JANUARY.

No. 347-348.

Masonry Works should not be taken up
Relief Works.—Comparing with the Board
Revenue in opinion that—

No. 347. Read the following Proceedings of the Board of Revenue, dated 10th January 1877:—

Read the following letter from J. R. DANIEL, Esq., Acting Collector of Cuddapah, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Cuddapah, 5th January 1877, No. 6.

I have the honor to submit a list of Local Fund works in the Madanapally Circle for which estimates have been prepared and sanctioned both by the Local Fund Board and the Revenue Board.

2. The majority of these are masonry works, which can only be carried out by the Engineer Department.

3. I request that the Board of Revenue will obtain through the Accountant-General a transfer of funds to the Department Public Works. These works can then be carried out by that department, the accounts being submitted through the Examiner of Accounts, and merely a list showing the number of coolies employed on each work would be furnished to this department.

The Collector appears to intend that these works should be paid for from relief funds. But as masonry works are not suited for unskilled labor, they cannot be taken up as relief works merely to relieve the Local Funds.

Acting Secretary.
