Receipts	29,04,808	28,53,369	27,36,489	27,10,428	29,06,370

2. The gross earnings exceeded those of the corresponding period of 1894 by Rs. 5,33,101. The increase is due to the larger receipts both in passengers and goods traffic. The working expenses have slightly risen from Rs. 26,81,594 to Rs. 26,82,135, the percentage of working expenses to receipts being reduced from 51·83 to 47·00.

3. The number of train miles run shows a decrease, but the receipts per train mile increased from Rs. 4.020 to Rs. 4.534.

4. The increase in the earnings as compared with the second half of 1894 is made up as follows:—

	Increase. RS.	Decrease. RS.
Passengers (excluding troops and police and season tickets)	3,50,848	...
Other items of coaching traffic	4,047	...
Merchandise, general	1,69,881	...
Other items of goods traffic	59,055	...
Electric telegraph and sundries	...	50,727
	5,83,831	50,727
Net Increase ...	5,33,104	

The increase under "Passengers (excluding troops and police and season tickets)" is due to the 3rd-class passenger fare having been raised from 1½ to 2 pias from 1st January 1895, notwithstanding a large diminution in the number of passengers carried in that class. The fluctuations in the other two classes are unimportant. The excess under "Other items of coaching traffic" is mainly due to "passengers' luggage" and "horses." The increase under "Merchandise, general" is chiefly due to "cotton raw," "grain and pulse," "hides and skins," "oils," "provisions," "timber" and "all other articles of merchandise." Under "Other items of goods traffic," the increase principally occurs under "Coal" and "Military horses."

5. The increase in working expenses is made up as follows:—

	Increase. RS.	Decrease. RS.
Maintenance	19,458	...
Locomotive	77,707	...
Carriage and wagon	...	69,359
Traffic	...	24,372
General charges	2,060	...
Special and miscellaneous expenditure	...	4,953
	99,225	98,684
Net Increase ...	541	

The excess under "Maintenance" is mainly due to larger expenditure of materials and that under "Locomotive" is mainly attributable to an increase under "Maintenance and renewals of Locomotive engines (materials)" and under "Unclassified expenditure (loss by exchange)." Under "Carriage and wagon," decreases occur in all heads, except a trifling increase under "2 (a) Repairs and renewals of machinery, Tools and Plant." Traffic shows a large saving under "Fuel, &c." There is a small increase in "general charges." The fluctuations under "Special and miscellaneous expenditure" are mainly due to the heavier outlay on account of "payments to other lines," and a large saving in "rates and taxes" during the half-year under review.

6. The net revenue for the half-year amounts to Rs. 30,24,901. Of this sum, after allowing for outstanding contribution to Provident Fund and guaranteed interest on the subscribed capital, the company will realise a surplus profit of Rs. 1,03,540-14-10, which will be divided equally between the company and the Government (*vide* Appendix XVI of the Revenue Accounts).
