Revenue DEPARTMENT

G.O. No.	347	Press
		<i>MS</i>
<i>62-03</i> Dated	12-3-	1870

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
12th March 1870.*

No. 102. Read the following despatch from the Right Honourable the Secretary of State for India, (Public,) to His Excellency the Right Honourable the Governor in Council, Fort Saint George, dated India Office, London, 28th December 1869, No. 36:—

I HAVE had before me in Council the despatch from your Excellency in Council, in the Revenue Department, No. 67, dated the 15th ultimo, reporting the results of various experiments with a view to introducing Cinchona cultivation into the hill-districts of your Presidency.

2. The growth of the red bark species on the heights near Paupanassum in the Tinnevelly Hills is so satisfactory that steps should be taken for establishing Cinchona cultivation on a suitable scale in that district. It is most important, with reference to a due supply of water for the tanks and channels in Tinnevelly, that the spaces that have been denuded of trees on the over-hanging mountains should again be planted. The proposal to cover one of the Kumari clearings with Cinchona trees is, no doubt, an admirable suggestion, and as it appears to be favourably entertained by your Government, I trust it will be systematically undertaken by means of seeds from the Neilgherries.

3. Mr. Arbuthnott, when at Salem, introduced Cinchona cultivation into the Shervaroy Hills with complete success, and there can be no doubt that an equally satisfactory result will attend the experiment which he is about to commence on the Pulney Hills.

4. I shall be glad, from time to time, to receive reports on the progress that is made in the hill-districts where Cinchona cultivation has been commenced. I conclude that these arrangements will be executed in concert with the Forest Department, in which your subsequent proceedings should be reported.

No. 103.

ORDER THEREON, 12th March 1870, No. 349.

Miscellaneous.

ORDERED that the foregoing despatch, together with copy of that to which it is a reply, be communicated to the Board of Revenue, to the Officiating Conservator of Forests, and to the Commissioner of the Neilgherry Hills.

2. It is observed, with reference to the latter part of paragraph 2 of the present despatch, that in paragraph 3 of G. O., 25th October 1869, No. 2,841, the Government in expressing themselves in favour of the suggestion made by the Acting Sub-Collector of Tinnevelly for the planting of Cinchona by the Forest Department near Paupanassum, remarked that it would be well for the elevation of

the spot to be ascertained. They now desire the Officiating Conservator of Forests

to report what has been done in reference to this Order.

3. Adverting to paragraph 4 of the despatch, the Acting Conservator of Forests will be requested to give all the assistance in his power to the officers conducting the experiments referred to. Major Beddome will be supplied with copies of the Government Orders noted in the margin.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with visible creases and some minor discoloration or foxing. There are faint, illegible markings scattered across the surface, which appear to be ink bleed-through from the reverse side of the page. The overall tone is a warm, off-white or light beige.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. There is no text or other markings on the page.

1. The first part of the text discusses the importance of maintaining accurate records of all transactions, including sales, purchases, and expenses. It emphasizes the need for consistency and transparency in financial reporting.

2. The second part of the text focuses on the role of the accounting department in providing accurate and timely financial information to management. It highlights the importance of effective communication and collaboration between the accounting department and other departments.

3. The third part of the text discusses the importance of maintaining accurate records of all transactions, including sales, purchases, and expenses. It emphasizes the need for consistency and transparency in financial reporting.

4. The fourth part of the text focuses on the role of the accounting department in providing accurate and timely financial information to management. It highlights the importance of effective communication and collaboration between the accounting department and other departments.

5. The fifth part of the text discusses the importance of maintaining accurate records of all transactions, including sales, purchases, and expenses. It emphasizes the need for consistency and transparency in financial reporting.
