ORDER—No. 2213 M., dated 19th December 1898.

The administration reports of the several district municipalities for the year 1897–98 having been reviewed in the Proceedings read above, the Government now proceeds to consider them collectively.

2. There was but little improvement in the punctuality with which these reports were submitted. As in the previous year, only two of them were received on the prescribed date, while five (from Conjeeveram, Cannanore, Cochin, Tellicherry and Ootacamund) were more than two months, and those from Rajahmundry and Vizagapatam were upwards of three months late. The Chairmen of Municipal Councils are requested to give their personal attention to this matter and see that strict punctuality is observed in future. The statements submitted with these reports were generally prepared with much greater care and accuracy than in previous years. The statements received from Palghat, Salem, Mangalore and Vizianagram were free from errors, but those from Vizagapatam, Chingleput, Conjeeveram, Mannárgudi and Kurnool were far from being as complete and accurate as they should have been. The Chairmen of these towns should devote their special attention to this matter.

I.—CONSTITUTION OF MUNICIPAL COUNCILS.

3. The number of municipalities administered under Act IV of 1884 continued to be 58, and the constitution of the several Municipal Councils on the 31st March 1898 is compared below with the corresponding figures for the previous year:—

Year.	Sanctioned strength.		Actual strength on 31st March.				Total.				
			Officials.		Non-officials.						
	Nominated.	Elected.	Nominated including *ex officio*.	Elected.	Nominated.	Elected.	Nominated.	Elected.	Grand Total.	Europeans and Eurasians.	Natives.
1896-97	564	411	183	20	364	366	547	386	933	149	784
1897-98	560	405	175	19	326	348	501	367	868	145	723

During the year under review the maximum number of councillors for the Municipal Council of Ootacamund was reduced from sixteen to twelve and the number to be appointed by election from eight to two, the Council as it was then constituted having been found to be unequal to the efficient administration of the municipality. Owing to the difficulty experienced in getting competent men to be appointed as municipal councillors, the maximum strength of the Srívilliputtúr Council was also reduced from eighteen to twelve. There was thus a decrease of four in the sanctioned number of nominated councillors and of six in the number of elected members. The actual number of councillors on the 31st March 1898 was 868 against 933 in 1896–97, and of these, 22·4 per cent. were officials against 21·8 per cent. There were seven councils, namely, those of Adóni, Ellore, Masulipatam, Vániyambádi, Srívilliputtúr, Tinnevelly and Srírangam, which consisted entirely of native members, against nine in the previous year.

4. The elective system of appointing councillors continued to be in force in the 34 municipalities shown in Appendix II. The total population of these towns according to the census of 1891 is 1,245,000, and of this 3 per cent. were qualified to vote at elections against 3·1 per cent. in the previous year. One hundred and fifty-two seats were filled by election during the year, and of these, 104 were contested, 53·9 per cent. of the registered voters attending the poll against 59·7 per cent. in 1896–97. In the remaining 24 municipalities the elective system of appointing councillors was not in force, the privilege which was extended to all these towns, except Chingleput and Tiruvannámalai, not having been exercised by them during the year under review. The population of these towns is 456,000.

5. The right of electing the Chairman was restored to the Municipal Councils of Conjeeveram and Trichinopoly during the year under review. Thus the number of Municipal Councils in the enjoyment of this privilege at the end of the year was 39 against 37 in 1896–97. On the 31st March 1898, 31 of the 58 Chairmen were non-officials against 35 on the corresponding date in 1897, as shown in the abstract below :—

Year.	Number of Municipalities in which the Chairman was an official.			Number of Municipalities in which the Chairman was a non-official.			Number in which the office was vacant and the Revenue Divisional Officer was in temporary charge under section 15 of the Act.	Grand total.
	Nominated by Government.	Elected by the Council.	Total.	Nominated by Government.	Elected by the Council.	Total.		
1896-97	10	5	15	7	28	35	8	58
1897-98	8	7	15	5	26	31	12	58

6. The average sanctioned strength of the several Municipal Councils remained the same as in the previous year, namely, 17 ; but the average actual strength fell from 16 to 15. The number of meetings held was 1,710 or 74 more than in 1896–97, while the number adjourned for want of a quorum was 159 against 157. The average attendance of the members was 8·8, or 51·8 per cent. of the sanctioned strength, against 9·0 or 52·9 per cent. of the strength in 1896–97. The attendance of the non-official members, though it declined slightly, was still fair, but that of officials continued to be indifferent.

II.—RECEIPTS.

* This is Rs. 16 less than the closing balance of 1896-97, as shown in the accounts for that year, the difference being due to corrections made after audit.

There was a decrease of Rs. 2,86,202 in the current receipts, due chiefly to a fall under the tax on arts, grants from Government and loans, which was partly counterbalanced by an increase under the tax on buildings and lands, water-tax, sale-proceeds of Government securities and advances recovered. The variations under the several heads are noticed below.

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from 6 to 7½ per cent. of their annual value in Anantapur and from 7½ to 8½ per cent. in Nellore, Mannárgudi and Vizagapatam. The rate of the tax on buildings was raised from 5 to 6 per cent in Gudiyáttam, from 5 to 6½ per cent. in Bezwada, from 6¼ to 7½ per cent. in Tinnevelly and from 7½ to 8 per cent. in Coonoor and Chidambaram. In Chicacole the rate of the land-tax was increased from 6 to 7½ per cent., in Ongole from 6½ to 7 per cent. and in Chidambaram from 7½ to 8½ per cent. With these exceptions, there was no alteration in the rates and methods of taxation.

9. The principles on which the valuation of rental for purposes of house and land tax assessments was made in the several municipalities remained practically the same as in the previous year; but the registers of the house-tax were revised during the year in five towns and those of the land-tax in seven. The registers of these taxes were, however, far from complete in many other towns and the Municipal Councils concerned have been directed either to complete the revision of the assessments which they have already commenced or to undertake the revision in the current year.

10. The demand, collection and balance of the tax on buildings and lands in each municipality are shown in Appendix III, and the following abstract compares the totals for all municipalities with those for the previous year :—

* This is Rs. 202 more than the balance shown as outstanding on the 31st March 1897 owing to corrections made after audit.

† Excludes penalties, Rs. 63.

The net current demand of the tax was more than that of the previous year by Rs. 19,148. The increase was spread over 42 municipalities, but was conspicuous only in Vizagapatam, Nellore and Tinnevelly where the rate of the tax was increased, and in Chingleput where the tax was levied for the whole year instead of only for a half-year as in 1896–97. The decrease in the remaining sixteen towns was slight. The amount of remissions granted by Municipal Councils on appeal was only Rs. 1,033 against Rs. 2,262 in the previous year. There was a slight decline in the collections, the percentage of current collections to demand being 87·6 and that of arrear collections 62·1 against 87·8 and 63·9, respectively, in the previous year. In Tiruvannámalai, Vániyambádi, Tiruppattúr and Periyakulam the whole or nearly the whole of the current demand was realized, while in 31 other municipalities the current collections were more than 90 per cent. of the demand. They were, however, low in Gudiyáttam (65·1 per cent.) and very poor in Vizagapatam (25·8), the short collections in the former case being due to delay in the disposal of appeals preferred against

the assessments of the land-tax, and in the latter to the sanction of Government to the enhancement in the rate of the tax having been obtained late in the year. The arrear collections were extremely low in Anakápalle (30·2 per cent.), Berhampur (27·9), Cannanore (26·2), Bimlipatam (19·2) and Vizianagram (16·5), and the unadjusted balances in Masulipatam, Madura and Cannanore were again very heavy. The total amount remitted and written off as irrecoverable was Rs. 13,947 against Rupees 9,474 in 1896–97. Much of this loss of revenue might have been avoided had collections been more prompt in previous years.

11. Appendix IV shows the incidence of the tax on buildings in the several municipalities. On an average it was Rs. 2–6–0 per house taxed against Rs. 2–4–9 in 1896–97. As in previous years, the incidence was heaviest in the hill stations of Coonoor (Rs. 19–0–8) and Ootacamund (Rs. 13–12–6) and lowest in Srívilliputtúr (As. 12–3). In the remaining 55 municipalities it varied from Rs. 5–6–11 in Vizagapatam to As. 14–4 in Tiruvannámalai. It was more than Rs. 3–8–0 in Cocanada (Rs. 5–1–10), Bimlipatam (Rs. 4–6–3), Cochin (Rs. 3–15–6) and Cuddapah (Rupees 3–14–8) and less than Rs. 1–8–0 in Tinnevelly (Rs. 1–7–11), Ongole and Walajapet (Rs. 1–6–9), Palni (Rs. 1–6–6), Mannárgudi and Anakápalle (Rs. 1–6–4), Periyakulam (Rs. 1–4–11), Gudiyáttam (Rs. 1–4–4) and Vellore (Rs. 1–3–1). There is thus ample room for believing that the assessments of this tax are in many instances not as complete and accurate as they should be, and the Government has insisted upon the Municipal Councils concerned taking steps to revise them.

The extent of land assessed in Calicut, Mangalore and Vizagapatam is not known, while in Adóni and Ootacamund the land-tax was not levied during the year, owing in the former case to a misapprehension that under section 63 (3) of the District Municipalities Act all agricultural lands were exempt from taxation and in the latter to the orders of Government as to the correct interpretation of the term "agricultural lands" not having been issued before the close of the year. In the remaining 53 towns 57,463 acres of land were assessed at Rs. 60,474, the average tax per acre being Rs. 1–0–10 against As. 15 in 1896–97. Excluding Cochin where the incidence (Rs. 95–1–0) was abnormally heavy owing to the special circumstances of the town, the average assessment was highest in Bezwada (Rs. 15–11–3) and lowest in Tiruppattúr (As. 3–1).

12. *Water and Drainage tax on Buildings and Lands.*—The demand, collection and balance of this tax are shown in Appendix IV-A. This tax was levied for the first time in Conjeeveram and Kurnool at the rate of 4 per cent. on the annual value of buildings and lands and in Vizagapatam, where it was imposed at the rate of 4 per cent. in Waltair and at 8 per cent. in the other parts of the town. In Coonoor the rate of the tax was raised from 1 to $2\frac{1}{2}$ per cent. and in Ootacamund from 2 to 4 per cent. of the rental value on all houses situated within 150 yards of a hydrant and from 1 to 2 per cent. on others. The total net demand of the tax was Rs. 1,28,327 (Rs. 1,08,546 current and Rs. 19,781 arrears) against Rs. 82,481 in 1896–97; and of this sum Rs. 97,137 or 75·7 per cent. were collected against 76·9 per cent. in that year. The current collections were good in Cuddapah (98·1 per cent.) and Ootacamund (96·6), but were indifferent in Trichinopoly (74·6), Dindigul (73·6), Adóni (71·8) and Masulipatam (71·4) and poor in Vizagapatam (33·8). The short collections in the last case were, however, due to the late date on which the sanction of Government was obtained to the enhancement in the rate of the tax. The percentage of arrear realizations to demand was very poor in Masulipatam (39·4). As much as Rs. 2,124 was remitted and written off as irrecoverable, and the balance at the close of the year was Rs. 29,066, or Rs. 9,285 more than at its commencement, the outstandings being heavy in Vizagapatam, Trichinopoly and Madura.

13. *Tax on Arts.*—This tax was levied in 56 Municipalities against 55 in the previous year, having been for the first time imposed in the town of Coimbatore. In the municipalities of Karúr and Palni the tax was not imposed at all, while in all the other towns, except Tiruppattúr, it was levied on all classes of the schedule.

14. The demand, collection and balance of the tax on arts in each municipality are shown in Appendix V, and the totals for all municipalities are compared below with those of the previous year:—

* This is Rs. 852 in excess of the balance shown as outstanding at the close of 1896–97, the difference being due to corrections made after audit.
† Excludes penalties, Rs. 88.

The net current demand of this tax was less than in the previous year by Rupees 72,136. The amount of remissions granted by Municipal Councils on appeal was 8·6 per cent. of the demand against 6·7 per cent. in 1896–97; but the remissions were excessive in Cannanore (26·8 per cent.), Cocanada (19·8), Walajapet (19·1), Berhampur (16·4) and Vellore (15·8), being mostly due to undue leniency of the Councils in granting remissions. Excluding the Municipality of Coimbatore where the tax was newly levied, the decrease in the net demand occurred in 46 towns, being due to the operation of the revised Schedule A annexed to the District Municipalities Act, under which the tax was assessed on incomes instead of on trades as in the previous year. The fall was large in Salem (Rs. 7,900), Conjeeveram (Rupees 6,700), Adóni (Rs. 5,900), Trichinopoly (Rs. 5,800) and Masulipatam (Rs. 5,200). In the remaining nine towns, however, there was an increase, which was most marked, in Ootacamund (Rs. 1,700) and Tuticorin (Rs. 1,500). The current collections amounting to 86·0 per cent. of the demand, against 86·6 per cent. in 1896–97, continued to be fair, but the arrear realizations amounting to 37·8 per cent. against 40·0 per cent. must be characterized as unsatisfactory. The whole or nearly the whole of the current demand was realized in Tiruvannámalai, Vániyambádi and Palamcottah, while in 21 other towns, the collections, being more than 90 per cent. of the demand, were good; but in Calicut (70·1 per cent.), Mannárgudi (69·4), Dindigul (67·6), Erode (64·8) and Vizagapatam (52·2), they were indifferent. The proportion of arrears realized was extremely poor in Cannanore (18·6 per cent.), Vizianagram (18·4), Chicacole (14·3), Bimlipatam (10·7), Bellary (6·1) and Anakápalle (1·9), and the outstanding balances in Masulipatam, Madura and Vizagapatam were considerable. The total amount remitted and written off as irrecoverable was Rs. 16,081 against Rs. 12,488 in 1896–97.

15. The incidence of the tax on arts in the several municipalities is shown in Appendix VI. The total number of persons assessed and the average incidence were 52,133 and Rs. 3–13–9, respectively, against 65,742 and Rs. 4–2–7 in the previous year. The number of persons assessed was only 3·1 per cent. of the population of the towns concerned against 4·0 per cent. in 1896–97, and the proportion taxed in the higher classes of the schedule was considerably smaller than in that year. The incidence was high in Cochin (Rs. 8–8–9), Tuticorin (Rs. 8–3–2) and Negapatam (Rs. 7–1–8); but low in Chidambaram (Rs. 1–14–8), Kumbakónam (Rs. 1–11–3) and Tiruvannámalai (Rs. 1–5–8). The Municipal Councils of the last three towns should revise the assessments in view to placing them on a more equitable footing.

16. *Taxes on Vehicles with Springs, Animals and Carts.*—As in previous years, these taxes were levied in all municipalities, except Palghat, where the tax on animals has not yet been imposed. The receipts amounted to Rs. 1,68,525 against Rupees 1,67,452 in 1896–97; but the Government has little doubt that, by the exercise of closer supervision, this source of revenue can be further developed.

17. *Tax on Servants.*—A tax on private, menial and domestic male servants was, for the first time, levied under section 47 (vii) of the District Municipalities Act,

as amended, in the hill municipalities of Ootacamund and Coonoor at the rate of Re. 1 per mensem for each such servant. The revenue realized under this head was Rs. 561, of which Rs. 410 were in Ootacamund and Rs. 151 in Coonoor.

18. *Coercive Processes.*—Appendix VII shows the extent to which coercive measures were adopted for the collection of the several taxes in each municipality and the following abstract compares the total figures for 1897–98 with those for the previous year :—

Year.	Number of warrants remaining unexecuted at the beginning of the year.	Number of warrants issued during the year.	Total.	Number of warrants adjusted during the year.	Number of warrants remaining unexecuted at the close of the year.

† Do. 193 less do. do. do. do.

The total number of warrants issued during the year was 91,697 against 110,051 in 1896–97, showing a marked decline, which is satisfactory. Including the unexecuted warrants of the previous year, the total number for disposal was 127,007, and of these 95,952 were executed or cancelled within the year, leaving 31,055 unadjusted at its close. The largest number of warrants was issued in Bellary (7,924). In Conjeeveram, Calicut, Tellicherry and Mangalore also free resort was had to coercive process, while in Tanjore, although the collections were unsatisfactory, the number of warrants issued was only about one-third of that in 1896–97 and nearly one-fourth of the total number for disposal remained unexecuted at the close of the year. On the other hand, the number of warrants issued in Tiruppattúr, Periyakulam, Bezwada, Erode, Adóni, Coonoor and Parlákimedi was very small. Of the total amount of Rs. 2,12,797 covered by all these warrants, Rs. 1,43,236 were realized. Property was sold in 519 cases against 389 in the previous year, the sale-proceeds amounting to Rs. 1,379 against Rs. 925. The number of prosecutions instituted for default of payment of taxes was 1,992, the largest number being in Madura (421), Srirangam (250) and Calicut (201).

19. *Tolls.*—The statistics relating to tolls are shown in Appendix VIII. Tolls were levied in 55 municipalities as in the previous year. Of these, 51 had toll-gates of their own, while the remaining four (Palamcottah, Tinnevelly, Srírangam and Trichinopoly) continued to receive a share of the receipts from the gates managed by the District Boards. In Anantapur, Chicacole, Cocanada, Masulipatam, Kurnool and Gudiyáttam, the tolls were collected departmentally, while in the other towns they were leased out to contractors. The rate of tolls was raised from one-half to three-fourths in Parlákimedi and from three-fourths to the maximum in Chicacole. The number of municipal toll-gates was 350, or three more than in the previous year, and the gross collections amounted to Rs. 4,57,609 against Rs. 4,76,396. Of this, Rs. 1,25,291 were paid to District Boards, while the contributions received from these bodies amounted to Rs. 26,633. The total revenue credited to Municipal Funds under this head was thus Rs. 3,58,951 against Rs. 3,73,922 in the previous year, the decrease appearing mainly in Bellary and Kumbakónam, where there was no competition at the auction sale of the farms, and in Cuddapah, where a contribution was, for the first time, paid to the District Board during the year under review.

20. *Incidence of Taxation.*— Appendix IX shows the incidence of municipal taxation per head of the population in each municipality. The average was As. 14–4 including tolls and As. 11 excluding them against As. 14–6 and As. 11, respectively, in the previous year.

B.—Miscellaneous Receipts.

21. The total amount of miscellaneous receipts was Rs. 13,94,041 against Rs. 16,66,333 in 1896–97, a decrease occurring mainly under grants from Government and loans and being partly counterbalanced by an increase under rent of lands, buildings,

&c., contributions from Local Funds, recoveries for services rendered to private individuals, sale-proceeds of Government securities, and advances recovered. The causes of these variations are noticed below.

22. *Rent of Lands, Buildings, &c.; and Sale-proceeds of Lands, Produce of Lands, &c.*—The receipts from rents amounted to Rs. 34,064 against Rs. 32,605 in the previous year, and the sale-proceeds and produce of lands to Rs. 32,569 against Rupees 24,138. The increase under these heads occurred chiefly in Cocanada and Mangalore, being due in the case of the former to the sale of extensive house-sites.

23. *Conservancy Receipts.*—The income under this head was Rs. 26,281 against Rs. 27,842 in the previous year. The largest revenue was realized in Trichinopoly (Rs. 3,923), Conjeeveram (Rs. 3,100), Cuddalore (Rs. 2,294) and Tanjore (Rs. 2,232), while none was derived from this source in Parlákimedi, Cochin and Tiruvannámalai. In Berhampur, Cocanada, Dindigul, Calicut and Nellore the amount realized was almost nothing. The special attention of the Municipal Councils has again been drawn in the individual reviews to the possibility of developing this source of revenue, and the Government trusts that they will take a real interest in the matter.

24. *Fees and Revenue from Educational Institutions.*—The receipts under this head amounted to Rs. 1,16,256 against Rs. 1,10,440 in the previous year, the increase which appears chiefly in Palghat and Salem being due to larger attendance at the Municipal schools and colleges.

25. *Fees and Revenue from Markets and Slaughter-houses.*—The total income under this head was Rs. 1,89,455 against Rs. 1,80,119 in 1896–97. Of this sum, Rs. 1,42,217 were derived from markets and Rs. 47,238 from slaughter-houses. The only municipalities which had no markets of their own were Berhampur, Ellore, Chingleput, Cannanore, Srívilliputtúr, Tuticorin, Bimlipatam and Vizianagram. In the first two of these towns, however, the construction of public markets was either in progress or in contemplation, while the needs of most of the others were supplied by suitable private markets. There were altogether 107 municipal markets, or three less than in the previous year, the largest number being again in Trichinopoly (8), Srírangam (8) and Madura (6). In fourteen of these the fees were collected departmentally, while in the others their collection was leased out to contractors. The largest revenue was derived in Trichinopoly (Rs. 19,501), Ootacamund (Rs. 11,978) and Coonoor (Rs. 10,000), and the smallest in Palni (Rs. 325), Anantapur (Rs. 320), Bellary (Rs. 199) and Ongole (Rs. 97). Excluding the charges amounting to Rupees 25,736 incurred on these institutions on account of public works and establishment, the net receipts were Rs. 1,16,481 against Rs. 1,00,916 in 1896–97.

26. *License Fees.*—The receipts under this head were Rs. 35,323 against Rs. 36,923 in the previous year. They amounted to more than Rs. 1,500 in Madura (Rs. 2,259), Negapatam (Rs. 1,840), Guntúr (Rs. 1,811), Calicut (Rs. 1,730), Kumbakónam (Rs. 1,669) and Bellary (Rs. 1,642), but were less than Rs. 150 in Anantapur, Chicacole and Periyakulam (Rs. 147), Cannanore (Rs. 138), Walajapet (Rs. 130), Palamcottah (Rs. 109), Cochin (Rs. 104), Tirupati (Rs. 88), Parlákimedi (Rs. 82), Anakápalle (Rs. 80) and Gudiyáttam (Rs. 42). The particular attention of Municipal Councils has been drawn to the desirability of developing this source of revenue and to the necessity of adhering strictly to the rule requiring prepayment of these fees, where it is not now enforced.

27. *Fines under the Municipal and other Acts.*—The amount of fines realized was Rs. 32,768 against Rs. 29,513 in the previous year. It was above Rs. 2,000 in Madura (Rs. 4,274), Kumbakónam (Rs. 2,264) and Bellary (Rs. 2,213), and below Rs. 100 in Parlákimedi (Rs. 85), Walajapet (Rs. 56) and Anantapur (Rs. 30).

28. *Grants and Contributions.*—Under this head the amount received from Provincial funds was Rs. 2,86,403 against Rs. 4,99,294 in 1896–97. A grant of Rs. 55,750 was paid by Government to the Municipal Council of Cocanada, Rs. 18,220 to Kurnool and Rs. 1,44,000 to Tirupati, in aid of their water-supply schemes, and a contribution of Rs. 2,000 was made to the Municipal Council of Anantapur in order to enable it to meet current demands. The contributions received from Local Funds amounted to Rs. 98,527, and those from other sources to Rs. 32,905, the corresponding figures for the previous year being Rs. 86,835 and Rs. 30,797.

29. *Recoveries for Services rendered to Private Individuals.*—These amounted to Rs. 1,02,603, or Rs. 11,562 more than in the previous year. Of this sum, Rupees 82,049 were recovered as fees for the private scavenging service and the remainder for other services. The private scavenging system continued to be in force in all the municipalities. The number of houses served by municipal agency again increased from 43,666 to 46,957, and exceeded 2,000 in Trichinopoly (3,538), Palamcottah (2,517), Mangalore (2,359), Negapatam (2,117) and Madura (2,011); but it was below 150 in Coonoor (148), Anakápalle (147), Anantapur (140), Chingleput (136) and Tiruvannámalai (56). As, however, the proportion of houses thus served to the total number assessed to the tax on buildings is still very low (16·9 per cent.), there is ample scope for the expansion of the service, and the special attention of Municipal Councils has been called to this matter in the individual reviews. Out of the total amount of fees due, viz., Rs. 97,021, only Rs. 82,049 or 84·6 per cent. were collected. The whole of this sum could have been realized, had all the Councils insisted upon the payment of these fees in advance as repeatedly ordered by Government. The total charges of this service (Rs. 80,218) were, however, more than fully met by the receipts, and it is gratifying to observe that the system was self-supporting in 31 towns. The net cost was large in Cannanore (Rs. 1,171), Masulipatam (Rs. 990), Guntúr (Rs. 828) and Vizagapatam (Rs. 764). There does not, however, appear to be any reason why in these towns any part of the cost of this service should be imposed on the general tax-payer.

30. *Loans.*—The Municipal Councils of Cocanada, Kurnool, Tirupati and Vizagapatam obtained loans amounting to Rs. 25,230, Rs. 6,070, Rs. 14,000 and Rupees 60,500, respectively, from Government, for expenditure on their water-supply schemes, and the Calicut Council borrowed Rs. 9,580 from Provincial funds for providing a burial ground for Mappilas. Further particulars regarding the indebtedness of municipalities will be found in Appendix XXII.

III.—EXPENDITURE.

31. The charges under the several heads are compared below with the actuals of the previous year and the budget estimates for the year under review :—

The total expenditure exceeded that of the previous year by Rs. 4,33,718, an increase under Grant 3 and advances, being partly counterbalanced by a decrease under investments.

Grant 1.—Public Works.

32. The expenditure on public works amounted to Rs. 10,41,099 against the budget estimate of Rs. 19,67,030 and the actuals of Rs. 10,49,608 in the previous year. It was 35·6 per cent. of the year's receipts and 29·7 per cent. of the total outlay under all heads against 32·7 and 34·2 per cent., respectively, in 1896-97. The decrease as compared with the budget estimate occurred chiefly under water-supply, being due to the non-utilization of the greater portion of the allotments provided for the water-supply schemes in Cocanada, Coonoor, Ootacamund, Tirupati and Vizagapatam.

33. *Roads.*—The outlay on roads was Rs. 2,69,787 against the budget estimate of Rs. 2,71,470 and the actuals of Rs. 2,90,708 in the previous year. Of this sum, Rs. 36,143 were expended on new works and Rs. 2,33,644 on repairs against Rupees 51,243 and Rs. 2,39,465, respectively, in 1896-97. As compared with the previous year, there were marked decreases in Cuddalore, Bellary, Kumbakónam, Conjeeveram, Bezwada, Ellore, Tuticorin, Salem, Cocanada, Trichinopoly and Vizianagram, which were partly counterbalanced by increases in Madura, Chidambaram, Rajahmundry, Tanjore and Mannárgudi. The total length of roads maintained in the several Municipalities was 1,399 miles, of which 904 were metalled and 495 unmetalled. The proportion of unmetalled roads was large in Masulipatam, Mannárgudi, Negapatam and Palamcottah, but in most of these towns there are natural difficulties in metalling the roads. Steps should, however, be taken by the Municipal Councils concerned to reduce gradually the extent of unmetalled roads. In all the municipalities except those named in the margin, the roads are reported to have been in good condition. The Municipal Councils of these excepted towns have been directed in the individual reviews to improve their roads in the current year.

Adóni.	Periyakulam.
Coimbatore.	Ongole.
Cocanada.	Vellore.
Bezwada.	Chidambaram.
Masulipatam.	Máyavaram.
Madura.	Vizagapatam.

34. *Road Charges and Tolls.*—The total outlay on roads was 74·6 per cent. of the net municipal income from tolls against 73·2 per cent. in the previous year. In eleven municipalities the percentage was more than 100, but in the sixteen towns noted in the margin it fell below the prescribed minimum of 50. The special attention of such Municipal Councils as had no adequate explanation to offer for the short outlay has been drawn to the matter in the reviews of the individual reports.

Salem	39·4
Anakápalle	38·4
Anantapur	37·2
Kurnool	36·3
Bezwada	29·0
Bimlipatam	24·9

35. *Buildings.* — The expenditure under this head amounted to Rs. 74,760 on new works and Rs. 48,683 on repairs, making a total of Rs. 1,23,443 against Rs. 1,31,105 in 1896-97. The decrease occurred chiefly in Adóni, Madura, Salem, Máyavaram and Negapatam, being due to the absence of any special works similar to those carried out in the previous year, but there were also noteworthy increases in Coimbatore, Karúr, Kurnool and Palni. The increase in Coimbatore was due to the building of sheds for conservancy bullocks and to extensive repairs made to some of the municipal buildings, and in the three other towns mainly to the construction of a school-house, a market and a municipal office building, respectively.

36. *Drainage and Water-supply.*—The outlay on drainage was Rs. 42,416 against Rs. 74,631 in the previous year. Of this sum, Rs. 12,707 were spent on new works and Rs. 29,709 on repairs. With the exception of the realignment of the intercepting sewer in Ootacamund, on which an expenditure of Rs. 5,720 was incurred, no new drainage work of any importance was undertaken during the year. The

expenditure on water-supply amounted to Rs. 5,23,676 against Rs. 5,03,913 in the previous year. Of this sum, Rs. 4,15,980 were spent on new works and Rs. 1,07,696 on repairs. The Conjeeveram and Kurnool water-supply schemes were completed during the year, while those of Cocanada, Tirupati and Vizagapatam were under execution. A few other schemes of water-supply and drainage were under the consideration of Government or under investigation by the Sanitary Engineer. Appendix X shows the progress made or the action taken in each case.

37. *Establishment.*—The charges on account of the public works establishments other than those employed for drainage and water-supply works, the cost of which is included in the expenditure under these heads, amounted to Rs. 29,990 against Rs. 28,712 in the previous year. Except in Chingleput, Karúr and Bimlipatam, where the execution of the ordinary works was supervised by the Chairmen or Councillors, either overseers or maistries were employed in the several municipalities for this purpose. The cost of this establishment was 7·6 per cent. of the expenditure on roads and buildings against 6·8 per cent. in 1896–97.

Grant 2.—Education.

38. The educational operations of Municipal Councils were conducted on the same principles as in previous years. The total expenditure on education, excluding Rs. 8,520 spent on school buildings and shown under Grant 1, but including the contributions amounting to Rs. 1,000 paid to Local and Provincial funds, was Rs. 3,42,801 against Rs. 3,39,410 in 1896-97. Details of the expenditure under this head are compared below with the figures for the previous year :—

39. There were 320 municipal schools and colleges on the 31st March 1898 against 317 in the previous year. Of these, 28 were colleges and secondary schools and 292 primary schools. Twenty-four of the former and 10 of the latter were maintained on the salary system and the others on the salary-result system.

40. *Colleges and Secondary Schools.*—There were 3 second-grade colleges and 12 upper secondary and 13 lower secondary schools, against 3, 15 and 13, respectively, in 1896–97. The strength and cost of the higher departments of these institutions are shown below :—

—	Year.	Strength at the end of the year.	Average attendance.	Net cost.	Average cost of educating each pupil.

	1897–98	440	411	2,248	5 7 6

The strength and average attendance of the collegiate and upper secondary departments again increased and the receipts from these departments exceeded the charges by Rs. 2,670. This very gratifying result was due chiefly to improved attendance and consequent higher receipts from school-fees in Palghat and Salem and also to the fact that the Provincial grant for 1896–97 on account of the high school at Cannanore was received in the year under review. There was also an increase in the attendance at the lower secondary departments of the schools on the salary system, which were again worked at a profit of Rs. 1,210, while in these departments of the schools on the salary-result system there was an increase both in the attendance and the net cost, but the cost per pupil was only Rs. 5–7–6 against Rs. 9–14–9 in the previous year.

In Karúr, Chicacole, Cannanore, Palghat, Tellicherry, Salem, Tiruppattúr and Máyavaram, the upper secondary departments were worked at a profit, which was largest in Palghat. But the average cost per pupil was very high in these departments in Ootacamund (Rs. 75) and Kurnool (Rs. 19), and in the lower secondary departments on the salary-result system in Salem (Rs. 30). The Municipal Councils of these towns, except Ootacamund, the circumstances of which are peculiar, should take steps to reduce the cost.

In the First in Arts and the Matriculation examinations, the results were almost the same as in 1896–97; but there was a decided improvement in the results of the Lower Secondary examination.

42. The strength and cost of the primary schools and departments maintained by Municipal Councils are compared below with the figures of the previous year :—

—	Strength at the end of the year.	Average attendance.	Net cost.	Average cost of educating each pupil.
			Rs.	Rs. A. P.
Salary system—				
1896–97	2,073	1,756	6,646	3 12 7
1897–98	1,966	1,956	7,670	3 14 9
Salary-result system—				
1896–97	15,436	12,441	67,015	5 6 2
1897–98	15,422	14,358	65,340	4 8 10

The strength in both classes of schools declined slightly, but the average attendance showed a marked improvement. In the salary system schools the average cost per pupil was slightly more than in the previous year, the increase in the net cost occurring in nine municipalities, but chiefly in Ootacamund, while in the salary-result system schools the average cost declined from Rs. 5-6-2 to Rs. 4-8-10. The average cost per pupil was high in the following municipalities :—

	Rs.	A.	P.
Salary system schools—			
Ootacamund	16	4	4
Bellary	9	14	9
Anantapur	7	5	6
Salary-result system schools—			
Rajahmundry	13	3	1
Ootacamund	10	14	1
Cochin	9	15	1
Ellore	7	7	4
Cuddapah	7	0	1

The Municipal Councils of these towns should make every endeavour to reduce the cost.

43. *Grant-in-Aid Schools.*—The number and strength of the several departments of these schools and the amount of grants paid to them are shown in Appendix XII. There were in all 883 schools at the end of the year against 850 in 1896–97, and the attendance in them rose from 57,031 to 60,106, the increase occurring chiefly in Chingleput, Madura and Calicut, where a larger number of schools was aided. Of the total number of pupils, 48,664 or 81·0 per cent. attended the result system schools and the rest the salary grant schools, and 72·5 per cent. of the total amount of grants disbursed was earned by the former. The total amount paid as grants was Rs. 92,202 or 96·6 per cent. of the allotment against Rs. 90,875 or 94·4 per cent. in the previous year. The percentage was equal to or exceeded 100 in 27 municipalities and fell below 75 in four others. Appendix XIII contains a summary of the explanations furnished by the Councils concerned of the failure to utilize the whole of the budget allotments. Result grants were paid in 39 municipalities at the maximum rates allowed in the Grant-in-Aid Code, and in the others at varying rates or under the assignment system.

44. *Stipends in Training Schools and Inspection.*—The expenditure on normal stipends fell from Rs. 2,733 to Rs. 2,176, but that on inspection was Rs. 13,405 or Rs. 270 more than in the previous year. The number of pupils who underwent training during the year was 67 against 82 in 1896–97. The decrease is not satisfactory, especially as many of the teachers employed in the municipal and aided schools were still unqualified. The particular attention of Municipal Councils has been drawn to this matter in the individual reviews and the Government trusts that they will make earnest endeavours to remedy this state of things by steadily pursuing the policy of denying employment to unqualified teachers in their own schools and of reducing or refusing grants to such men in aided schools. There were 55 inspecting schoolmasters employed by the Municipal Councils against 56 in the previous year; but in Anantapur, Chingleput, Madura, Palni, Coonoor, Ootacamund, Walajapet, Srívilliputtúr, Anakápalle and Bimlipatam, no special arrangements were made for the inspection of schools.

45. *General Results.*—The net expenditure on education and other particulars relating to schools maintained and aided from Municipal funds are shown in Appendix XIV. The total net outlay under this head was Rs. 1,90,754 or 12·5 per cent. of the municipal income from taxation, against Rs. 1,95,963 or 12·7 per cent. in 1896–97. Of this sum, Rs. 29,479 or 15·5 per cent. were spent on secondary, and the remainder on primary, education. In Anantapur the receipts exceeded the cost of education by Rs. 136, but among the other towns the percentage of net expenditure to the income from taxation was high in Tanjore (28·3), Vellore (25·4), Chicacole (20·1), Adóni (18·0) and Salem (17·1), and very low in Madura (8·4), Ootacamund (8·3), Cocanada (8·0) and Palghat (2·4). The total number of boys under instruction in the municipal and aided schools was 61·8 per cent. of the male population of school-going age against 59·1 per cent. in 1896–97. The proportion was very satisfactory in Ongole (114·6), Guntúr (102·0), Karúr (100·0) and Chingleput (98·6), but it was small in Cocanada (30·8), Cochin (35·5), Srívilliputtúr (35·5) and Calicut (39·5).

Grant 3.—Medical Services and Sanitation.

46. *Hospitals and Dispensaries.*—The expenditure under this head was Rupees 2,87,710 against Rs. 2,80,115 in the previous year. Increase occurred chiefly in Masulipatam, Tellicherry, Coonoor and Nellore, being partly counterbalanced by a decline in Madura, Bellary, Trichinopoly and Calicut. In Masulipatam the increase was due to payment of the arrears of 1896–97 and in Tellicherry, Coonoor and Nellore mainly to the larger purchase of medicines. The decrease in Madura, Bellary and Trichinopoly is attributed to the non-payment in whole or in part of the cost of medicines, and that in Calicut to the charges for 1896–97 having included the arrears of the previous year. As in previous years, there was at least one hospital or dispensary in every municipality. The hospitals at Dindigul, Ootacamund, Vizagapatam and Vizianagaram remained under private management; but except in the last case, contributions were paid by the Municipal Councils concerned towards their maintenance. The hospital at Tirupati was under the control of the North Arcot District Board and in Walajapet and Tanjore accommodation for in-patients was provided in the American Mission hospital at Ránipéttai and in the Raja-Mirasidar hospital maintained by the District Board at Tanjore, respectively. Appendix XV shows the number of persons treated in the several hospitals and dispensaries. The total number of in-patients rose from 22,092 to 25,750 and that of out-patients from 1,272,608 to 1,328,932. The increase under the latter head was due partly to the growing popularity of the institutions in Cuddalore and to the prevalence of malarial fevers in Cuddapah. All Municipal Councils, except those of Chingleput and Tiruvannámalai, maintaining hospitals or dispensaries of their own have framed rules under section 127 of the District Municipalities Act for the reception and treatment of patients.

47. *Midwives.*—Every municipal hospital and dispensary had a midwife. Altogether there were 81 midwives against 76 in the previous year and they attended 6,775 cases of labour against 6,249, the average number of cases for each being 84 against 82. The largest number of cases was attended by the midwives at Masulipatam (294), Mannárgudi (239), Cuddalore (218), Dindigul (209), Mangalore (208), Tiruppattúr (207) and Kumbakónam (206), and the smallest by those at Berhampur (48), Walajapet (47) and Chicacole (15). Every endeavour should be made by the Councils of the last three towns to secure better results.

48. *Medical Training of Women.*—As usual the information furnished on this subject will be found summarised in Appendix XVI. The Municipal Councils of Adóni, Bellary, Conjeeveram, Guntúr and Vániyambádi consider that no action need be taken by them in this direction, as female medical aid is already available in these towns or female medical practitioners or trained midwives are already employed in their hospitals and dispensaries. The Anakápalle Council had a midwife under training in the Government Maternity Hospital at Madras. In Nellore and Mangalore some pupils were sent to Madras for training as midwives, while in Trichinopoly and Negapatam the Municipal Councils each sent a woman for training as an apothecary. Many of the Municipal Councils, however, have furnished no information on the subject and have therefore presumably done nothing in this matter. The attention of these and of other Councils is drawn to the remarks of Government on this subject in paragraph 47 of G.O., No. 2858 M., dated 31st December 1897. The administration reports for the current year of all Municipalities in which no female medical aid is available should furnish full information as to the steps which it is proposed to take to provide such aid.

49. *Vaccination.*—The work done in this department has already been fully reviewed in G.O., No. 1452 L., dated 11th August 1898, on the report of the Inspector of Vaccination. The statistics relating to vaccination in the several Municipalities will be found in Appendix XVII. Vaccination was compulsory in all the municipalities and animal lymph was used in all cases. The total number of operations rose from 93,033 to 96,006, and of these 86,947 or 90·6 per cent. are reported to have been successful against 86,323 or 92·8 per cent. in the previous year. The number of operations performed by medical subordinates was 1,456 or 32 less than in 1896–97. The quality of the work done in Tiruppattúr, Palghát, Salem, Vániyambádi and Srírangam was very good, while in Chicacole, Cannanore and Berhampur it was poor. The total number of successful operations was 51·1 per mille of the population against 50·8 in the previous year. The best results appear to have been secured in Cocanada (105·4 per mille), Coonoor (96·2) and Trichinopoly (85·4) and the worst in Cuddapah

and Tanjore (32), Tirupati (31·7), Kumbakónam (31·1), Máyavaram (27·9) and Mannárgudi (24). The number of children under one year successfully vaccinated was 46,339 or 27·2 per mille of the population against 47,601 or 28 per mille in 1896–97. Except in Adóni, Periyakulan, Calicut, Coonoor, Ootacamund, Salem, Tiruppattúr and Vániyambádi, where the proportion exceeded 35·0 per mille, these results cannot be considered satisfactory. Infantile vaccination was very backward in Tiruvannámalai and Berhampur, where less than 15 per mille of the children under one year were successfully vaccinated. If the instructions issued in G.O., No. 1502 M., dated 19th October 1894, are carefully observed and the compulsory provisions of the law are strictly enforced, it should be possible to reduce to very small proportions the number of unprotected children in municipalities. The number of prosecutions instituted against those who failed to have their children vaccinated was 11,668 against 13,845 in the previous year, the largest number being in Trichinopoly (1,710), Madura (1,610) and Cocanada (883). The average cost of each successful operation performed by municipal vaccinators was the same as in the previous year, viz., As. 4–3. It exceeded As. 8 in Kurnool, Cannanore, Coonoor, Tirupati, Walajapet and Chidambaram and was below As. 3 in Calicut, Anakápalle, Vizianagram, Coimbatore, Trichinopoly, Cocanada, Salem, Madura and Anantapur.

50. *Vital Statistics.*—The numbers of births and deaths registered during the year are compared below with the figures of the previous year :—

—	Births.	Rate per mille.	Deaths.	Rate per mille.
1896–97	58,324	34·3	50,700	29·8
1897–98	54,329	31·9	55,217	32·4

There was an improvement in the registration of deaths, but the number of births registered fell from 58,324 to 54,329. These returns being still evidently untrustworthy, every endeavour should be made to render them complete. In the 25 municipalities named in the margin, the death-rate exceeded the birth-rate ; but in most of them this was partly due to the prevalence of cholera. The registration of births in Berhampur and Chicacole and of deaths in Dindigul and Srívilliputtúr was very backward. The attention of the Municipal Councils concerned has been drawn in the individual reviews to the necessity of effecting an improvement in the work of this department. The total number of prosecutions instituted for failure to register births and deaths was 1,740 in 37 towns against 1,758 in 39 towns in the previous year. The largest number was in Madura and Chidambaram; but in Dindigul and Srívilliputtúr there was not a single prosecution, although in these towns registration was not satisfactory.

51. *Conservancy—Road-cleaning and Road-watering.*—The expenditure incurred under this head was Rs. 6,67,555 against the budget estimate of Rs. 6,62,080 and the actuals of Rs. 6,09,655 in 1896–97, the increase over the previous year's figure occurring chiefly in Bezwada, Coimbatore and Calicut. It is satisfactory to note that the outlay was slightly in excess of the allotment. In nineteen municipalities the proportion exceeded 100 per cent., but in four others it was below 85 per cent. The expenditure was 25·8 per cent. of the ordinary receipts excluding special grants from Provincial funds and loans against 26·1 per cent. in the previous year. It exceeded 25 per cent. in 35 towns and fell below 15 per cent. in Kurnool and Palghat. Information regarding the sanitary condition of the several municipalities, when last inspected by the Sanitary Commissioner or his Deputy, is furnished in Appendix XIX. Most of the towns continued to be in the same unsatisfactory condition as in the previous year. The attention of the Municipal Councils is again drawn to the remarks of Government on this subject in paragraph 53 of the General Review for 1893–94 and it is hoped that they will exert themselves to effect an improvement in this direction. Appendix XX shows the number of public latrines provided in the several municipalities. The total number rose from 1,189 to 1,216, giving an average of one for every 1,400 inhabitants.

In 47 municipalities, the number was again below the prescribed minimum of one for every 1,000 inhabitants. The special attention of the Municipal Councils concerned has been drawn to this in the individual reviews.

Grant 4.—Lighting and Miscellaneous.

52. *Lighting.*—A sum of Rs. 1,12,766 was spent under this head against Rs. 1,22,736 in the previous year, the decrease occurring chiefly in Negapatam, Cuddapah and Salem. The total number of lights maintained was 14,921 against 14,418 in 1895–97, or on an average ten for every mile of road, as shown in Appendix XXI. The number of lights in Palghat and Coonoor was again very low, being only three for each mile of road.

53. *Public Garden, Survey of Land, Fire and other Charges.*—The expenditure under this head amounted to Rs. 1,03,403 against Rs. 77,521 in the previous year, as shown below :—

	1896–97. Rs.	1897–98. Rs.
Public garden	7,872	5,548
Survey of land	203	1,464
Fire	1,562	832

Compensation for lands	13,636	35,782
Other charges	17,846	18,043
Total ..	77,521	1,03,403

Grant 5—Supervision and Management.

54. The charges under this head amounted to Rs. 2,17,264 against Rs. 2,04,915 in 1896–97, as detailed below :—

	1896–97. Rs.	1897–98. Rs.
Municipal office establishments	80,766	83,317
Collection of municipal taxes and contingencies ..	80,486	88,671
Salary and carriage allowance to Chairmen	26,878	21,973
Contribution to Central office establishments ..	16,785	23,303
Total ..	2,04,915	2,17,264

There were paid Chairmen in Coonoor, Ootacamund, Salem, Conjeeveram and Trichinopoly ; but in the last three of these towns the office was abolished in the course of the year in view to the appointment of a Secretary under section 39-A of the District Municipalities Act. In Adóni, Conjeeveram, Nellore, Cuddalore, Tanjore and Trichinopoly paid Secretaries were appointed during the year. The expenditure under this grant was 8·4 per cent. of the ordinary receipts against 8·8 per cent. in 1896–97 and against the limit of 10 per cent. prescribed by Government. This proportion, was, however, exceeded in 22 towns, but in Adóni, Coonoor and Salem there were special reasons for the increase. In the eighteen towns noted in the margin, however, there was no apparent explanation for the high cost and the Municipal Councils concerned should take steps to reduce it.

IV.—DEBT, CLOSING BALANCE, &c.

55. *Indebtedness of Municipalities.*—Loans amounting to Rs. 50,268 were repaid during the year, Rs. 2,173 were transferred to sinking fund and Rs. 64,522 were paid on account of interest on the municipal debt. Details of the loans raised and of the amounts repaid and outstanding are given in Appendix XXII. Appendix XXII-A shows the financial position of each municipality which is in debt to Government. From this it will be seen that all these towns, except Cochin and Trichinopoly, which closed with a deficit of Rs. 190 and Rs. 5,515, respectively, had a balance in their favour on the 31st March 1898. The deficits in Cochin and Trichinopoly were,

however, only apparent, being due in the first case to the failure to credit to the Municipal funds a sum of Rs. 962 before the close of the year, and in the latter to the delay in selling the water-works machinery and to the payment out of current revenues of a sum of Rs. 13,390 towards the cost of the water-supply scheme in anticipation of such sale. In Kurnool also there was a deficit of Rs. 1,577, which was due chiefly to the unfavourable character of the season and to a large expenditure on measures adopted for the prevention of cholera and plague, but it was met temporarily from the balance of the Provincial loan on account of the water-works.

56. *Advances.*—These amounted to Rs. 4,89,588 against Rs. 90,161 in the previous year, the increase being due to the large advances made in Cocanada and Tirupati on account of the water-supply projects under execution.

57. *Closing Balances.*—The closing balances of all the municipalities amounted to Rs. 5,06,828 or 19·6 per cent. of the current receipts. The proportion was large in Vizagapatam (166·8), Conjeeveram (74·0) and Ootacamund (58·2), owing mainly to the inclusion in the balances of the amounts reserved for expenditure on water-supply schemes which were in execution or contemplation. In 26 other municipalities, however, the balance was below the limit of 10 per cent. prescribed by Government, while in Ellore, Bezwada, Masulipatam, Vellore, Mannárgudi, Cochin and Trichinopoly the year closed with a deficit, which in the first five towns was due chiefly to short collections under the principal taxes and to increased expenditure, and in the last two to the circumstances explained in paragraph 55 *supra*.

58. *Municipal Accounts.*—The municipal accounts continued to be audited by the Inspector of Local Fund Accounts and his Assistants under the supervision of the Accountant-General. His consolidated report on the audit of the accounts for 1896–97 has not yet been received.

59. *General Administration.*—The working of each municipality having been reviewed in detail in the orders passed on the individual reports, it will be sufficient to remark here that the administration was inefficient in Masulipatam, Cannanore, Tirupati, Vizagapatam and Vizianagram, indifferent in Berhampur, Chicacole, Rajahmundry, Dindigul, Madura, Tellicherry, Gudiyáttam, Vellore, Chidambaram, Cuddalore, Mannárgudi, Tanjore, Srírangam and Trichinopoly, and fair in Chingleput, Palni and Máyavaram. In Guntúr, Periyakulam, Coonoor and Palamcottah the administration was good, while in the remaining 32 municipalities it was tolerably satisfactory. On the whole, His Excellency the Governor in Council is glad to be able to record that the year's administration was an advance on that of the previous year and was fairly creditable to the Municipal Councils. They must however bestir themselves to remedy the serious faults of apathy in assessing and collecting taxation, neglect to enforce infantile vaccination and vital registration, and supineness towards sanitary requirements.

Government has ruled that if the Municipal Council cannot carry out the work without the assistance of provincial finances, which the Government is unable to promise, the question of a water-supply for the town must stand over for the present (G.O., Mis. No. 1772 M., dated 13th August 1897).
	Tirupati	96,000	..	..	..	2,31,000	59,000	1,54,000	28,198	Drainage scheme sanctioned, but execution deferred. Water works are being executed by the Public Works Department.
	Vellore	2,53,000	..	..	..	3,13,000	..	..	..	Water-supply scheme abandoned as being too costly. Drainage works executed piecemeal were ordered to be stopped (G.O., Mis. No. 1302 M., dated 5th August 1896).
Salem	Salem	..	..	..	..	A scheme is under investigation.				The Public Works Department is investigating the scheme.
	Tiruppattúr ..	..	..	..	..	..	..	..	..	The town has been surveyed and necessary levels taken for a drainage scheme.
	Vániyambádi ..	..	..	..	..	..	.	..	..	The council has allotted funds for surveys and levels for drainage scheme, but the Sanitary Commissioner considers that water-supply should precede drainage. Neither of them could be dealt with until other towns that are urgently in need of improvements are done with.
South Arcot	Chidambaram ..	..	..	..	..	..	..	..	..	Additional surveys and levels have been taken for a water-supply scheme and a scheme is under preparation.

* For the purposes of this statement, each department of a college or school is taken separately e.g., if a high school has upper secondary, lower secondary and primary classes, it will appear under each of the departments as far as regards the classes concerned.

† Entries preceded by a *minus* sign in these columns denote profit to municipal funds, the expenditure on the school or department concerned being less than the receipts from the same.

APPENDIX XVI.

SHOWING the action taken by Municipal Councils on the resolution of the Government of India regarding the training of female medical practitioners, midwives and nurses.

Adóni.—The council has nothing more to say than what was said in the report for 1895–96, viz., that the hospital midwife is a trained woman and that it could not afford to provide funds for the training of female medical pupils by reason of the municipality being under a heavy liability to Government on account of water-works and of the existence of more pressing sanitary needs, such as drainage and the improvement of streets.

Anakápalle.—A midwife was trained in Madras during the year at the cost of the municipality.

Bellary.—No action was taken for the training of female medical pupils as a trained female hospital assistant was employed in the municipal hospital.

Calicut—No woman was sent for training during the year.

Cocanada.—As the District Board of Gódávari has opened a dispensary for women and children in the town, the council sees no necessity to provide for medical training of women.

Conjeeveram.—The two hospital midwives are trained and there is no need to train any more.

Coonoor.—No female medical practitioners are trained in this municipality.

Dindigul.—No female pupil was sent for training during the year.

Gudiyáttam.—A sum of Rs. 5 has been remitted in aid of the Countess of Dufferin's Fund.

Guntúr.—The council sees no necessity at present to further female medical education, as there is an excellent hospital of the American Mission in the town affording relief to women and children.

Kurnool.—No women were trained as native doctors or nurses during the year for want of funds.

Mangalore.—Two midwives were trained in Madras during the year.

Negapatam.—A female pupil is undergoing training in the Madras Medical College at the cost of the municipality.

Nellore.—Three pupil midwives, were undergoing training during the year.

Ongole.—The council regrets its inability to provide for female medical aid.

Palamcottah.—Rupees 60 was paid as contribution to the Madras Branch of the "Countess of Dufferin's Fund" towards the training of a female medical practitioner.

Palghat.—No expenditure was incurred under this head during the year.

Parlákimedi.—Nothing was done in the direction of promoting the female medical training.

Periyakulam.—No action was taken for the training of female medical pupils as in previous years.

Salem.—No action was taken towards the training of female medical practitioners.

Tinnevelly.—The sum of Rs. 180 provided in the year's budget was not utilized, as no candidate was forthcoming and the provision has been repeated in the budget for 1898–99.

Trichinopoly.—A female apothecary is under training in the Medical College at the cost of the municipality.

Vániyambádi.—The midwife attached to the hospital being a trained woman, no expenditure was incurred for the training of female medical practitioners during the year.

Walajapet.—The council will provide for the medical training of women as soon as its finances improve.
