OFFICE OF SURGEON-GENERAL, I. M. D.,

Fort St. George, 7th February 1877.

No. 81-

From

THE SURGEON-GENERAL,

INDIAN MEDICAL DEPARTMENT,

Fort Saint George,

To

Secretary to Government
Revenue Department

SIR,

With reference to your Memorandum
of the 29th ultimo, I have the honor
to report for the information of His
Grace the Governor in Council that
there are 10 1/2 ounces of the Calcic
Quinimate in the Medical Stores
returned from the General Hospital,
apparently in good condition, and
that the same will be equally distributed
to the Surgeons of the 1st and 2nd District
for careful experimental trial and
report, conformably to G. O. No. 504 of
the 24th April 1874.

I have the honor to be

Sir

Your most obedient servant
R. S. S. S.
Surgeon General (M.D.)

mai

even more of the existence of L.C. or
despatch alluded to, a circumstance
which the Surgeon General no doubt
overlooked.

2. That the remark of
the Surgeon General "that it will now
be impossible to institute any
further experiments with Calcic Iodine
as there are no supplies
of the drug available" is not in
accordance with the fact, nor I re-
spectfully submit, a fair deduction
from my report. By far the greater
portion of the drug is still available,
the medicine not having been found
efficacious, and a prior report to this
effect being on record, it was not
deemed necessary to continue its trial.

3. That the medicine
having been thus sent to me, in the
busiest period of the Session, without
any special recommendation for its
trial

791/3
trial (indeed it will be seen that the
orders of Govt giving cover to the
Secretary of State's despatch were cir-
culated in June 1874 to one officer,
(Dr. L. Smith) and the medicine
itself delivered six months after to
another officer without the despatch or
order) was for a time overlooked
and subsequently not tested in a
way to meet with approval, I admit,
and whilst deeply regretting the oc-
currence of this oversight, I sincerely
hope that, under the circumstances now
above, His Grace the Governor
in Council will have the kindness to
withhold the expression of his great
dissatisfaction, which I have thus un-
wittingly called down upon myself,
whilst I institute a series of careful
experiments with the rest of the drug
and report accordingly.

I have the honor to be
Sir,

Your most obedient servant
