Read the following papers:—

From the Agent, South Indian Railway, to the Consulting Engineer for Railways, dated Trichinopoly, 19th February 1895, No. 164.

In reply to your letter No. 444 of the 7th instant and telegram No. D. 55 of yesterday, I have the honour to give below the figures recommended for final adoption in the revenue revised and budget estimates of this railway for 1894-95-96:—

Revised Estimate, 1894-95.

	RS.
Receipts	83,00,000
Expenditure	50,00,000

Budget, 1895-96.

Receipts	85,00,000
Expenditure	55,50,000

EXPLANATION OF THE REASONS FOR ALTERATIONS.

Revised Estimate, 1894-95.

The outlay proposed in the revised estimate was Rs. 49,00,000. This has now been increased to Rs. 50,00,000.

The latest information to hand indicates the probability that the figures given in the revised estimate will be exceeded. Additional provision of Rs. 26,000 has been made for the payment of the Company's share of surplus profits for the second half of 1894.

Budget Estimate, 1895-96.

The increase over the figure proposed in the preliminary issue is chiefly due to the following extra items:—

	RS.
(i) For additional tie bars to 50 lb. pot sleepers on Division A and charges for lowering certain portions of the line	80,000
(ii) For renewals with cross sleepers of longitudinal timbers of bridges on Divisions A and B	1,46,000
(iii) Repairs to stations and buildings estimated to be higher than at first anticipated	14,000

Office-note by the Examiner, Railway Accounts, dated 20th February 1895.

1894-95—*Receipts*.—No modification is proposed in the estimate of Rs. 83,00,000 previously submitted as there is every probability of its being realised.

Expenditure.—Judging from the actuals to date and the anticipated outlay for the remainder of the year, the estimate of Rs. 49,00,000 will prove insufficient by about one lakh; it should therefore be increased to Rs. 50,00,000.

1895-96—*Receipts*.—No alterations appear necessary in the estimate of Rs. 85,00,000 previously submitted.

Expenditure.—The estimate was originally framed for Rs. 53,10,000, but it is now proposed to increase this to Rs. 55,50,000.

Additional tie bars to 50 lb. pot sleepers and charges for lowering certain portion of the line	rs. 80,000	The Agent gives some particulars as marginally shown which cause this excess. It is for Consulting Engineer for Railways to decide whether this additional provision is necessary and whether the large outlay incurred during the past on the maintenance and renewals of engines and vehicles should be continued during this official year as well. The amount proposed for working expenses absorbs about 62.7 per cent. of the earnings.
Renewals with cross sleepers of longitudinal timbers of bridges	1,46,000
