Proceedings of the Madras Government, Revenue Department,
23th March 1877.

Famine Relief.

No. 899. Read the following Proceedings of the Board of Revenue, dated 19th March 1877:—

Read the following letter from A. KRISHNA ROW, Acting Deputy Collector of Cuddapah, to J. F. PRICE, Esq., Acting Collector of Cuddapah, dated Jammalamadugu, 15th February 1877, No. 41.

THE Tahsildar of Jammalamadugu reports that on measurement of rice contained in the bags handed over by the Agent of Messrs. Arbuthnot & Co., a large deficit was found which must appear in the accounts as wastage. 196 bags received into the Maddanoor depôt that ought to contain 10,584 seers of rice have been

measured, and the result is that only 9,024 seers* have been found. At the Jammalamadugu depôt 350 bags that

ought to contain 18,900 seers have been measured, and only 16,050 seers have been found. The difference between the quantity the bags ought to contain, so far as the measurement has taken place, and the actual quantity found in both the cases is very great. The highest quantity that a bag was found to contain was 51½ seers and the lowest 24. The Company's men are unable to account for the deficit, and they have refused to allow us such bags as we chose to take from their store-house. The rice contained in some bags is of very inferior sort, and in some the rice has been so damaged that it is utterly useless as an article of food. Samples† of such rice picked up

by the Tahsildar of Jammalamadugu are herewith sent for your inspection. The Company's employés have refused to take back such rice. Much deficit was also found in several bags received into the Prodatur depôt. I bring these matters to your notice to give you some idea of the unusually large quantity of deficit that has been found in many bags, and in view that, if you consider proper, you may be pleased to move the Company's Agent to receive back the damaged rice into his store, and to ascertain the cause of such large deficiency.

Extra No. 208.

FORWARDED for the information of the Board of Revenue. The deficiency in the former case is over 14 per cent. and in the latter over 15 per cent. It has been ascertained that the weights were not marked on the bags.

PULLAMPETT,
8th March 1877.

(Signed) J. F. PRICE,
Acting Collector.

THE Board presume that the rice in question was supplied through the Government Grain Agent, and if so, he will be able to furnish particulars whereby the consignments can be identified. If not, such particulars must be furnished, else complaint will be useless. The samples referred to should be sent to the Board.

*Proceedings of the Madras Government, Revenue Department,
28th March 1877.*

2. The Collector's letter will be submitted for the information of Government.
(A true Copy and Extract.)
(Signed) H. E. STOKES,
Secretary.

No. 900

ORDER THEREON, 28th March 1877, No. 1,000

Miscellaneous.

COMMUNICATED to the Government
Grain Agent for any explanation he
may have to offer.

2. The Government observe that as Messrs. Arbuthnot & Co. despatch grain
from Madras by rail by the ton and not by bags, the contents of a bag need not
be constant.

(True Extract.)

Proceedings of the Board of Revenue
Dated 19th March 18.

Read the following

From. No. 41.
A. Krishna Rao
Acting Dy Collector of Cuddalore.

To. S. J. Rice Esquire
Acting Collector of Cuddalore

Sir. The Tahsildar of Pannai.
made a report that on measurement of
rice contained in the bags handed over by
the Agent of Messrs. Arbuthnot & Co. a large
deficit was found which must appear
in the accounts as wastage. 196 bags
received into the Maddanur depot that report
to contain 10584 lbs of rice have been
measured, and the result is, that only 9000
lbs have been found. At the Pannai depot
350 bags not yet measured have been received
the quantity of rice in the bags is 16000 lbs
as the measurement has taken place,
and the actual quantity found, in both
the cases, is very great. The highest quantity
that

*A surplus equal
on an average to
12000 lbs weight.

that what was found to contain was
 51 1/2 Sars and that the lowest 24. The
 Company men are unable to account for
 the deficit, and they have refused to
 allow us such baps as we chose to take
 from their Store house. The rice contained
 in some baps is of very inferior sort,
 and in some the rice has been so damaged
 that it is utterly useless as an article of
 food. Samples of such rice picked up in a parcel
 by the Tahsildar of Samalmadufa are here.
 - without for your inspection. The Company's
 Employes have refused to take back such rice.
 Much deficit was also found in several
 baps received into the Producers depot. I
 bring these matters to your notice to give you
 some idea of the unusually large quantity
 of deficit that has been found in
 many baps and in view that if you
 consider proper, you may be pleased
 to move the Company's Agent to receive
 back the damaged rice into his Store
 and to ascertain the cause of such
 large deficiencies.
