Dated 23^d January 1877

Read the following

No. 1289

From

W. R. Robertson Esq. M. R. A. C.

Superintendent Government

Farms

To

H. E. Stokes Esquire

Acting Secretary to the Board
of Revenue, Chepauk

Sir

The extraordinary yields obtained
in one of the Malabar Carolina Paddy
experiments reported in the statement
forwarded to me with the Miscellaneous
Proceedings of the Board No. 10785 of the
7th Instant, appears to call for more
notice

= cut and line as below.

Chester at Salop.	Taking and
Halliday ad	Will age

The Secretary to Government
Revenue Department

Proceedings of the Madras Government, Revenue Department,
30th January 1877.

No. 930. Read the following Proceedings of the Board of Revenue, dated 23rd January 1877, No. 855 (Miscellaneous):—

Read the following letter from W. R. ROBERTSON, Esq., M.R.A.C., Superintendent, Government Farms, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Sydapet, 13th December 1876, No. 1,289:

THE extraordinary yield obtained in one of the Malabar Carolina paddy experiments, reported in the statement forwarded to me with the Miscellaneous Proceedings of the Board, No. 10,785, of the 7th instant, appears to call for more notice than has been given to it. If the facts are correctly reported, the yield is by far the largest on record. The particulars are as below:—

Taluk and Village.	Nature of Soil and Settlement of "Tarrain."	Extent in Square Yards.	Quantity of Manure used.	Seeds sown lbs. and ozs.	Date of Sowing.	Date of Transplanting.	Date of Reaping.	Yield.		Rainfall in the District.	Lbs. for 100 Superficial Square Yards.
								Grain thrashed.	Straw.		
								Weight in lbs.	Length of Straw.		
Verakal Taluk, Kalli- ed Anaham.	ash. Pasham, No. 2.	660.	"	51 lbs. 4 ozs.	16th May 1876.	"	4th October 1876.	768 lbs. and 12 ozs.	6 feet.	105.59 inches.	110.47.

NOTE.—The field was well ploughed and the clods were well broken before the seed was sown. No manure was used except ashes which were neither weighed nor measured. The average growth was about 1½ inches a week. This crop was ripe before the other paddy crop.

A yield of 768½ lbs. from 660 square yards of land is 5,637 lbs., or about 2,600 measures per acre.

SUBMITTED for the information of Government in continuation of the Proceedings quoted.

2. The Collector of Malabar will state whether the facts have been correctly reported.
