that District collector B. John Low Northern

Paralysis

B. Coker Nov 21 52

Deputy collector arrived at the Yilla Station on the 7th September accompanied by the 3rd class Hospital Assistant at Southampton. The Subordinate had accompanied him on account of his extreme weakness. It seems from the statements of Coker and the Hospital Assistant that there had been some slight threatenings of paralysis for some time past and that during that time the general health had been failing. He was now put upon the sick list enjoined perfect rest, and prescribed roborant treatment. At the end of 14 days a decided improvement was noticed, but the patient was advised not to attempt his office work. He however did so and upon the same evening he was struck suddenly with symptoms of failing brain, sensation and power of motion gone &c. during the next day he was in a very critical state but with careful treatment he has partially recovered.

At present his brain is very nearly restored, he is quite rational and altho' very weak and partially paralyzed, he has so far recovered his functions. He is however far from well and I think that his further improvement and convalescence will be very slow and prolonged. I therefore have granted

B. Coopoo Row Deputy Collector

Since the statement of the case of Dy. Collec-
tor B. Coopoo Row on the 24th October a copy
of which is herewith sent. the only change in the
patient's health has been a slow but progressive
one towards recovery, he is still extremely weak
but his locomotory powers have partially return-
ed and his brain is now unclouded. a consider-
able period must still elapse before anything
like perfect recovery can be hoped for that is
supposing the present convalescence continues -
Under the above circumstances, I consider that
a change is necessary to his further recovery -
I therefore present him with the following
certificate -

I William Farguhar Davis, M.D. F.R.C.S.
Civil Surgeon, Pambatoor do hereby certify
on honor that Dy. Collector B. Coopoo Row

yet sufficiently recovered his health to return
