Proceedings of the Madras Government Revenue Department,
 16th January 1877

No 351 Read the following Proceedings of the Board of Revenue, dated 11th January 1877 —

Read the following letter from R DAVIDSON, Esq, Acting Collector of Kurnool, to H F STOKES, Esq, Acting Secretary to the Board of Revenue, dated 7th January 1877, No 16

I have the honor to forward herewith copy of a Memorandum of Instructions, No 10, dated the 28th December last, issued by the Honorable D Arbuthnot in regard to compensation for lands taken up for famine relief roads, and request that the Board will be pleased to sanction the procedure therein laid down

ENCLOSURE No 1
MEMORANDUM OF INSTRUCTIONS
 No 10

SUBJECT — Compensation for land taken up for Famine Relief Road

1 It has been found impossible to employ all the suffrages from the prevailing scarcity except by turning old lines of village tracks into roads

2 In many places it is impossible to do so where the roads run as they had been engendered on before demarcation and have not been separately demarcated. This is particularly the case in Shrotriem villages

3 In other cases the roads take such awkward curves that it would be absurd to take the roads round these curves instead of cutting through some private property

4 The Overseer marking out the road from Dupal to Marivomula was, therefore directed when found necessary to take the road through the land of private individuals. Claims for compensation must be settled after the road is made

The Head Assistant Collector is authorized to sanction such claims when necessary through the lands of private individuals in anticipation of the settlement of claims for compensation

Dupal
 28th December 1876

(Signed) D ARBUTHNOTT,
 Acting Second Member of the,
 Board of Revenue, on Special Duty

The Board do not think it expedient that a general order such as that asked for should be given. In ordinary cases there will be sufficient time to arrange with the owners, and only in cases of emergency, such as doubtless existed in Markapur, would the course then adopted be justifiable. In some cases it will be unavoidable but in most it will be better to follow the existing track under improvement
