G.O. No. / B.P. No.	1331	Press / Mis.

Dated 16-10-1874 196 .

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department,
16th October 1874.

No. 176. Read the following Proceedings of the Board of Revenue, dated 29th September 1874, No. 2,803 :—

Read the following letter from G. VANSAGNEW, Esq., Collector of Nellore, to J. GROSE, Esq., Secretary to the Board of Revenue, dated 2nd September 1874, No. 1,973 :—

I HAVE the honor to address the Board on the subject of the administration of the Salt Department in this district; my object being to show that the officer immediately entrusted with so heavy and responsible a charge should receive higher remuneration than that attached to the Office of a Deputy-Collector of the 4th or lowest class, and to induce the Board to recommend to Government that a special allowance be attached to the charge, at least whenever the Deputy-Collector happens to be below the 3rd Class.

2. Nellore has the longest sea-board in the Presidency, about 165 miles, but the actual distance to be traversed by the available means of communication, in visiting all the stations in succession from north to south, is about 280 miles. Nellore has also, I believe, the largest number of places of manufacture and sale, viz., twelve. In point of revenue it stands fourth, running Tanjore hard for the third place after Madras and Ganjam, and the Board themselves admitted in their Proceedings of 16th July 1873, No. 1,296, that the work of the department was heavier in Nellore than in Ganjam. In this respect, Nellore probably stands first, and in point of responsibility second only to Madras.

3. Doctor Ratton in his report of 1872, speaks of Nellore as an "already overgrown Salt Collectorate," and of the divisions being "numerous and scattered beyond the possibility of receiving constant supervision from any single individual."

4. Nevertheless, the success of Mr. Plunkett's six years' administration of this difficult charge has been this year cordially recognized by the Board and the Government, and since then we have closed the fasli year with the highest revenue on record, viz., 13½ lakhs. The condition of the department is sound. I have no difficulty in recruiting men of the best stamp from other departments for employment in it, and altogether there can be no doubt that Mr. Plunkett's administration has been decidedly successful and beneficial to the State.

5. But, as far as Mr. Plunkett's pocket and personal comfort are concerned, he would have been better off had he been in a Treasury or on general duty. He is a married man, with a large family growing up, and his travelling allowance certainly does not cover the cost of double establishments, and the means of travelling with reasonable comfort. For these reasons four years ago, and several times since, Mr. Plunkett informed me of his desire to leave the Salt Department, but I have always dissuaded him from applying for a change, on the ground that he had a better opportunity of bringing himself forward in the Salt branch of the public service than if he were to succeed in sinking into the comparative obscurity of a Treasury.

6. When a Treasury Deputy-Collector, sitting at home very much at his ease, draws 250 rupees, and sometimes registration fees in addition, I think, looking to the hard travelling and consequent expenses and discomfort, it will be

obvious that the Salt Deputy-Collector of a district like Nellore is inadequately remunerated at the same salary.

7. The Madras Salt Department has a 1st Class Deputy-Collector, who, I believe, draws a special extra allowance of Rupees 150 a month; and Tanjore has a 2nd Class Deputy-Collector, who draws double the pay of a 4th Class one.

8. I do not think that a special allowance of at least 100 rupees a month would be too much to give to any 4th Class Deputy-Collector who may be in charge of the Nellore Salt Department, and I hope the Board will be able to see their way to recommend some increase of the kind.

SUBMITTED for the favorable consideration of Government.

2. Mr. Plunkett has served nearly seven years as 4th Class Deputy-Collector, and his work is, the Board believe, harder than that of any other Salt Deputy. In their Proceedings of 22nd August 1874, No. 2,350, on Dr. Ratton's report on the Northern Districts, the Board remarked on the arduous nature of his duties, and in their Proceedings of 24th March last, recorded in G. O., 16th April 1874, No. 447, his good conduct was brought to the notice of Government.

No. 177. ORDER THEREON, 16th October 1874, No. 1,331.

Separate Revenue, No. 14.
Salt.

THE Governor in Council regrets that it is not in his power to comply with this application. Mr. Plunkett's merits have already been recognized and his claim for promotion will receive consideration on the occurrence of vacancies, but a special allowance cannot be granted.
