PROCEEDINGS OF THE COURT OF WARDS, dated 27th January 1869.

Read the following letter from J. D. ROBINSON, Esq., Collector of North Arcot, to the Acting Secretary to the Court of Wards, dated Chittoor, 16th December 1868, No. 417:—

With reference to the Proceedings of the Court, dated 17th ultimo, I have the honor to state, for their information, that to clear up all doubts respecting the real cause of the death of minor Polligar of Pulicherla Polliem, the Superintendent of Police and my Assistant Mr. Gibson, were sent out by me to hold inquiries on the spot. The result of these inquiries leaves the matter just as it was.

2. Ramappa Naidu, the maternal grandfather of the deceased minor Polligar, in a deposition given by him before Mr. Gibson, states that he suspects that the child died from poison administered to him in sweetmeat three days before his death, by Sitaramudu, one of the servants of Venkata Thimmappa Naidu, the deceased's paternal uncle; but does not say that he suspects the alleged poisoned condiment was given at the instigation of Venkata Thimmappa Naidu himself. Two other witnesses, one a maid servant and the other a boy, both living in the same house and in constant attendance on the Minor, were likewise examined, but make no mention of poisoning. They simply describe in detail the symptoms attending the illness of which the Minor died. All three witnesses say that the child had been stung by a hornet on the previous Wednesday, but that after two days' treatment, he seemed to be all right again, until the evening of Saturday, when, after the usual meal, he vomited, and was purged several times. On the following day his body began to swell, and breathing became difficult. During all Monday he grew worse, and on Tuesday morning expired.

3. By my direction the body was exhumed and sent to the Zillah Surgeon for a postmortem examination. Doctor Flemming extracted the stomach and sent it for analysis to the Chemical Examiner at Madras, who has certified that the stomach contained no poisonous matter, and that the inner part of it had been cut out and given to a dog to eat without producing any ill effect.

4. In an Arzi, dated 26th ultimo, the mother of the late Minor, among other matters of complaint, alleges that his paternal uncle Venkata Thimmappa Naidu had, through his servant Sitaramudu, administered poisoned sweetmeats to her son, and had thereby caused his death. In my answer dated 3rd instant, I told her that if she had any reliable evidence to prove the charge, it was her duty at once to come to Chittoor and prefer a formal complaint before me, in view to its being duly investigated. She has not, up to this time, taken any action whatsoever towards verifying her allegations.

5. The result of the examination made of the stomach by the Chemical Examiner may be regarded as conclusive that the boy's death was not caused by poison, and nothing has transpired during the inquiry, which in any degree tends to establish the imputation that Venkata Thimmappa Naidu procured his death in the manner alleged by his mother.

6. And now the question again arises who is to succeed to the Polliem? From my report, dated 25th November 1867, No. 327, the Court will find that the next legal heir to the Polliem is Venkata Thimmappa Naidu, the eldest of the three surviving sons of the late Polligar Venkata Chendrappa Naidu. I would accordingly beg to recommend that Venkata Thimmappa Naidu be recognised as Polligar, and that the Estate be made over to him, as he is now twenty-one years of age, and capable of managing its affairs.

7. Translation of Venkata Thimmappa Naidu's Arzi, dated 9th instant, praying that he may be installed Polligar in succession to the deceased, is enclosed for the information of the Court.

ENCLOSURE No. 1. — Translation of Arzi.

SUBMITTED to Government, with the recommendation that Venkata Thimmappa Naidu be recognised as the successor of the deceased proprietor of the Pulicherla Polliem.
