles.

2. The date of the last repairs has perhaps been entered wrongly by the District Engineer, but explanation should be afforded on the subject. In the case of very recent repairs having been carried out, it should be stated why renewed alteration to the tank was necessary, and why every requirement was not ascertained and brought forward on the first occasion.

3. The work proposed is necessary for the security of the tank, but if the information given is correct it will, together with that already carried out, involve an expenditure during the current year of nearly five years' average revenue.

FORT ST. GEORGE,
21st December 1875.

(Signed) A. DEC. SCOTT, Major, R.E.,
for Chief Engineer for Irrigation.

No. 14.

ORDER THEREON, 4th January 1876, No. 7.

IRRIGATION, No. 3.

Account.
