*Proceedings of the Madras Government, Revenue Department,
6th January 1876.*

No. 29. Read the following letter from J. R. COCKERELL, Esq., Commissioner of the Nilgiris, to the Hon. D. F. CARMICHAEL, Secretary to Government, Revenue Department, Fort St. George, dated Ootacamund, 11th December 1875, No. 95:—

I HAVE the honor to submit the Cinchona Budget estimate for the official year 1876-77, with a letter to my address from Mr. Melvor on the subject.

2. I proceed to notice the difference between the present estimate and the estimate sanctioned for the current year.

3. *Assistant Superintendent.*—This item is calculated on his increased salary for the whole year (*vide* G.O., No. 2, dated 4th January 1875.)

4. In the current Budget Rs. 3,250 appear under the heads "Collection of Bark for manufacture of Amorphous quinine" and the "Carriage of the Bark to the Factory." There are no such items in the present Budget, because the local manufacture has been discontinued under G.O., No. 217, dated 11th February 1875.

5. Rupees 1,500 were provided in the current Budget for repair of buildings and cooly lines. The estimate under this item for 1876-77 is Rs. 8,500. The increase is due to two causes. Now that the bark is entirely exported to England, it is necessary that the stores should be converted into proper drying and store-houses. The drying shelves now in use are merely temporary structures of lath erected in the current year. They must be replaced by permanent shelves of wire fastened to supports of durable wood.

6. The cooly lines at Neddivattum were erected in 1861. They have fallen into a dilapidated condition and require to be rebuilt.

7. Both these items are provided for in the estimate.

8. Under the items "Collection of Bark" and "Carriage," provisions of Rs. 12,000 and Rs. 3,500 are made against Rs. 10,500 and Rs. 2,800 in the Budget for 1875-76. The increase is due to a contemplated export of bark of 75,000 lbs. against 60,000 in the current year. With regard to the returns for the bark, it is necessary to observe that the price of bark is declining, and a sum of Rs. 1-4-0 per lb. is estimated, against an estimate in the previous Budget of Rs. 1-3-0. The estimate in both cases is low, as the Government will recollect that 28,000 lbs. of bark from the Government plantations recently sold in England fetched nearly 4s. per lb. all round.

9. *Labor and Material for Packing.*—The cost of these items has hitherto been taken from the Budget allotment, and *pro tanto* the plantations have been deprived of labor which should have been bestowed on their cultivation. The evil of neglecting cultivation was admitted in G.O., No. 1,403, dated 6th November 1874, and was met by an increased grant. Hence the estimate under notice.

10. Mr. Melvor explains the estimate for wire. There is little doubt this material can be economically substituted for vegetable fibres to bind the moss on the trees.

11. The estimated expenditure is Rs. 68,550 and the receipts are estimated at Rs. 1,01,175.

Proceedings of the Madras Government, Revenue Department,
6th January 1876.

ENCLOSURE No. 1.

From W. G. McIVOR, Esq., Superintendent of the Government Cinchona Plantations, to J. R. COCKERELL, Esq., Commissioner of the Nilgiris, dated Ootacamund, 6th September 1875, No. 105.

I HAVE the honor to forward the Budget-estimate of the Cinchona Department for the official year 1876-77.

2. You will observe an increase in several items, the most important being "Repair of permanent buildings and coolies' lines." This becomes necessary to meet the alterations in fitting up the jail buildings as drying and bark stores. A portion of this work must be carried out during the present year, but the greater part of it, especially the construction of drying trays and shelves, cannot be undertaken until 1876-77.

3. The labor and material for packing bark has hitherto been omitted in the estimates, and is this year entered as a separate item.

4. A new charge has been introduced, viz., the cost of galvanised iron wire for tying on moss. The tar now used for this purpose is becoming scarce, and as it soon decays and requires repair the use of wire instead of tar will, I believe, effect a great economy, because the same wire can be applied without renewal for many years. Four years ago, as an experiment, I used wire on a few trees, and it is now as good as when first applied.

5. With reference to the estimate of receipts, it will be observed that this shows a total of Rs. 1,01,175 instead of Rs. 1,45,250. This arises from the bark to the Quinologist being struck out of the estimate, and in consequence of my having reduced the estimated net value of the bark to be sent for sale in the home market to Rs. 1-4-0 per lb., instead of Rs. 1-8-0, the amount estimated last year. This reduction I consider necessary, as, for some months, the price of bark in the home market has been declining.

No. 10. ORDER THURSDAY, 6th January 1876, No. 15.

Miscellaneous.

With the foregoing letter, the Commissioner of the Nilgiris submits the Budget-estimate of the Government Cinchona Plantations for 1876-77.

2. Receipts.—The revenue from plantations is estimated at Rs. 1,01,175 against Rs. 1,45,250 for the current year, the decrease being due chiefly to the value of the bark to be sent to England being calculated, with reference to the present state of the home market, at Rs. 1-4-0 instead of Rs. 1-8-0 per lb.

3. Charges.—The charges are estimated at Rs. 68,500, or Rs. 11,250 over the grant (Rs. 57,300) for the current year.

4. It is proposed to fit up the jail buildings as suitable and substantial drying and store-houses; the shelves hitherto used for drying bark being merely temporary structures of lath. For this purpose and for rebuilding the coolies' lines now in dilapidated condition, the sum of Rs. 8,500 is provided under the head of "Repair of permanent buildings and coolies' lines" against a grant of Rs. 1,500 for the current year; but on a subsequent report from the Commissioner of the Nilgiris on the occurrence of a fire in the Bark-store at Neddivattam, sanction has been accorded* for the immediate construction of partition walls in the jail, and the Government presume that this work, as likewise the erection of a screen over the furnace, regarding which further information has been called for, will be completed before the close of this year;

* G.O., 20th December 1875, No. 1826.

Proceedings of the Madras Government, Revenue Department,
6th January 1876.

thus rendering any provision for drying and store-houses in the out-going Budget unnecessary. The cost of coolies' lines, which is the only item remaining to be provided for, is not separately shown; but the Government consider that a sum of Rs. 3,500 would suffice to meet all possible requirements under the head of Buildings.

5. For the collection of bark for shipment to England and for carriage, a larger provision of Rs. 15,500 (the sum provided in the current year's Budget being only Rs. 13,300) is made, in view of the contemplated shipment of an increased quantity (75,000 instead of 60,000 lbs.).

6. Further, two new items have been introduced into the present Budget. The one is Rs. 2,500 for packing the bark for shipment, of which the cost has hitherto been met from the Budget allotment for working charges, reducing *pro tanto* the labor which ought to have been bestowed on the cultivation of plants. The other is an item of equal amount for galvanised iron wire to bind the moss on trees; the vegetable fibres now used for this purpose are stated to be becoming dearer, and as they, moreover, soon decay, it is considered that the substitution of wire would prove better economy in the long run. The annual cost of the fibre hitherto used is not stated, and information has been called for on this point. Meanwhile, the provision for wire is passed, subject to further orders as to the expenditure being incurred.

7. These items* of increase, plus one of Rs. 300 on account of the enhanced salary to the Assistant Superintendent,

	RS.	sanctioned in G.O., dated 4th January
* Increase in repair of buildings	2,000	1875, No. 2, make up an increase in the
Do. in collection of bark for shipment	2,200	gross of Rs. 9,500, which is reduced in
Packing	2,500	the net to Rs. 6,250, by a saving of
Wire for binding moss	2,500	Rs. 3,250, resulting by the abandonment
	9,200	of the local manufacture of Amorphous

quinine, under G.O., dated 11th February 1875, No. 217.

8. With the alteration indicated in paragraph 4, the estimate of charges reduced in the aggregate to Rs. 63,550, as also the estimate of receipts as proposed, is passed.

 Potomac 6th Sept 1875
 Hon. J. M. L. Esq
 Supt. Genl. & Linchona Plant
 J. R. Cochrane Esq
 Commissioner of the Militer
 Potomac

Sir,
 I have the honor to forward the
 Budget Estimate of the Linchona Department
 for the official year 1876-77.

You will observe an increase in several
 items, the most important being Repair of
 permanent buildings and coaling lines. This
 becomes necessary to meet the alterations in
 fitting up the Tail buildings as drying and
 bark stores. A portion of this work must
 be carried out during the present year, but
 the greater part of it, especially the construction
 of drying trays and shelves cannot be
 undertaken until 1876-77.

The labor and material for
 packing bark has hitherto been omitted in
 the estimates, and is this year entered as a
 separate item.

A new charge has been
 introduced

Budget Estimate
 of the Genl. Linchona
 for the official year
 1876-77

introduced, vizt the cost of galvanized iron
wires for tying on mops. The man now used
for this purpose is becoming scarce, and as
it soon decays and requires repair, the use
of wire instead of man, will I believe effect
a great economy, because the same wire can
be applied without renewal for many years.
Four years ago, as an experiment, I used wire
on a few trees, and it is now as good as when
first applied.

With reference to the estimate
of Receipts, it will be observed that this
shows a total of Rs 101, 175 instead of Rs
125, 200. This arises from the bark to the
Sunderland being struck out of the estimate,
and in consequence of my having reduced
the estimated net value of the bark to be
sent for sale in the home market to Rs 1, 400
per lb instead of Rs 1, 800, the amount estimated
last year. These reductions I consider necessary
as for some months the price of bark in the
home market has been declining.

No. 2 Dated 15 January 1875

4. In the current Budget Rupees 3250 appear under the heads "Collection of Bark for manufacture of amorphons Quinine" and the "Carriage of the Bark to the Factory". There are no such items in the present Budget because the local manufacture has been discontinued under Government Order No 217 dated 28 February 1875.

5. Rupees 1500 were provided in the current Budget for Repair of Buildings and Cooly lines. The Estimate under this item for 1876-77 is 8500. The increase is due to two causes - first that the bark is entirely reported to England it is necessary that the stores should be converted into proper drying and store houses. The drying shelves now

in use are merely temporary structures of lath erected in the current year. They must be replaced by permanent shelves of wire fastened to supports of durable wood.

6. The Cooly lines at Addis Ababa were erected in 1861. They have fallen into a dilapidated condition and require to be rebuilt.

7. Both these items are provided for in the Estimate.

8. Under the items "Collection of bark" and "Carriage", provision of Rupees 12000 and Rupees 8000 are made against 10500 and 2800 in the Budget for 1875-76. The increase is due to a contemplated report of bark of 14500 lbs against 6000 in the current

current year. With regard to the returns for the bark, it is necessary to observe that the price of bark is declining and a sum of Rs 1-4-0 per lb. is estimated, against an estimate in the previous Budget of Rupees 1-8-0. The estimate in both cases is low, as the Government will recollect that 28000 lbs of bark from the Government Plantations recently sold in England, fetched no less than 10 shillings per lb. all round. Labor & material for packing. The cost of these items has hitherto been taken from the Budget allotment and for this the plantations have been deprived of labor which should have been bestowed on their cultivation. The evil of neglecting cultivation was admitted.

admitted in Government Order No. 124 dated 6 November 1844, and was met by an increased Grant. Hence the estimate under notice.

10. Mr. McLean explains the estimate for wire. There is little doubt the material can be economically substituted for vegetable fibres, to bind the moss on the trees.

11. The estimated expenditure is Rupees 68,500 and the receipts are estimated at Rupees 101,175.

I have the honor to be

Memo. for Orders

Budget with the provision of Rs 2,500 made by the Commissioner of the Nilgiris for work might be passed at once with a reservation that this provision is subject to further orders.

A draft C.O. drawn up accordingly from Dec 1890 for orders passed in circulation is submitted herewith.

With reference to the Rs 1000 ^{for higher cultivation} ~~provision~~ ^{an increased} provision for working charges similar to the one sanctioned

for the current year (G.O. 6100, 1874 No. 1,403, para 4), is made in the Budget now to be passed for the ensuing year, the ^{rate} ~~allowance~~ for cultivation being Rs 20 instead of Rs 10 per acre as proposed for the current year.

2

See the case referred -
This provided for Rs
22/12 1891

3. Charges. The charges are

Memo. for Orders

Letter from Commr of Nilgiris
Submitting Cinchona Budget
Estimate for the year 1876-77

dated 11th Decr 1875, No 95.

With the foregoing letter,
the Commissioner of the Nilgiris
submits the Budget Estimate
of the Govt Cinchona plantation
for 1876-77.

2. Receipts. The revenue
from plantations is esti-
mated at Rs 1,01,175 against
Rs 1,45,250 for the current
year; the decrease being
due chiefly to the value
of the bark to be sent
to England being calculated
with reference to the
present state of the home
market, at Rs 1-4-
instead of Rs 1-0- per
lb.

3. Charges. The charges
are

22/12

I think that the recent dis-
cussion as to whether
to allow higher cultivation
of order missing there has
been the case here. &
this provides for

22/12 1875

are estimated at
Rs 68,550 or Rs 11,250
over the grant (Rs 57,300)
for the current year.

4. It is proposed to fit
up the jail buildings as
suitable and substantial
drying and store houses;
the shelves hitherto used
for drying bark being
merely temporary structures
of lath. For this purpose
and for rebuilding the
Cooly lines now in
dilapidated condition,
the sum of Rs 8,500 is
provided under the
head of "Repair of
permanent buildings
and Cooly lines," against

a

* J.O. 20 Decr 1925,
No. 1825

against a grant of Rs 1500
for the current year, but
on a subsequent report
from the Commissioner of
the Nilgiris on the occur-
rence of a fire in the
Bark Store at Neddiem-
tam, sanction has been
accorded for the immediate
construction of partition
walls in the jail, and it
is presumed that this
work, as likewise the
erection of a screen over
the furnace, regarding
which further information
has been called for, will
be completed before the
close of this year, thus
rendering any provision
for

for drying & store houses,
in the ^{on 1900} Budget for the
ensuing year, unnecessary.
The cost of Cooly lines, which
is the only item remaining
to be provided for, is
not separately shown,
but it is suggested that a
sum of Rs 3,500 would suffice
to meet all possible require-
ments under the head of
building for the next year.

5. For the collection of barks
for shipment to England
and Carriage, a larger
provision of Rs 15,500 (the
sum provided in the current
year's Budget being only
Rs 13,300) is made in view
of the contemplated
shipment of an increased
quantity (75,000 in-
stead of 60,000 lbs).

6. Further, two new
items have been
introduced into the

the present Budget. The
one is Rs 2,500 for
packing the bark for
shipment, of which the cost
has hitherto been met from
the Budget allotment for
working charges, reducing
pro tanto the labor which
ought to have been bestowed
on the cultivation of plants.
The other is an item of
equal amount for galva-
nized iron wire to bind
the moss on trees; the
vegetable

vegetable fibres now
used for this purpose
are becoming dearer, &
as they moreover soon
decay, the substitution of
wire would prove better
economy in the long run.

These items of
increase, plus one of Rs.
300 on account of the
enhanced salary to the
Assistant Superintendent
sanctioned in G.O. dated
4 January 1875 No 2,
make up an increase
in

Increase in repair of buildings	Ruppes 2,000
- do in collection of bark for shipment	2,200
Packing —	2,500
Wage for binding moss —	2,500
	<u>9,200</u>

in the gross of Rs. 9,500,
which is reduced in the
net to Rs. 6,250 by a
saving of Rs. 3,250 result-
ing by the abandonment
of the local manufacture
of Amorphous guanine under

G.O. dated 11 February

Memorandum
Cinchona Budget
for 1876-77

Revenue Department.

No. 15

PROCEEDINGS of the MADRAS GOVERNMENT.

Under date the 6th January 1876.

READ the following letter from
Commissioner of Nilgiris

Submitting Cinchona
Budget Estimate for
the year 1876-77.

H. E. 11th December 1875/1876.

With the foregoing
letter, the Commissioner of
the Nilgiris submits the
Budget Estimate of the
Cinchona plantations for
1876-77.

2. Receipts. The revenue
from plantations is estimated
at Rs. 101,175 against Rs. 145,250
for the current year; the decrease

decrease being due chiefly to the
value of the bark to be sent
to England being calculated
with reference to the present
state of the home market,
at Rs. 1-4-0 instead of
Rs. 1-8-0 per lb.

Charges. The charges
are estimated at Rs. 8,500 or
Rs. 1,250 over the grant (Rs.
7,250) for the current year.

It is proposed to fit up
the jail buildings as suitable
and substantial drying and
storage houses; the shelves
hitherto used for drying bark
being merely temporary struc-
tures of lath. For the purpose
of rebuilding the Cooly
lines now in dilapidated
condition, the sum of Rs. 5,500

G. O. 20th Dec^r 1825,
4th 1825.

is provided under the head of
"Repair of permanent buildings
and Cooly lines," against a
grant of Rs. 1,500 for the current
year, but on a subsequent report
from the Commissioners of
the Nilgiris on the occurrence
of a fire in the Bark store
at Maldivattam, sanction has
been accorded for the immediate
construction of partition walls
in the jail; and the Govt.
— presume that this
work, as likewise the erection
of a screen over the furnace,
regarding which further
information has been called
for, will be completed before
the close of this year, thus
rendering any provision
for

for drying & store houses in the outgoing Budget, unnecessary. The cost of Colly lines, which is the only item remaining to be provided for, is not separately shown, but the Govt. consider that a sum of Rs. 3500 would suffice to meet all possible requirements under the head of building.

5. For the collection of bark for shipment to England and for carriage, a larger provision of Rs. 10,500 (the sum provided in the current year's Budget being only Rs. 13,300) is made, in view of the contemplated shipment of an increased quantity (75,000 instead of 60,000 lbs.).

6. Further, two new items have been introduced into the

the present Budget. The one is Rs. 2,500 for packing ^{2,18} the bark for shipment, of which the cost has hitherto been met from the Budget allotment for working charges, reducing pro tanto the labour which ought to have been bestowed on the cultivation of plants. The other is an item of equal amount for galvanized iron wire to bind the moss on trees; the vegetable fibres now used for this purpose are stated to be becoming dearer, & as they, moreover, soon decay, it is considered that

that the substitution
of wire would prove
better economy in the
long run.

7. These items of
increase, plus one of
R. 300 on account of the
enhanced salary to the

Assistant Superintendent,
sanctioned in G.O. dated
4th January 1875 N^o 2,
make up an increase
in the gross of R. 9500,
which is reduced in
the net to R. 6250 by a
saving of R. 3250 resulting
by

¹ The annual cost of the fibre
hitherto used is not stated,
and information has been
called for on this point.
Meanwhile the provision
for wire is passed subject
to further orders as to the
expenditure being incurred.

Increase in repair of buildings	R. 2,000
2 nd in collection of bark for shipment	2,200
Packing	2,500
Wire for binding masses	2,500
