No. 571. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 25th April 1867, No. 429 :—

1 Estimate.

1. The road forming Item No. 241, in Part II. of the Budget of 1867-68, sanctioned for Rupees 28,750, although one line, may be considered in two distinct sections, viz. :—

1st.—From Triputty Railway Station to Triputty.
2nd.—From do. do. to Calastry.

2. The first section has been completed at a cost of Rupees 9,000, and it is very important that it shall not be allowed to fall into disrepair. To this end the Executive Agent has sent in an estimate for a maintenance grant of Rupees 1,540 per annum, at the rate of 220 Rupees per mile on seven miles.

3. I think although the road is a highly important one, and traversed by tens of thousands of pilgrims yearly, that this demand is rather excessive, and therefore I have reduced it to 200 Rupees per mile, as an experiment for the first year, and I request that Government will be pleased to authorize the amount from any funds at their disposal.

4. I have further to ask that the amount of Rupees 7,000, in column 7 of the same item, may be altered to Rupees 19,750, the balance of the estimate, the difference Rupees 12,750, being made good from the Reserve 'Communications.'

CIVIL WORKS, No. 43.

1. The road from the Triputty Railway Station to Triputty being a Railway feeder, the question of providing an annual allowance for the maintenance of that portion of the line which has been completed will be considered in the Revenue Department.

2. The Government are unable at present to supplement the allotment referred to in paragraph 4.
