Proceedings of the Madras Government, Revenue Department,
24th April 1877

No 959 Read the following Proceedings of the Board of Revenue, dated 6th April 1877, No 1,027 —

Read the following letter from C E PLUMMER, Esq, Deputy Collector in charge of the Salt Department, to F R SHARP, Esq, Acting Collector of Nellore, dated 27th February 1877, No 68 —

In reply to your docket No 648, dated 8th instant, I have the honor to state that no reply was furnished by me ere now to paragraph 2 of Board's Proceedings, No 2,740, dated 4th November last, because no such reply was called for from me prior to receipt of your docket now under acknowledgment A spare copy of these Proceedings were sent me without any remark or note soever, and they were recorded by me

2 With regard to the point requiring answer, to wit, how Rupees 1,100 were expended in 1875 76 by me on the branch road to the Tada salt platform when the work had been transferred to the Public Works Department, and how it is proposed to adjust the amount? I have the honor to refer to the marginally noted correspondence from which it will be seen that the work having been an incomplete one of my salt works proposals for the latter year under "Petty Construction and Repair Accordingly 1,000 Rupees were placed at my disposal for the prosecution of the work

From Salt Deputy Collector to Collector No 70 dated 13th May 1875
Treasury Deputy Collector's reply No 949 dated 17th idem

3 On the 5th June I received a copy of Board's Proceedings, dated 7th May 1875, No 1,151, communicating certain orders of the Government of India that all works requiring professional supervision by Public Works Officers should thenceforward be included in the Public Works Budget, and so in my letter,† No 102, dated 5th June 1875, I suggested that this branch road to the Tada salt platform, as well as five other works that needed professional supervision, should be made over to the Public Works Department for execution No orders on my suggestion were received‡ till November, and the formal transfer

till December 1875 to the then Officiating Superintending Engineer in charge of the district—*vide* Collector's letter to that officer, No 3,166 dated 8th December 1875 In the interval 1,100 Rupees were laid out by me in completing the earth work for the road in question and in collecting gravel and jelly for metalling The balance, 400 Rupees, of the 1,000 Rupees drawn by me under the correspondence noted in the margin of foregoing paragraph was refunded and duly recredited in the Tada Division Salt Treasury

4 As to how it is proposed to adjust the amount, I beg to say that so far as the Salt Department is concerned this has been done long ago I submitted the bill for the 1,100 Rupees under date the 3rd May 1876, and the work was thereupon examined by the Public Works Range Officer and duly verified and approved

SUBMITTED for the information of Government in continuation of paragraph 2 of Board's Proceedings, dated 4th November 1876, No 2,740

2 With reference to the Salt Deputy Collector's explanation, the Board observe that the delay in receipt of orders from the Collector did not warrant the Deputy Collector in commencing a work which he himself suggested should be transferred to the Public Works Department for the reason that it required professional skill It appears, however, that his operations were limited to the earth work and collection of metal It does not appear whether the road has been completed or not
