JANUARY.
Nos. 349-350.

Management of Relief Works and establish-
ment of Grain Depots in Ayrnool — Passing
orders on Proceedings of the Board of Revenue as
letter from the C Hector relating to the —

line
no 160-16-1-77

(1) The names of the relief works already in hand with the number of coolies employed upon each (In the case of roads the length of road upon which work is going on should be given but the report need not be delayed for want of this one item, if the information should not be readily available it can be furnished afterwards)

(2) The number and locality of relief houses opened.
(3) What provision is being made for the supply of grain and the amount which has been received on account of Government. Where depots have been established and by what means they are being supplied?

(4) The rates of wages in money and in grain
(5) Whether any system of task labor has been introduced, and if so, the
(6) Why coolies from Nellore are coming into this district where there is want labor to be had on the East Coast Canal works and where people are going to other more distant districts to those works?

(7) What your requirements are in the matter of a subordinate staff, &c, and how you propose to supply them and what you have done hitherto?

2 To meet the emergency which appears to have arisen in consequence of the Special Deputy Collector and your two Tahsildars having apparently been granted leave without previous provision having been made to supply their places, I have intrusted the Nandial Deputy Collector, Ramachandrarao to proceed to Cumbum to take up the duties of Deputy Collector, Venkateshullu Pillay, and have also directed my Assistant Mr Thorburn, to go at once to Cumbum and render you his assistance. Mr Mayer of the Revenue Settlement Department, has been telegraphed to join forthwith. As regards the absentee Tahsildars, I desire that you will make such temporary arrangements as you may think fit for carrying out their work during their temporary absence. In case the Tahsildars should not have left their stations when you receive this letter I think you should not allow them to leave until you have made suitable arrangements.

3 At present it is not possible for me to leave Kurnool, but should you wish it, I will endeavour to visit Cumbum after the lapse of a short time

(True Copy)

(Signed)

R DAVIDSON,

Acting Collector

Submitted for the information of Government
2 The distribution made by Mr Davidson appears judicious. Mr Clogston, aided by a Deputy Collector and Mr Mitchell, is to have charge of relief works in Ramalakota, Koulkuntla, and Patlakonda, and Mr Gibson with a Deputy Collector and Mr Brett, Nandikotkur, Nandial, and Sirwell. In the two taluqs east of the Nandikanama will be Messrs Farmer, Mayer, Thorburn, and Stanbrough; and the Deputy Collector of Nandial has been sent temporarily in the room of the Special reported sick, and since removed by Government.
3 The arrangement of grain depots may probably be approved, but it strikes the Board that there ought to be a depot in Nandikotkur Taluq. The number of coolies to be provided for from these depots is estimated at 250,000, the number in the taluqs at present is 204,702.
4 Preparations should be made to repair the roads leading to the railway by means of relief coolies as soon as showers fall. Meanwhile metal might be gathered and stored, side ditches cleared, and drainage perfected. Wells, the sites being care

fully selected, should be dug by the roadside, and drinking ponds for cattle made by throwing bunds across the drainages, so as to catch and store the thunder showers which will fall in the hot weather. The would be very useful to cattle employed in transporting grain. Similar precautions should be taken on other roads used for transport of grain.
5 The Board are not acquainted with the circumstances under which Mr Farmer corresponds direct with Government as to the state of the division and relief operations. It seems desirable that Mr Farmer's reports should be made to the Collector from whom all orders should emanate.

(True Copies and Extract)

(Signed)

H E STOKES,

Acting Secretary

No 350. ORDER THEREON, 16th January 1877, No 160

Miscellaneous

The Collector will consider the advisability of establishing a depot at Nandikotkur as suggested by the Board, with whose remarks, as contained in paragraph 4 of their Proceedings, the Government concur. Mr Farmer's relations with the Collector have been placed on a proper footing of subordination to that officer.
2 With regard to the Deputy Collector whom the Board speak of as since removed by Government, it is observed that though Mr Davidson was authorized by telegram to reduce him, the Government have received no information that he acted on his authorization.

(True Extract)

(Signed) J H GARSTIN,

Additional Secretary to Government

To the Board of Revenue
the Financial Department
the Public Works Department
the Accountant General

Edw. I Goodall

27th, having on my way met Mr Gibson and Mr Lowry, Assistant Engineer, at Eldurty, and inspected the famine works near that village.

2. I assumed charge of the district from Mr Foster on the following day. I have since made the following arrangements towards establishing a systematic organization which is much needed. I have placed Mr Clogston in charge of the famine relief works in the taluqs of Ramalakota, Pattikonda, and Koilkuntla, and Mr Gibson in charge of those of Nandial, Nandial, and Surwell. The two Divisional Deputy Collectors (of Nandial and Peapally), however, will continue responsible for works in the southern taluqs of Koilkuntla and Surwell, respectively, but Messrs Clogston and Gibson will visit those taluqs from time to time. Mr Brett will work under the direction of Mr Gibson and Mr Mitchell under that of Mr Clogston.

3. In communication with Mr Thornhill and Major Hicks, the Government Grain Agent, depots for rice have been fixed upon and grain is now being freely imported into six taluqs of the district on account of Government. The following statement, being an enclosure to my letter to Major Hicks, dated 1st instant, will show the Board the manner in which the depots are to be distributed.

Taluqs	Depots	Estimated number of Coolies per dem	Estimated number of tons of Grain required per mensem at 1½ lbs per head per dem	Remarks
Pattikonda	Peapally, Pattikonda, Deranaconda	12,500, 12,500, 15,000	250, 250, 300	* Includes Nandikotkur and Kalva
Ramalakota	Kurnool, Eldurty, Nandial, Nandial, Nandial	35,000, 42,500, 15,000	850, 700, 300	† From Kurnool, Nandial, and Kalva
Nandial	Nandial, Nandial, Nandial	15,000, 35,000, 20,000	300, 400, 400	† To Koilkuntla for the present
Koilkuntla	Koilkuntla, Koilkuntla, Koilkuntla	35,000, 20,000, 20,000	700, 400, 400	
Surwell	Chagalamarri, Chagalamarri, Chagalamarri	12,500, 12,500, 12,500	250, 250, 250	
Total		250,000	5,000	

I have made ample provision at Kurnool for storing the whole amount of grain which will be required for the supply of Kurnool and the stations to be fed from it. An application has been made to the Superintendent of Government Workshops for the necessary complement of scales and weights, and arrangements for their distribution to the several depots have been completed.

4. Taking advantage of the presence at head quarters on the occasion of the Proclamation Durbar of the special officers and the Divisional Deputy Collectors, I am endeavoring, in communication with them, to secure for the whole district a uniform system for the management of relief operations which I hope to bring into force shortly.

5. I find, with regret, that the road from Gooty to Kurnool is far from being in a satisfactory condition, and although, so long as the weather remains dry, there is no immediate prospect of the traffic being interrupted, I fear that in the event of a slight

fall of rain considerable difficulty would be experienced, and it is not impossible that communication by cart with the Railway might be seriously impeded. With the present heavy traffic and scarcity of water, it is not easy to attempt repairs, which would be of immediate benefit, but I have written to the District Engineer, who is on circuit, requesting him to meet me at an early date, and after consulting with him will report further what steps may be decided upon. It is, of course, essential that this and the other roads leading from the Railway be kept open for traffic.

6. From dem officials received during the last day or two from the Board's 2nd Member, I much regret to find that the state of the Cumbum Division is very far from satisfactory, indeed matters are

said to be so bad that Mr Arbuthnot considers that my presence there is urgently called for. At present, however, it is not possible for me to visit that part of the district without sacrificing the interests of the rest, but I have telegraphed to Mr Mayor, who, I have been informed, is under orders for Cumbum, requesting him to join the relief works in Markapur Taluq. In his last letter just to hand Mr Arbuthnot having reported that the Taluqdars of both taluqs and also the Special Deputy Collector have reported sick, I have, to meet the temporary emergency, ordered my Assistant, Mr Thorburn, to proceed to Cumbum without delay and to render Mr Farmer his assistance. I have also instructed the Nandial Deputy Collector, Ramachandra Rao, to relieve the Special Deputy Collector of his duties, and requested Mr Gibson to take charge of the Nandial Division. I have further authorized Mr Farmer to make such arrangements as he may consider proper for carrying on the work of the Taluqdars. I detain me at Kurnool, to pay an early visit to Cumbum.

7. I take this opportunity of pointing out to the Board the extreme difficulty of administering the Head Assistant's Division under the present system, by which Mr Farmer appears to be in direct communication with Government, while the Collector of the district is not regularly informed of what transpires in his taluqs, but is left, I understand that the system of direct communication, to which I take exception, when a crisis, such as the present, arises to receive information through another channel originated in matters connected with the Cumbum Municipality. I have therefore addressed Government upon the subject, but as the Board will doubtless agree with me in considering that the present is a time when all communication relating to the welfare of the district should pass through my hands, I trust that they will be prepared to move Government to reconsider their orders upon the subject.

From R. DAVIDSON Esq. Acting Collector of Kurnool to the Acting Head Assistant Collector of Cumbum dated 2nd January 1877, No 2.

I regret to learn from a dem official letter from the Board's 2nd Member that your division is in a state far from satisfactory and that there is reason to fear the existence of also want amongst some of the poorer classes. At present I am not sufficiently informed of the measures which have been taken in the taluqs under your charge, and I have therefore the honor to request that you will be good enough to furnish me at the earliest possible date with information in a concise form under the following heads —

Enclosure No 1

Proceedings of the Madras Government, Revenue Department
16th January 1877

No 349
Read the following Proceedings of the Board of Revenue, dated 10th
January 1877, No 111 -

Read the following letters -
From R DAVIDSON, Esq, Acting Collector of Kurnool, to Major F J HICKS,
Government Grain Agent, dated 1st January 1877, No 1

Reference to Mr Thornhill's letter, dated 15th December 1876, and to your
demi-officials, dated 30th December, from Tadpatry, I have the honor to forward a
statement showing the several depots which I propose to establish in the taluqs of
this district (other than Cumbum and Markapur) and the amount of grain required
each month at each depot
2 It is not possible at present to form even an approximate estimate of the
amount of grain which may hereafter be procurable in the local markets, but I am
disposed to think that it will not be more than sufficient to meet the requirements of
that part of the population which will not be provided with food from the Government
Depots
3 The estimate now prepared has been calculated at 1 1/2 lbs per head per diem
4 I approve of Kollimundla as a depot in lieu of Kollimundla for the present
but, as soon as arrangements are completed, it will be necessary to form a depot at the
latter place as well as at Nussam, which, of course, will be supplied from Erriguntla
I have shown in the statement the quantity of grain required at Nussam and at Koll
munda, respectively, but, as long as the depot at Kollimundla is kept open, the whole
amount must be consigned to that place
5 Referring to paragraph 5 of Mr Thornhill's letter, I understand that you
have discussed the matter of carriage with Mr Gibson and the Deputy Collector of
Recapully, and that you are now fully informed upon this subject
6 Instructions have been issued to make the necessary arrangements for receiv
ing the grain at the several depots and for weighing the bags as they are taken into
store Orders have also been issued directing the Tahsildars and their subordinates
on no account to divert or otherwise interfere with the contractor's carts

Copy forwarded for the information of the Board of Revenue

(Signed)

R. DAVIDSON,

Acting Collector

From R DAVIDSON, Esq, Acting Collector of Kurnool, to H. E. STOKES, Esq,
Acting Secretary to the Board of Revenue, dated 2nd January 1877, No 1
Upon receipt of the orders of Government directing me to proceed to Kurnool, I
handed over charge of my Court on the 22nd ultimo, and after consulting with Sir
W Robinson and Mr Pueble, who had just returned from the Ceded Districts, went
to Bellary, where, in company with the Board's 1st Member and Mr Price, I visited
some of the relief works in the vicinity of the town and gained a considerable amount
of information regarding the manner in which they are being carried on. I then
returned to Gooty and proceeded to Kurnool, which I reached on the evening of the

upon the subject. I have the
honour to be, Sir,
Yours truly,
J. D. Davidson
22 January 1877

My Dear Mr. Davidson
I am Mr. Acting Collector
Shimoga
To Mr. Acting District Officer
Dumbara

Mr. District Officer
a clear official letter from
Shimoga to Dumbara
that you are in a
state for from Shimoga
and

and that there is reason to
believe of a considerable
amount of some of the
classes. It is present in
not sufficiently informed
of the measures of relief
which have been taken in
hand in the Survey under
your charge and I have thought
it best to write you to
with the great enough to
furnish me at the earliest
possible date with information
as a source from under
the following heads

1. The names of the Policy holders
already in hand with the
number of acres cultivated
upon

arrangements as he may consider
proper for carrying on the
work of the scholars & I have
proposed as soon as I have
completed the work of or-
ganization which was necessarily
defensive one at present to lay
an early onset to Communism
I take the opportunity of
pointing out to the Board
the extreme difficulty of
administering the State
Apparatus's Bureau under
the present system by which
the former appears to be
in direct communication
with Government, while the
Director of the Institute is
all

not nearly informed of what
transpires in his Tokyo
is left with access such as
the present needs require
information through another
channel I understand that
the system of direct communica-
tion to which I like exception
is regarded in matters connected
with the Communism Ministry
I have therefore addressed Govern-
ment upon the subject but as
the Board will doubtless agree
with me in considering that
the present is a time when all
communication relating to
the welfare of the Institute
should pass through my hands,
I

is very far from satisfactory
indeed. Matters are such
to be so that that Mr. Ashburn
considers that my presence
there is urgently called for
at present however it is not
possible for me to visit that
part of the district without
sacrificing the interests of
the rest, but I have telegraphed
to Mr. Chappin who I have been
informed is under orders for
Dumfries, requesting him to
join forthwith and after
consulting with the local
Magistrate Collector to assume
charge of the Police work
in the meantime. Being in
the last letter just to hand
the

the authorities having decided
that the interests of both
Districts and also the Special
Deputy Collector have reported
that, I have, to visit the dis-
trict, emergency, orders
my Assistant Mr. Ashburn
to proceed to Dumfries without
delay and to render Mr. Chappin
his assistance. I have also
undertaken the standing by
Collector Ramesh Chandra Das
to relieve the Special Deputy
Collector of his duties and
requested Mr. Glean to take
charge of the District business
I have further authorized Mr.
Mr. Chappin to make such
arrangements

with them to secure for the whole
such a uniform system
for the management of Policy
operations which I hope to
bring into force shortly

5 I find with regret that

the road from Gresham to Dunbarton
is far from being in a safe
-factory condition, and although

so long as the weather remains
dry there is no immediate

hazard of the bridge being
undermined I fear that in

the event of a slight fall of
rain considerable difficulty

would be encountered and it
is not impossible that considerable

damage by cut with the Railway
might be seriously inflicted.

With

Yours faithfully
Wm. McNeill

and security of water, it is not
easy to attempt repairs which
would be of immediate benefit,

but I have written to the District
Engineer who is on circuit regarding

them to meet me at an early
date and after consulting with

them will report further what
steps may be considered upon

It is of course essential that the
and the other roads leading from

the Railway be kept open for
traffic

From some official records
during the last day or two

I much regret to find that
the state of the River is serious

Copy of my
letter dated
12th Dec 1891
to day to
the District
Engineer

and other things, the Government
 Grain Agent, reports for me have
 been fixed upon and grain is
 now being freely imported
 into the Valley of the Bueh
 following statement being an
 or account of Government the
 show the Board the manner in
 which the reports are to be
 described

Taking		Total		Total	
Estimate of cost for item	Estimate from reports for item as per in the report	250000	5000	250000	5000
Palikonda	Palikonda	12,500	250	12,500	250
Palikonda	Palikonda	15,000	300	15,000	300
Palikonda	Palikonda	6,500	1250	6,500	1250
Palikonda	Palikonda	35,000	700	35,000	700
Palikonda	Palikonda	42,500	850	42,500	850
Palikonda	Palikonda	15,000	300	15,000	300
Palikonda	Palikonda	35,000	700	35,000	700
Palikonda	Palikonda	20,000	400	20,000	400
Palikonda	Palikonda	25,000	500	25,000	500

I have made ample provision
 for the necessary complement
 of reader and weights and
 arrangements for their distribution
 to the several depots
 have been completed
 4. Taking advantage of the
 presence at Head Quarters
 occasion of the proclamation
 number of the special officers
 and the Bureau by Collectors
 can be determined in communication
 with

and the case I mentioned
 some of the relief work in
 the vicinity of the town and
 gained a considerable amount
 of information regarding the
 manner in which they are
 being carried on I then re-
 referred to Gentry and proceeded
 to Summit, which I reached
 on the evening of the 27th
 having on my way met Mr. Gibson
 and Mr. Henry, who were
 engaged at Eldridge and
 inspected the Lawrence Works
 near that village
 2. I assumed charge of the
 district from the first on
 the following day I have
 been made the following arrangements
 - made for the following

20/10
 a systematic organization of the
 relief work in charge of the
 Lawrence Relief work in the
 Valley of Pennsylvania, Potomac
 and Shenandoah and the Gibson
 in charge of these under Mr. Henry
 - Ketchum, Mountain and Little
 the have been assumed by Mr. Henry
 (of Summit & Potomac) however
 will continue responsible for
 work in the Southern Valley
 of Shenandoah and District
 and Gibson will meet those
 taking from time to time in Potomac
 will work under the direction
 of Mr. Gibson and the districts
 under that of the Eldridge
 3. The communication with the Mountain
 and

that you have discussed the matter
of conveyance with Mr Gibson
and the Deputy Collector of
Detroit and that you are
now fully informed upon
the subject

I furthermore have been instructed
to make the necessary arrangements
for securing the grain at
the several depots and for keeping
the logs as they are taken into
above Ordere have also been received

directing the Librarians and
their Librarians on no account
to divert or otherwise interfere
with the Confessions of Cards
I have the

Honored William H. H. Sedgwick
127 January 1877
City Collector

copy forwarded for the use of
members of the Board of Revenue
12th, 12 December
City Collector

We are also the following
No 1

From the City Collector
of Revenue

To the Secretary to the
Board of Revenue
Chicago

When receipt of the orders
of Government directing me
to proceed to Minnesota, I
handed over charge of my
bond on the 22nd ultimo &
after consulting with the
Mr Robinson and Mr Little
who have just returned from
the Cedar Rapids, went
to Bellamy where in company
with the Board's first member
and

Letter from London and other
 (see) and the amount of
 grain required each month
 at each depot
 2. It is not possible at present
 to form even an approximate
 estimate of the amount of
 grain which may hereafter
 be procurable in the local
 markets, but I am disposed
 to think that it will not
 be more than sufficient
 to meet the requirements of
 that part of the population
 which will not be provided
 with food from the Government
 depots
 3. The estimate now proposed
 has been calculated at $11\frac{1}{2}$ lbs
 per

per head per diem
 4. I approve of the quantities
 a depot in lieu of Birmingham
 for the present; but as soon as
 arrangements are completed
 it will be necessary to form
 a depot at the latter place
 as well as at Birmingham which
 of course will be sufficient
 from Birmingham I have
 shown in the statement the
 quantity of grain required
 at Birmingham and at Birmingham
 respectively, but as long as the
 depot at Birmingham is kept
 open the whole amount must
 be conveyed to that place
 5. Referring to the 5 of the form
 - this letter I understand that

Madras
19th January 1877

(Signed) H. E. STOKES
Acting Secretary

Read the following Proceedings of the Board of Revenue, dated 19th January 1877.

the Proceedings

Prices—On the whole prices show a tendency to fall. In the price of rice there was a fractional rise in Krishna but a fall in all other districts, notably in Chingleput and North Arcot. That of cholam rose two tenths of a seer in Kistna, and nearly 200 per rupee in Kurnool. It may be said to have been stationary in Bellore and Cuddapah but fell in the other 9 everywhere else. Rayore in Madura was stationary in Bellore, but fell in price in all other districts. The price of gambu was 6 in Kistna and Kurnool but was nearly stationary elsewhere.

Unfall—In Kistna the Collector reports a third of an inch of rain. Showers mounting to about a tenth of an inch fell at Bellore and Kistna but more was registered elsewhere in the district. In Chingleput district rain fell at Chingleput 2, at Ponnay 1, and at Congerem 2 inches. No rain is reported to have fallen in any other district.

Grant and outlay—The grants made up to the 15th January amounted to

Board will be able to submit a clear abstract to Government

The entry during the week as reported amounts to Rupees 678 118 of which Rupees 611 073 were spent in Bellary, Gadag and Tumrur. The largest outlay was incurred in the latter district where the Collector has accorded his grant by Rupees 35201. Further funds will be placed at his disposal in separate proceedings. There is some fire in the Bellary return as regards Hindupur, which had 2086 coolies on the 1st day of the week, but in which the outlay is given as Rupees 1. The Collector telegraphs in reply to a call for explanation that, as far as known the figures are correct, but about Rupees 10000 should probably be added. The second return is correct.
