Dated 8-2-1877 197 .

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 8th February 1877.

No. 218. Read the following Proceedings of the Board of Revenue, dated 2nd February 1877 :—

Read the following letter from W. A. GOODCHAP, Esq., District Engineer, Kurnool, to R. DAVIDSON, Esq., Acting Collector of Kurnool, dated 18th January 1877, No. 15.

WITH reference to your letter, No. 12, dated the 3rd instant, I have the honor to forward two statements each for the Kurnool, Nandial, and Cumbum Ranges, one showing imperial irrigation works and local communication for which estimates have been sanctioned by proper authority, but have not been fully carried out for want of funds, comprising the following items :—

		RS.
Kurnool ...	Irrigation Works	6,537
	Local Communication	29,746
Nandial ...	Irrigation Works	6,295
	Local Communication	1,18,743
Cumbum ...	Irrigation Works	4,435
	Local Communication	29,806
	Total ...	1,95,562

2. The other statement shows irrigation and local works, for which estimates have been framed but not yet sanctioned by proper authority :—

		RS.
Kurnool ...	Irrigation	9,602
Nandial ...	Irrigation	4,295
	Local	5,650
Cumbum ...	Irrigation	4,620
	Local	695
	Total ...	24,862

3. It is proposed, if approved by you, to execute work on the first statement to the amount of Rupees 1,95,562, and on the second statement Rupees 24,862.

4. I beg to draw your particular attention to the fact, that if you approve of the irrigation works and roads enumerated in the statements being executed through the agency of this department, the present engineering staff of the district, consisting of Range Officers, Overseers, Sub-Overseers, and Maistries, will have to be withdrawn from all the relief-works in the district, as it will be very difficult to superintend the works now on hand from Imperial Funds, and those proposed to be worked out from Relief Funds, with the ordinary establishment of the district.

5. It will be necessary, to secure a proper organisation and system of work, to issue orders to the officers in charge of relief divisions that the following roads are to be left entirely to the superintendence of the Public Works Department, who will employ relief coolies and keep accounts with reference to those roads, as they will be worked out in accordance with the sanctioned estimates and plans.
