No. 77. Read the following Proceedings of the Board of Revenue, dated 5th October 1874, No. 2,892:—

Read the following letter from W. E. WRIGHT, Esq., Acting Superintendent of Stamps, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Madras, 2nd October 1874, No. 1,345:—

With reference to paragraph 3 of the despatch from the Secretary of State for India of the 16th of July last, No. 32, communicated with your docket of the 29th ultimo, I have the honor to state that the quantity of nonjudicial stamps, specified in the indent submitted from this Office and referred to therein, is that which is required, as stated on the face of the indent, to lay in a stock equal to two years' consumption, that is to say, for one year's issue and one year's reserve.

2. The actual estimated annual consumption is exhibited in the column headed "established proportion." The certificate (or memorandum) on the exterior of the indent has reference to this column only; whilst the column of remarks was intended to have reference to the quantity indented for, as it was necessary this Office should have a supply equal to two years' consumption before the issue for sale of the new stamps was begun.

SUBMITTED to Government, with reference to Government Order, dated 25th September 1874, No. 1,213, Revenue Department.

No. 78. ORDER THEREON, 8th October 1874, No. 1,285.

THE explanation submitted in these Proceedings will be communicated to the Government of India. The Government must, however, observe that the certificate

on the face of the Indent and the remark within are inconsistent with one another. The Board of Revenue will instruct the Superintendent of Stamps to avoid such inconsistency hereafter.
