Endorsement of the Chief Secretary to Government, dated 15th January 1876.

Abstract—Referring to the Board of Revenue for report, in communication with the Director of Revenue Settlement and the Accountant-General, telegram from Government of India inquiring what increase of land-revenue and what decrease of settlement charges the Government expect in the years 1877-78 and 1878-79 compared with the estimates of 1876-77.

*Proceedings of the Madras Government, Revenue Department,
29th January 1876.*

From C. RUNDALL, Esq., Acting Director of Revenue Settlement, Madras, to
H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated
Madras, 24th January 1876, No. 228/13.

I HAVE the honor to reply to the Board's Proceedings, No. 435, of 18th instant.

The information wanted by the Financial Department in Paragraph 1, is what increase can be expected during the years 1873-74 and 1874-75 upon the Settlement Budget as passed* for Rs. 2,50,000 for 1873-74, and (2) what increase of land revenue will accrue during those years from the introduction of any settlement.

1. Many districts are now in hand, and on each of the existing six parties will be fully occupied during the period referred to, there is no probability of any considerable reduction of expenditure. It has to be borne in mind that owing to the large area of districts referred during recent years, numerous Settlement Magistrates have now to be appointed, and the cost of their appointment and salaries has been extended yearly, and is not likely to decrease during the years specified.

2. The probable increase of land revenue due to settlement cannot well be estimated yearly. The increase during recent years is no guide to the future. I find that for the years 1873-74, 1874-75, and 1875-76, the increase made to the land revenue in settlement amounts to Rs. 4,21,179, and that the increase in the outlay during the next three years, 1876-77, 1877-78, and 1878-79, comprising the period referred to, may be estimated at Rs. 2,61,841, or per annum Rs. 87,280.

3. The estimate by which this result is arrived at is given in the annexed statement.

*Proceedings of the Madras Government, Revenue Department,
29th January 1876.*

No. 24. Order received 24th January 1876, No. 123.

Land Revenue Dept.

Ordered that the following telegram be despatched:—

No decrease in the settlement charges expected for 1877-78 and 1878-79, as settlement will be in full operation in those years, and no abatement of charges seems expedient. The increase in land-revenue due to the settlement during 1873-74, 1874-75, and 1875-76, is nearly five lakhs. The estimated surplus for 1876-77, 1877-78, and 1878-79 is about two lakhs and five thousand, or less, per annum.

Revenue Department
Proceedings of the Board of Revenue
Date 28 January 1876

Read endorsement of Government
on Telegrams from Government of India
dated 15th and 26 January 1876, regarding the
probable increase of Land Revenue and
decrease of settlement charges in 1877-78 and
1878-79 compared with the estimates for 1877-78

Board of Revenue

I have the honor to reply to the
Board's Proceedings, dated 18th January.
The information wanted by the
Financial Department is, I presume, (2)
what decrease can be expected during the

years 1877-8 and 1878-9 upon the Settlement
Budget as framed for Rs 3,80,000 for 1876-77, ¹⁸⁷⁵⁻⁶ ^{December 1875}
and (II) what increase of land revenue will
accrue during those years from the intro-
duction of new settlements.

2. Many Districts are now in hand, and
as each of the existing six parties will be
fully occupied during the period referred to,
there is no probability of any considerable
reduction of expenditure. It has to be
borne in mind that, owing to the large area
of Districts settled during recent years,
numerous settlements require to be made
to be finished, and the cost on the present
comparison with former years has extended
greatly, and is not likely to decrease during
the years specified.

3. The probable increase of land revenue
due to settlement cannot well be estimated
yearly. The increase during recent years is
no guide to the future. I find, that for
the years 1870-4, 1874-5, and 1875-6, the increase
made to the land revenue at settlement
amounts to Rs 4,91,879, and that the increase
to be anticipated during the next three
years 1876-7, 1877-8, and 1878-9 comprising
the period referred to, may be set down at
Rs 2,61,854 or per annum Rs 87,281.

4. The estimate by which this result
is arrived at, is given in the annexed state-
ment.

2. The reply of the Director of Revenue Settlement appears to furnish the information required by the Government of India as far as materials are available at present for forming an estimate.

No decrease in the
settlement charges expected for
1877/78 and 1878/79, the settle-
ment will be in full operation
in the year and no abatement
of charges seems expedient. The
increase in Land Revenue due
to the settlement during 1873/74
1874/75 and 1875/76 is nearly 5 lakhs.
That estimated roughly for 1876/77
1877/78 and 1878/79 is about 2 lakhs
only per thousand or Rs 2000
per annum.
