Proceedings of the Madras Government, Revenue Department, 24th October 1874.

No. 293. Read the following letter from Colonel R. BENSON, F.L.S., Honorary Secretary, Agri-Horticultural Society, Madras, to the Secretary to Government, dated Madras, 10th October 1874, No. 583:—

I HAVE the honor, by desire of the Committee of Ma[illegible] letter and estimate forwarded by J. C. Loch, Esq., President of the Municipal Commission, showing the probable cost by the substitution of stone-glazed ware for iron pipes for bringing the Red Hill water into the gardens of the Society from the Thousand Light in the Mount Road, and to state that as this extension may prove of great benefit to the inhabitants within its vicinity, perhaps the Government may be pleased to aid the Society in carrying out the project by a pecuniary grant; if not for the whole sum, for some portion thereof.

2. It is presumed the Government are aware that the water in the garden being brackish is ill suited to horticultural purposes, and that, therefore, the introduction of rain-water would be a great boon to the Society.

3. The Committee regret that the state of their finances preclude any great outlay, and, therefore, hope the Government will take a favorable and liberal view of this application which would not have been made had their funds been in a more flourishing condition.

No. 294. ORDER THEREON, 24th October 1874, No. 1364.

Miscellaneous.

THE Governor in Council will contribute half the expenditure which, it is observed, is estimated at Rs. 1,583. The amount will be met from savings under Agricultural Exhibition, Grant 16, Minor Departments.
