Read also the following papers:—

No. 287. From Captain C. WALKER, Officiating Inspector of Forests, to C. G. MASTER, Esq., Acting Secretary to Government, Revenue Department, dated Ootacamund, 1st October 1874, No. 345.

WITH reference to G. O., No. 1,214, dated 25th September, referring for my opinion Proceedings of Revenue Board, No. 122/2,095, of 5th August, I have the honor to state that, as stated in paragraph 4 of the Commissioner's letter, I consider it highly advisable that the forest ranges of the Nilgiris and Coimbatore should be reconstituted, so as to admit of the forest officers in charge being resident in and under the orders of the Chief Revenue-officer of each district.

2. By G. O., No. 678, dated 2nd July 1873, the forests of Mudumullay and Seegoor were placed under the control of the Commissioner of the Nilgiri District, and Colonel Morgan has since been attached to the district so far as those forests are concerned whilst working under the Collector of Coimbatore so far as regards the rest of his extensive range. This was an exceptional state of thing rendered practicable and advisable only on account of Colonel Morgan's long standing and great experience in the department, notwithstanding which great inconvenience has been experienced by the forest officer working in two districts and being, so long as the Nilgiri plateau is considered local, resident in neither. This has been repeatedly brought to the notice of the Board by the Collector of Coimbatore (*vide* G. O., No. 689, dated 4th June 1874, and Board's Proceedings, No. 122/2,095, dated 5th August 1874).

3. I propose, therefore, that, should Colonel Morgan leave the service and the charge of the Nilgiri plateau revert to the Imperial Forest Department, a new range, to be styled *The Nilgiri Range*, be constituted, and that the forests of Sathiamungalum, Bhowany, and Collegal, be placed under the forest officer in charge of Mettapolliem, etc., aided eventually by a Sub-Assistant Conservator in immediate charge of Bhowany and Collegal. This range to be styled *The North Coimbatore Range*, and to include five taluqs from Bolamputty and Sholakurray (not Chenat Nair as stated in the Commissioner's letter) on the west to Collegal on the northeast.

The annual receipts and expenditure of the two ranges now proposed may be roughly estimated as under, taking the last published annual reports and budget-estimate as data.

No. 287. From Captain C. WALKER, Officiating Inspector of Forests, to C. G. MASTER, Esq., Acting Secretary to Government, Revenue Department, dated Ootacamund, 1st October 1874, No. 345.

With reference to G. O., No. 1,214, dated 25th September, referring for my opinion Proceedings of Revenue Board, No. 122/2,095, of 5th August, I have the honor to state that, as stated in paragraph 4 of the Commissioner's letter, I consider it highly advisable that the forest ranges of the Nilgiris and Coimbatore should be reconstituted, so as to admit of the forest officers in charge being resident in and under the orders of the Chief Revenue-officer of each district.

2. By G. O., No. 678, dated 2nd July 1873, the forests of Mudumullay and Seegoor were placed under the control of the Commissioner of the Nilgiri District, and Colonel Morgan has since been attached to the district so far as those forests are concerned whilst working under the Collector of Coimbatore so far as regards the rest of his extensive range. This was an exceptional state of thing rendered practicable and advisable only on account of Colonel Morgan's long standing and great experience in the department, notwithstanding which great inconvenience has been experienced by the forest officer working in two districts and being, so long as the Nilgiri plateau is considered local, resident in neither. This has been repeatedly brought to the notice of the Board by the Collector of Coimbatore (*vide* G. O., No. 689, dated 4th June 1874, and Board's Proceedings, No. 122/2,095, dated 5th August 1874).

3. I propose, therefore, that, should Colonel Morgan leave the service and the charge of the Nilgiri plateau revert to the Imperial Forest Department, a new range, to be styled *The Nilgiri Range*, be constituted, and that the forests of Sathiamungalum, Bhowany, and Collegal, be placed under the forest officer in charge of Mettapolliem, etc., aided eventually by a Sub-Assistant Conservator in immediate charge of Bhowany and Collegal. This range to be styled *The North Coimbatore Range*, and to include five taluqs from Bolamputty and Sholakurray (not Chenat Nair as stated in the Commissioner's letter) on the west to Collegal on the northeast.

The annual receipts and expenditure of the two ranges now proposed may be roughly estimated as under, taking the last published annual reports and budget-estimate as data.

Nilgiri Range.

—	Receipts.	Expenditure.	Surplus.	Remarks.
	RS.	RS.	RS.	
Nilgiri sholas and plantations.	* 14,000	* 12,000	2,000	* The receipts from sholas and plantations should certainly reach 14,000 or 15,000, and the expenditure be limited to 1,000 a-month, which is ample, including a portion of the pay of the officer in charge.
Mudumullay	50,000	† 35,000	15,000	† I have reduced the expenditure under Establishment, which has hitherto included the whole of Colonel Morgan's pay.
Seegur	7,000	4,000	3,000	
Total ..	71,000	51,000	20,000	

North Coimbatore Range.

—	Receipts.	Expenditure.	Surplus.	Remarks.
	RS.	RS.	RS.	
Bolamputty and Sholakurray.	12,000	7,000	5,000	The receipts in the present Mettapolliem, etc., Range are gradually increasing, and those from Bhowany alone will probably double if it be definitely arranged that the department supply the railways at Erode with wood-fuel.
Mettapolliem	10,000	6,000	4,000	
Sathiamungalum.	10,000	8,000	2,000	
Bhowany	20,000	16,000	4,000	
Collegal	14,000	11,000	3,000	The expenditure in Seegur, Bhowany, and Collegal is mainly on account of Sandal-wood cutting, and planting the latter will well repay the cost in future years.
Total ..	66,000	48,000	18,000	

4. By the adoption of this course we shall save the cost of an extra officer for the Nilgiri plateau, and I think it may be found possible on the revision of subordinate establishments to reduce the expenditure still further by allowing only one Overseer or a Sub-Assistant Conservator for the charge of the plantations and sholas instead of two as at present.

Almost all the Mudumullay timber has invariably found its best market on the hills and the forests, and those of Seegur are more accessible from Ootacamund than elsewhere, and can be most efficiently administered by an officer resident there and with his office in the Commissioner's cutcherry. Neither the Wynaad nor Coimbatore officer could supervise the work.

5. In the event of the above course being pursued, it remains to appoint an officer to the charge of the new range, supposing that Colonel Morgan's services

Proceedings of the Madras Government, Revenue Department,
23rd October 1874.

are no longer available. I agree with the Board that "Captain Jago's approved services as Hill Conservator entitle him to some consideration," and, as we are, so to speak, taking over a new range, it is only just to consider the claims of the officers who have been employed in it, and have, therefore, acquired a certain title to their posts so long as they fulfil the duties required of them to the satisfaction of Government. Captain Jago was employed under the local conservancy administration on the 22nd September 1869, and may, therefore, be considered to rank as a forest officer next to Mr. Cherry, who entered the service on the 5th February of the same year.

6. The Government are aware that, as a general principle, I advocate the future entertainment of none but trained men in the Forest Department; but this is an exceptional case, and one in which we should be justified in asking the Government of India to sanction the entertainment of an additional officer for the charge of an important range. Under the arrangements proposed, this will be unnecessary, and I venture, therefore, to support the Board's recommendation that "Captain Jago be offered service in the Forest Department, should he desire to enter it, and should his services be available for civil employ." It rests with His Excellency the Governor in Council to decide in what grade he should enter and what his position in that grade should be.

7. If I may be permitted to suggest, I would promote Messrs. Cherry and Douglas to the 2nd class from the 30th January next, on which date they complete three years' service in their present grade, entertain Captain Jago as a 3rd-class Deputy, placing him next to Mr. Williams, who will not complete the three years required by Rule V. until the 24th April 1875, and promote the two senior 4th-class Deputies to the vacancies in the 3rd-class grade. It is for His Excellency to decide whether this will apply to Messrs. Hayne and Wooldridge or Messrs. Ferguson and Yarde. All these promotions should be probationary until the departmental test (now under consideration, and with regard to which I have referred to the Inspector-General of Forests to the Government of India for information and advice) be passed. Captain Jago should be required to pass in the vernacular within one year from his appointment according to Test A., G. O., No. 21, dated 9th January 1873, and in the departmental test before he can be promoted.

8. Should these suggestions meet with the approval of His Excellency the Governor in Council, justice will, I think, be done to all, our existing controlling establishments be approximated to the sanctioned scale, and Government left untrammelled with regard to any revision of the grading now under the consideration of the Board, and the future recruiting of the department.

9. I submit a tabulated statement showing the numbers in each grade compared with the sanctioned scale and the existing strength, from which it will be seen that our total numbers remain the same, and that there is only one officer, Mr. G. J. S. Ross, at present Acting Superintendent Nilgiris, without a range; probably some one will be required ere long to take charge of the two forest taluqs in Upper Godavery recently transferred from the Central Provinces.

10. The sums available in our budget under establishments and the saving effected by Colonel Morgan's retirement will more than suffice to meet the increased charge on account of promotions, and the total expenditure on account of establishment (control) still remain considerably less than that of the sanctioned scale.

TABULATED Statement showing the Numbers in each Grade, compared with the sanctioned Scale and the existing Strength.

OOTACAMUND,
1st October 1874.

(Signed) C. WALKER, Captain,
Officiating Inspector of Forests.

No 288. MINUTE BY THE HON. J. D. SIM, C.S.I.

THE arrangements proposed by Captain Walker depend on—

(1.) Colonel Morgan's retirement from the *Forest* Department.

(2.) The permission of the Supreme Government to retransfer the Neilgherry forests to the head "Imperial."

2. As to the first, I have ascertained from Colonel Morgan that he neither intends nor wishes to leave the Forest Department. The "Bonus" is merely a commutation of his eventual claims to "Colonel's allowances," and his retirement from the army does not necessarily affect his *civil* status. Precedents are abundant. I will only mention those of Colonel Pears in the Educational and Colonel W. Wilson in the Jail Department. Nor is it, in my judgment, desirable, in the interests of the Forest Department, that his connection with it should cease; for if Captain C. Walker should get sick, we have no officer of experience to take his place. Colonel Morgan not only has many years' experience of forestry, but he has acted as Conservator-General, and knows the Presidency generally. Of course, as soon as he retires from the army, he will cease to draw the special pay (Rs. 1,041) he now receives, and will receive only the pay (Rs. 700) of the grade, 1st-class Deputy, to which he properly belongs. The Government have the power of dispensing with his services equally with those of any officer who has earned a retiring allowance; but such a measure would, I consider, be an ungracious return for years of good work and injurious to the department which now consists mainly of young men of limited experience.

Colonel Morgan's connection with our Forests dates from 1856; he was transferred from the Public Works to the Forest Department in 1869; his age is 53.

3. As to the second, we have not yet sought the concurrence of the Supreme Government, and we are not entitled to take it for granted.

4. Differing from my Honorable Colleague Mr. Robinson and also from Captain Walker on this point, I consider that there is work enough on these hills for an active zealous officer, and I would ask the Supreme Government to allow the charge to revert to Imperial with a special officer on such salary as may be deemed fitting.

We have 900 acres of Eucalyptus plantations alone.

5. It seems unnecessary as matters stand to discuss the reallotment of ranges suggested by Captain Walker. I may say, however, that to offer the Neilgherry range with the ranges of Segoor and Moodoomallay to Captain Jago is, in my opinion, quite out of the question, inasmuch as we know that his constitution will not stand residence in such unhealthy tracts. If the Supreme Government will give us a special officer for the Hills, Captain Jago seems to me, from his intimate knowledge of the Hills, to be just the person for the charge; and if His Lordship sees fit to nominate him to it, I shall readily assent to the arrangement, which, I may remark, will entail no additional expense in reality, as his Military allowances must be paid however he is employed, and we have still an abundance of officers available for Military duty. But to bring Captain Jago into the department otherwise seems to me to involve injustice to its members. Captain Jago's employment originated thus: in March 1869, when the Neilgherry range was constituted "Local," the then Commissioner applied for the assistance of a military officer, the Government refused the aid; but subsequently, in September following, allowed the Commissioner to obtain the services of a military officer from the Wellington depôt (if the Commander-in-Chief would spare one) and sanctioned horse allowance at the rate of 80 Rs., subsequently raised to 150 Rs. per mensem. Captain Jago was the officer selected by the Commissioner, and he continued on the duty until the 1st June last, when his services were withdrawn by His Excellency the Commander-in-Chief for regimental employment. He has never been regarded as a member of the department, nor have his services been available off the Hills; and to put him into the department over the heads of its members would, I submit, be inequitable.

5th October 1874. (Signed) J. D. SIM.

No. 289. MINUTE BY THE HON. W. ROBINSON, C.S.I.

I LEARN from Mr. Sim's Note that if Colonel Morgan's retirement from the army is to be followed by his removal from forest duties to which he has so long devoted himself, that removal must be a forced one. There is certainly much force in what Mr. Sim writes in favor of Colonel Morgan's retention, and, notwithstanding certain personal considerations which I must admit have long possessed considerable weight in my mind, I cannot but feel that such a measure would seem harsh and certainly not to the advantage of the public service at present.

2. The question of his removal or retention, however, must be wholly severed from that of the employment of Captain Jago; for there cannot be the smallest doubt as to which of the two officers—irrespective of all consideration of past service—is the preferable from a public point of view. Indeed, I entertain the gravest doubts whether Captain Jago is, under any consideration, eligible for employment in the Forest Department from the fact of his feeble health and avowed inability to live in the plains and perform general service of a character which taxes health and physical energy in an exceptional manner. I therefore agree with Mr. Sim that his employment must hinge on the willingness of the Supreme Government to grant a special officer for the Hill sholahs and plantations alone. And I regret that I am unable to join in a recommendation to the Government of India in this behalf, for neither the importance of the charge nor the financial bearing of the matter seems to me to justify such a step. I consider Captain Jago's employment in the Forest Department open to the gravest objections.

3. I think that, on the whole, the matter should not be pressed until the Supreme Government have decided whether they will permit the retransfer of the Nilgiri sholahs to "Imperial or not."

4. The revision of the expenditure on the forest of the Nilgiri should engage the immediate attention of the Commissioner and Inspector of Forests in anticipation of the decision of the Government of India.

8th October 1874. (Signed) W. ROBINSON.

No. 290. MINUTE BY HIS EXCELLENCY THE GOVERNOR.

I WOULD adopt Captain C. Walker's recommendations in this matter, as they appear to me to be such as are most desirable in the interests of the public service and most consistent with a regard to equitable claims.

2. As regards Colonel Morgan, the question of his retirement was fully discussed in Council, and it was distinctly ascertained by reference to Regulations that his retirement from the military service implied the abandonment of his civil employ, unless the Government should see fit, on exceptional grounds, to reinstate him. It was also determined, for reasons which appeared conclusive, that Colonel Morgan's was *not* a case for such exceptional reinstatement. I see no reason (nor, indeed, is any given) for a reversal of the decision at which the Government thus arrived.

3. As regards Captain Jago, I think his claims are advocated on extremely good grounds by Captain Walker, and I would appoint him, as proposed, to be a 3rd-class Deputy-Conservator, with a view to placing him in charge of the Nilgiri Range. I have reason to believe that he would be quite willing to take charge of the range, though it includes other forest tracts than those upon the Hills. I assume, therefore, that his health will permit him to undertake it. I think we ought not (even if there were any chance of success) to ask the Government of India for a special officer for the Hill station. The arrangement would (as appears to me) be extravagant and unnecessary.

4. It is to be observed that the adoption of Captain Walker's proposals (assuming Colonel Morgan's retirement) involves no additional expense.

9th October 1874. (Signed) HOBART.

No. 290A. MINUTE BY HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

I CONCUR with His Excellency the President, and would adopt the proposals of the Officiating Inspector of Forests.

11th October 1874. (Signed) F. P. HAINES.

No. 291. ORDER THEREON, 23rd October 1874, No. 1,362.

Forests, No. 18.

HIS EXCELLENCY the Governor in Council concurs in the opinion expressed by the Board that, under the altered circumstances of the Forest Department, the principal objection to the Hill sholas and plantations being treated as "forests" is removed; while recent correspondence has shown that it is expedient, on general grounds, to revert to the arrangement in force prior to the passing of G. O., 11th March 1869, No. 653, and to place the Nilgiri plateau within one or other of the forest ranges adjacent thereto.

2. The sanction of the Government of India will, with reference to the marginally noted correspondence, be sought to this arrangement. The alteration will involve a transfer of what are now Local Funds to Imperial Revenue. It appears from the following statement of the transactions of the Nilgiri Jungle Conservancy Fund for 1873-74 that, though there was a balance in hand on 31st March 1873, the actual charges for the year exceeded the income by Rs. 4,425-8-6. It is understood* that the withdrawal of the slopes from the Nilgiri Forest Department diminished the receipts by about 2,000 Rs. a-year, while the demands have been rapidly

From Government of India, 2nd June 1869, No. 225 F.
To Government of India, 5th August 1869, No. 2,272.

* From Commissioner, dated 25th February 1874, No. 16 (G. O., 4th June 1874, No. 689).

increasing owing to the extension of plantation on the plateau. When, under the Imperial Department, the plantations consisted of 194 acres only. They are now 919† acres in extent, and the cost of up-keep, of course, proportionately greater:—

† From Commissioner, 21st May 1864, No. 35 (G. O., 28th May 1874, No. 649).

JUNGLE CONSERVANCY FUND, 1873-74.

				Rs.	A.	P.
Revenue—						
Balance on 31st March 1873				7,997	4	0
Receipts for 1873-74				13,018	5	4
			Total	21,015	9	4
Expenditure—	Rs.	A.	P.			
Horse allowance of Superintendent	1,800	0	0			
Establishment	3,722	8	0			
Working charges	9,598	5	4			
Miscellaneous expenses	2,323	0	6			
				17,443	13	10
			Balance on 31st March 1874	3,571	11	6

3. Whether the Government of India sanction this proposal or not, it is essential that the revision of expenditure in the Nilgiri forests should engage the immediate and earnest attention of the Commissioner and Conservator in communication with the Inspector of Forests.

4. Should the transfer be permitted, the Governor in Council will be prepared to constitute the "Nilgiri" and "North Coimbatore" ranges as proposed in the Inspector's letter recorded above.

5. On the occurrence of a vacancy, Captain Jago will be admitted as a 3rd-class Deputy-Conservator.

6. The arrangements consequent upon Colonel Morgan's retirement will be separately notified, and any promotions which may be made will be contingent upon passing the examinations alluded to in paragraph 7 of the Inspector's letter.

(Signed) C. G. MASTER,
Acting Secretary to Government.

Captain Campbell Walker
Officiating Inspector of Forests

To

C. G. Master Esquire
Acting Secretary to Government
Revenue Department.

Sir,

With reference to G. O. No 1214 dated 25th September referring for my opinion Proceedings of Revenue Board No 122 2,095 of 5th August, I have the honor to state that, as stated in para. 4 of the Commissioner's letter, I consider it highly advisable that the Forest ranges of the Nilgiris and Coimbatore should be re-constituted so as to admit of the Forest officers in charge being resident in and under the orders of the Chief Revenue officer of each District.

2. By G. O. No 678 dated 2 July 1873 the Forests of Mudumullay and Segoor were placed under the Control of the

Commissioner of the Nilgiri District and Colonel Morgan has since been attached to the District so far as those Forests are concerned whilst working under the Collector of Coimbatore so far as regards the rest of his extensive range. This was an exceptional state of things rendered practicable and advisable only on account of Colonel Morgan's long standing, and great experience in the Department, notwithstanding which great inconvenience has been experienced by the Forest officer working in two districts, and being so long as the Nilgiri plateau is considered local, resident in neither. This has been repeatedly brought to the notice of the Board by the Collector of Coimbatore Vide G.O. N. 689 dated 4th June 1874. and Board's Proceedings N. 122–2095 Dated 5th August 1874.–

3 I propose therefore that Colonel Morgan leave the service and the charge of the Nilgiri plateau revert to the Imperial Forest Department a new range to be styled the Nilgiri Range be constituted, and that the Forests of

Sathiamungalum, Bhowany and Callegal be placed under the Forest officer in charge of Mettapollium & aided eventually by a sub-apistant Conservator in immediate charge of Bhowany and Callegal. This range to be styled the North Coimbatore Range and to include 5 Talugs from Polampully and Shola Kurray (not Chenâtnair as stated in the Commissioner's letter) on the west, to Callegal on the North East.

The Annual receipts and expenditure of the two ranges now proposed may be roughly estimated as under, taking the last published annual reports and Budget estimate as data.

Nilgiri Range.

	Receipts	Expenditure	Surplus	Remarks
Nilgiri Sholas & Plantations	× 14,000	× 12,000	2,000	× The receipts from the sholas and plantations should certainly reach 14 or 15,000 and the expenditure be limited to 1,000 a month which is ample including a portion ~~expenses~~ of the pay of the officer in charge.
Mudumullay	50,000	‖ 35,000	15,000	
Seegur	7,000	4,000	3,000	‖ I have reduced the expenditure under establishment which has hitherto included the whole of Colonel Morgan's pay and
Total Rupees	71,000	37,000	20,000	

North Coimbatore Range

	Receipts	Expenditure	Surplus	Remarks
Balampitty and Siolakkumay	12,000	7,000	5,000	The receipts in the present Mettupollium Range are gradually increasing and those from Bhowany alone will probably double if it be definitely arranged that the Department supply the Railways at Erode with wood fuel.
Mettupollium	10,000	6,000	4,000	
Sathiamangalum	10,000	8,000	2,000	
Bhowany	25,000	16,000	4,000	
Collegal	14,000	11,000	3,000	The expenditure on Sugur Bhowany and Collegal is mainly on account of Sandle wood cutting and planting; the latter will will repay the cost in future years.
Total Rupees	66,000	48,000	18,000	

4. By the adoption of this Course we shall save the cost of an extra officer for the Salgire Plateau, and I think it may be found possible on the revision of subordinate establishments to reduce the expenditure still further by allowing only one overseer, or a Sub Assistant Conservator, for the charge of the plantations and Chulahs instead of two as at present.

Almost all the Mardamullay timber has invariably found its best market on the hills, and the Forests, and those of Sugur, are more accessible from Ootacamund than elsewhere, and

Can

11

can be most efficiently administered by an officer resident there, and with his office in the Commissioner's Cutcherry.

Neither the Wynaad nor Coimbatore officer could superviese the work

5. In the event of the above course being pursued it remains to appoint an officer to the charge of the new range. Supposing that Colonel Morgan's services are no longer available. I agree with the Board that "Captain Jago's approved services as Hill Conservator entitle him to some consideration" and, as we are, so to speak, taking over a new range, it is only just to consider the claims of the officers who have been employed in it, and have therefore acquired a certain title to their posts so long as they fulfil the duties required of them to the satisfaction of Government.

Captain Jago was employed under the local Conservancy administration on the 22nd September 1869 and may

therefore be considered to rank as a Forest officer next to Mr Cherry who entered the Service on the 5th February of the same year.

6. The Government are aware that as a general principle, I advocate the future entertainment of none but trained men in the Forest Department, but this is an exceptional case, and one in which we should be justified in asking the Government of India to sanction the entertainment of an additional officer for the charge of an important range; under the arrangements proposed this will be unnecessary and I venture therefore to support the Boards recommendation that Captain Jago be offered Service in the Forest Department. Should he desire to enter it and should his services be available for Civil employ. It rests with His Excellency the Governor in Council to decide on what grade he should enter and what his position in that grade should be.

7. If I may be permitted to suggest I would promote Messrs Cherry and Douglas to the 2nd class from the 30th January next on which date they complete 3 years service in their present grade, entertain Captain Jago as a 3rd class Deputy placing him next to Mr Williams, who will not complete the 3 years required by rule V. until the 24th April 1875, and promote the two Senior 4th class Deputies to the vacancies in the 3rd class grade. It is for His Excellency to decide whether this will apply to Messrs Hayne and Wooldridge or Messrs Jorgenson and Goode — All these promotions should be probationary until the Departmental test (now under consideration, and with regard to which I have referred to the Inspector General of Forests to the Government of

India for information and advice I be passed. Captain Jago should be required to pass in the vernacular within one year from his appointment according to test A. — G. O. No. 21 dated 9th January 1873, and in the Departmental test before he can be promoted.

8. Should these suggestions meet with the approval of His Excellency the Governor in Council justice will, I think, be done to all, our existing Controlling establishments be approximated to the sanctioned scale, and Government left unhampered with regard to any revision of the grading now under the consideration of the Board, and the future recruiting of the Department.

9. I submit a tabulated statement showing the numbers on each grade compared with the sanctioned scale and the existing strength, from which it will be seen that our total

total numbers remain the same and that there is only one officer Mr. C. I. S. Ross, at present acting Superintendent Nilgiris, without a grange; probably some one will be required on leave to take charge of the 2 Forest Rangers in Upper Godavery recently transferred from the Central Provinces.

10. The sums available in our Budget under establishments and the saving effected by Colonel Morgan's retirement will more than suffice to meet the increased charge on account of promotions, and the total expenditure on account of Establishment (Control) still remains considerably less than that of the sanctioned scale.

I have the honor to be
Sir,
Your most obedient Servant
Cumpheuarther Captain
Officiating Inspector of Forests

288. Circular to Supts. of Forests, 15th October 1874.

Col Bk No 287.

Matter of his
Pecuniary Claims
of "Colonel Allen-
-ances" and the
retirements from
the Army does
not a Fact in
Civil Status - Re
cedents are abun-
-dant - I think
only mention the
of Col Pears in
the Educational
and Col W. Wilson
in the Jail Dept
Nor is it, in my
judgment, desirable
for the interest
of the Trust Dept
that his connection

with it should end
for if Capt C. Wadle
should but pick
up here & there a
few Veterans &
take his place
Col Haynes not
only
has many years
Experience of Prac-
tice but he has made
an Entomological
and he is thoroughly
"Forest-first" &
could do more
here in future than
any one else
could do from the
Army - he is the
only Practical Entomo-
logist (R 1124) he knows
the country - and he draws
only the pay (R 700) &

the Parke - Rec'd
Clerk Dept 4 - 6
which he first duly
delivers - Of course
the Pet. knows the
Power of Disbursing
in the Various Cos,
Generally in the Hands
of any Officer who
has Earned a
Returning Allowance
He had a Lien
here could, I
Consider, be an
unfavorable return
for years of first
Work - and ~~would~~
I am persuaded to
the Order which

Col Morgan's Co
Master in the 1st Regt
dates from 1856 - he
has transferred for the
P.W. & the Trust Debt in
1860. His age is 57.

granted -
Differing from
My Hon. Colleague
Mr. Robinson and
also from Gle Walker
on this point, I
Consider that the

We have got Acres of
Encalyptus Plantations is this County as
also.

Hence Bills for an

active zealous officer
& I would ask the
Sup. Govt. to allow
the charge to revert
to Lieut. Pinal with
a Special officer
on such salary
as may be deemed
fitting —

It seems un-
necessary as matters stand to dis-
cuss the re-allot-
ment of ranges
suggested by Capt.
Walker — I may
say however that
to alter the Neil-
-gherry range with
the ranges of ...

Moodoomallay 18

Capt. Jago is in
my opinion, quite
out of the question,
in as much as we
know that he can-
not live except
on the Hills — If
the Sup. Govt. will
give us a separate
officer for the Hills
Capt. Jago seems to
me — from his inti-
mate knowledge
of the Hills — to
be just the person
for the charge — &
if His Lordship
sees fit to nomi-
nate him to it, I

shall readily attend to the arrangement but to bring Capt Jopp in to the Dept otherwise seem to me to involve injustice to its members. Capt Jopp's employment originated thus - in March 1869, when the Railway Survey Department constituted the "Local" then then Govt established for the assistance of a Military officer - the first selected was Capt Jopp, who was then employed on the Railway Survey, and he continued on the duty until the 1st June last when his services were lent to Govt by the Govt for Imperial employment - the has since been employed

of a Military officer from the Railway Department of the Govt Secretariat on one hundred rupees per mensem, which allowance at the rate of 80 Rs per mensem received by Capt Jopp on the above selection by the Govt and he continued on the duty until the 1st June last when his services were lent to Govt by the Govt for Imperial employment - the has since been employed on

as a Member of
the Dept. how his
his services can
be available at this
Hill. - and to
put him into the
Dept. on the lists
of its Members
until I be heard,

Minute by
The Hon'ble J. D. Sim...
dated 5th October 1874

No. 1

Regarding the re-
constitution of the
Forest-Ranges of the
Nilgiris & Coimbatore

288.

G.O. No. 1362 dy 23rd Oct. 1874

23/10/74 N.F.R.

12

No. 289. Minute by the Hon'ble J. D. Sim... dated 5th October 1874.

I have from
Mr Sim's note that
if Col. Morgan's retire-
ment from the Army
is to be followed by
his removal from
Forest duties to which
he has so long devoted
himself, that removal
must be forced on me.
There is certainly much
force in what Mr Sim
writes in favor of
Col. Morgan's retention
and notwithstanding
certain personal con-
siderations which
I must admit have
long

long possessed. Considerable
weight in my mind,
I cannot but feel
that such a measure
would be harsh and
ungracious if not
detrimental to the
public service at
present.

The question of
Removal or retention
however must be
wholly severed from
that of the Employment
of Capt. Jago. For there
cannot be the smallest
doubt as to which of
the two Officers – irrespective
of all considerations of
past service – is the
preferable from a public
point of view. Indeed
I entertain the gravest
doubt

doubt whether Capt. Jago
is under any circumstances
Eligible for employment
in the Forest Department
from the fact of his feeble
health & avowed inability
to live in the plains
& perform General Service
of a character which
takes health & physical
Energy in an Exceptional
manner. I therefore
agree with Mr. Sim
that his employment
would hinge on the
willingness of the
Supreme Govt. to grant
a special Pension for
that the Cholaho and
plantations alone. And
I regret that I cannot
bring in a recommendation
to the Govt. of India
in

in this behalf, for neither the importance of the charge nor the financial bearing of the matters seem to me to justify such a step.

I think that on the whole the matter should not be pressed until the Supreme Government have decided whether they will permit the retransfer of the Meiyhevoy Scholars to "Imperial or not".

The revision of the Expenditure on the Forest of the Meiyhevoy should engage the immediate attention of the Commissioner and Inspector of Forests (in anticipation of the decision of the Govt. of India) 23

constitution of the
Forest range of the
Veil Cheveux & Corin-
batore

289

289.

Minute by His Excellency the Governor, 8, 9th October 1874

24

I would adopt Capt C. Walker's recommendations in this matter, as they appear to me to be such as are most desirable in the interest of the public service, and most consistent with a rigid & equitable claim.

As regards Ld. Morgan's pecuniary claim, his retirement was directed in Council, and it was determined by reference to Regulations that his retirement from the Civil service implied the abandonment of his Civil employ, unless he got leave for it, on suspension pending reinstatement. It was also determined for reasons which appeared sufficient, that Ld. Morgan was not a case in which such exceptional reinstatement should be recommended (see minute of 9th June) on a reversal of the decision

at which the Ist Lieut. arrived.

Brigade Capt. Sapp, 2nd Lieut
his duties are addressed in entirely
good proved by Capt. Walker: acc
Inv: assisted him, as required, to
[illegible] a 3rd Class Depy
Conservator, with a view to placing
him in charge of the Jail Library
Room. I have every reason to believe that
[illegible] to take charge
his duties quite willing to take charge
of the Room, though it includes the
Drill [illegible] Room there [illegible]
the Bell. I assume Receipt that he
health will permit him to undertake
it: Sam I should be sorry not [illegible]
if there were any chance of much [illegible]
with the Jail Library. The arrangement

would (as appears) be [illegible]
and [illegible] unnecessary.

Of the Reserve Lieut the addition of
Capt Walker's pupil (assuming Ld.
Burgh's retirement) would be no
additional expence.

Sir Hobart

9/10

I concur with Sir H the
Secretary and would adopt
the proposals of the Off. Substitute
of Forces -

No. 1362

Proceedings of the Madras Government

Under date the 23 October 1874

Read again G.O. 25th Sept. 1874 No. 1214

Read also the following letter from the Offg. Inspr. of Forests

Submits the opinion called for in G.O. No. 1214 dated 25th Sept. 1874 on Conservancy of Nilgiri Forests	H.C. 1st October 1874 No. 345	
Minute by Hon. Mr. Sim	H.C. 5th October 1874	
—— Hon. Mr. Robinson	—— 8th —— 1874	
—— H.E. the Governor	—— 9th —— 1874	

His Excellency the Governor in Council concurs in the opinion expressed by the Board that under the altered circumstances of the Forest Department the principal objection to the Hill Schools and Plantations being treated as Forests is removed, while recent correspondence has shewn that

290 - 290 A.

G.O. No 1362 dt 23rd Oct 74

that it is expedient on general grounds to revert to the arrangement in force prior to the passing of Gov. 1st March 1869 No 653 and to place the Nilgiri plateau within one or other of the Forest Ranges adjacent thereto.

2. The sanction of the Govt of India will, with reference to the marginally noted correspondence, be subject to this arrangement. The alteration will involve a transfer of what are now Local Funds to Imperial Revenue. It appears from the following statement of the transactions of the Nilgiri Jungle Conservancy fund for 1873-74 that though there was a balance in hand on 31st March 1873 the actual charges for the year exceeded the income

From Govt of India 2d June 69 No 223 F.
To Govt of India 5th Aug 69 - 237 -

From Commr 25th Feby 1874 No 16
Govt (Govt 4th June 1874 No 689)

From Commr 21st May 1874 No 35 (Govt 26th May 74 No 649)

29

income by Rs 4425-8-8.

It is understood that the withdrawal of the slopes from the Nilgiri Forest Dept diminished the receipts by about 2000 Rs a year while the demands have been rapidly increasing owing to the extension of plantation on the plateau. When under the Imperial Dept the plantations consisted of 194 acres only. They are now 919 acres in extent and the cost of up-keep of course proportionately greater

Jungle Conservancy Fund 1873-74.

Revenue	Rs. as p
Balance on 31st March 1873	19974 -
Receipts for 1873-74	13018 5 4

Miscellaneous expenses	2323 - 6	17443 13 10
Balance on 31st March 1874		3571 11 6

3. Whether

3. Whether the Govt. of India sanction this proposal or not it is essential that the provision of expenditure in the Nilgiri Forests should engage the immediate and earnest attention of the Commissioner and Conservator in communication with the Inspector of Forests.

4. Should the transfer be permitted the Governor in Council will be prepared to constitute the "Nilgiri" and "North Canara" Ranges as proposed in the Inspector's letter recorded above.

5 On the occurrence of a vacancy Captain Jago will be admitted as a 3rd Class Deputy Conservator

6 The arrangements consequent upon Colonel Morgan's retirement will be separately notified

notified, and any promotions which may be made will be contingent upon passing the Examinations alluded to in paragraph 7 of the Inspector's letter.
