while as regards the other, I beg to forward extract from a letter just received from the Deputy Collector in charge of the Trivellore Taluq to show the straits I am in for skilled assistance.

3. Under ordinary circumstances I should represent this to the Superintending Engineer, but as he is following up his recent refusal of further assistance by this recall of even the small aid he has given me, I trust that the Board will agree with me that to do so would be more waste of time; and I beg that, under these circumstances, Government may be moved to give me further assistance, in any way that is deemed advisable, at an early date, and to authorise my retaining the hands I have till this can be done. I would observe that both these men are Local Fund Overseers, and much road-work is now being done by the Revenue Department.

received from the Local Fund Overseer that he submitted to the Range Officer the estimate for the road from Tinnalore Railway Station to Velliyur on the 31st ultimo. He states that the delay in submitting the same is due to his not being provided with "proper instruments," meaning, I presume, theodolite, compass, &c., and to the want of a clerk to assist him. I request, therefore, that you will address the Range Officer on the subject, and obtain such assistance and instruments as he may need to facilitate and expedite the preparation of estimates for the other roads now under construction as relief-works.
