I have much pleasure in bearing testimony to the regard I have for Mr. A. L. Conaghan based upon his regularity, his uniform discharge of his duties to all classes of the patients and the confidence I have in his skill, I must not omit his good conduct generally

He has been Apothecary in this Division since 29th May 1860, and under my supervision since the middle of July last, cases of fever, fracture, &c have been successfully treated by him, and, I am sure he is a man who will bring credit upon any institution with which he is professionally connected

Sir,

As you have asked me to give you a testimonial on leaving the service of the Company, I have much pleasure in testifying, that during the past three years that I have had charge of the Kannar Valley Division, to which you were attached, I have had ample opportunities of judging of your skill and general conduct. With reference to the former I cannot of course speak from a professional knowledge of the matter, but from the results which have attended your treatment of various and difficult cases both Surgical and Medicinal, in the latter I allude especially to the success which has attended your treatment of Cholera cases.

With reference to your general conduct I can speak with confidence, since I have invariably

inquirably found you ansciour to attend promptly to my instructions as well as to use prompt measures where ever your services were required- as far as steadiness and uprightness of conduct is concerned I have a high opinion of both.

I regret extremely your removal from the service of the Company which is occasioned by a reduction in their Establishment, and, I hope, as there is little doubt, that you will be successful in your future career

Conaghan has been employed as an Apothecary by the Madras Irrigation and Canal Company for about eight years, and of that time he has spent two and a quarter years on my Division I therefore have had a good opportunity of knowing Mr Conaghan well.

Owing to the completion of most of our works, the Station where Mr Conaghan was placed, is shut up, and his services are dispensed with in consequence.

Mr Conaghan is thoroughly able and skilled in his work, and he is well educated and intelligent. I am extremely sorry to part with him and wish him all the success which I know he deserves for the future.
