M.R.O. 14—12,000—27-9-94

MADRAS RECORD OFFICE.

Government of Madras.

Revenue **DEPARTMENT.**

G.O. No. 102 Press ~~Mis~~

200-202

Dated 14—1—1867.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 14th January 1867.

Read the following papers:—

No. 200. From the Government Astronomer, to the Secretary to Government, Revenue Department, Fort Saint George, dated Madras Observatory, 4th September 1866.

Herewith I have the honor to return the letter from A. P. Webb, Esq., of Meerut, dated 7th August 1866, addressed to the Secretary to the Government of Madras, proposing the detailed publication, in daily form, in the "Fort Saint George Gazette," of the Revenue Board Rain Returns; also a copy of the Supplement to the Punjab Government Gazette, dated Lahore, 19th April 1866, in which similar Returns for the districts of the Punjab and Central Provinces are printed, agreeably to Mr. Webb's suggestions.

2. My own report upon the Revenue Board Rain Returns of this Presidency being now under consideration of Government, and my views in regard to the importance of the subject, the treatment of the past and improvement of the future Returns, the construction of a Presidency Rain Map, and the most useful form of publication of the current results having all been fully expressed therein, I have only to add, in reference to Mr. Webb's scheme, that I regard the preparation for press of such extended details as he desires as a very needless addition to the labors of any department, and their printing as a mere waste of public money and a most useless addition to the bulk of the Government Gazette.

No. 201. Proceedings of the Board of Revenue, dated 4th December 1866, No. 8,647.

Read the following papers.

Government Order, dated 23rd August 1866.

Read the following letter from A. P. WEBB, Esq., to the Secretary to the Government of Madras, dated Meerut, North-Western Provinces, 7th August 1866.

1. I beg to enclose a copy of the Meteorological Return which the Governments of the Punjab, North-Western Provinces, and Central Provinces have adopted at my recommendation.

2. The local Government Establishments are employed on its preparation, and it is published weekly in the local Government Gazettes.

3. In this Return the rain-fall is given each day, and the other phenomena of the seasons are represented by the letters H. hail storm, D. dust storm, T. thunder storm, S. snow, F. frost, E. earthquake, &c. The rain-fall accompanying any of the storms is placed by the letter indicating the character of the storm; and when the storm is *heavy*, the letter H. is prefixed, or added, to the other letter.

4. I am endeavouring to have this return adopted over all India, as a basis for extended Meteorological observations *confined to the phenomena of the seasons*, which are altogether neglected.

5. Scientific observations with the aid of instruments constitute a different department. What I propose does not clash with, or supersede scientific observations. It is, on the contrary, auxiliary to them. The agency which will be

employed on the preparation of my return, wherever adopted, is so well distributed over the surface to be registered, that it leaves nothing to desire. The information to be compiled is most valuable to the Meteorological enquirers, and may adapt itself to some hypothesis, or submit to some analysis, where instrumental registrations have proved refractory.

6. May I beg the favor of your placing this letter, and its accompaniment, before His Excellency the Governor. I earnestly hope that His Excellency will adopt my recommendations.

Referred to the Board of Revenue and Government Astronomer, for their observations.

23*rd August* 1866. (Signed) J. D. SIM,
Secretary to Government.

Government Order, 21st November 1866, No. 3,183.

ABSTRACT.—Communicating a letter from the Government of India, forwarding copy of a correspondence with Mr. A. P. Webb, on the subject of a scheme proposed by him for collecting and registering Meteorological information.

---

1. The Board see no difficulty in the way of adopting the form of return of rain-fall proposed by Mr. Webb, in lieu of that now existing, if approved by the Government Astronomer; but they incline to doubt whether much will be gained by the change.

2. As regards the further proposal contained in the correspondence communicated with the Government Order of 21st November, the Board do not consider that the Head Clerks in Collectors' Offices could usefully be entrusted with the proposed duty; but if the Government Astronomer approves the proposed form for a daily register, the Board doubt not that the Deputy Collectors in charge of the Treasuries would readily undertake to fill it up.

3. At the same time, the Board doubt whether this is the best course to be adopted for attaining the end in view. They believe that inaccurate weather returns are worse than none, and that incomplete ones are of little value.

4. They are under the impression that the Medical Officers at all head quarter stations were some years back supplied with a superior set of Meteorological instruments, and they are disposed to think that far more valuable results could be obtained by requiring these gentlemen to maintain a daily register of observations in the approved form, with such additions as the instruments in their charge would enable them to supply.

5. It is probable that some register of the kind is already maintained.

(True Copy.)

(Signed) J. GROSE,
Under Secretary to Government.

Exd. S. T. Augustin.

REVENUE DEPARTMENT.
FORT SAINT GEORGE,
14th January 1867.

No. 202.

No. 102.

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
HOME DEPARTMENT.

SIR,

Miscellaneous.

1. I am directed to acknowledge the receipt of your Under Secretary's letter, dated 23rd October last, No. 5,705, regarding Mr. A. P. Webb's scheme of collecting and registering Meteorological information.

2. Mr. Webb addressed this Government on the subject on the 7th August last, and his communication was sent to the Government Astronomer and the Board of Revenue for their observations.

3. Mr. Pogson, it will be seen, disapproves of Mr. Webb's proposals, and the Government concur in his views, that the adoption of them would not be advantageous so far as this Presidency is concerned.

4. This Government has recently proposed to the Supreme Government a scheme for procuring more reliable and complete Meteorological Statistics in this Presidency, which they feel satisfied will prove effective and sufficient for every useful purpose. These statistics will, of course, be periodically published for general information.

I have the honor to be,
Sir,
Your most obedient servant,

(Signed) J. D. SIM,
Secretary to Government.

Exd. S. T. Augustin.

Rec'd 24th Oct. 1866

Revenue Department

No. 102.

To

The Secretary to Government of India.

Home Department.

Sir,

I am directed to acknowledge the receipt of your Under Secretary's letter dated 23rd October last No. 5705 regarding Mr. A. P. Webb's scheme of collecting and registering Meteorological information.

2. Mr. Webb addressed this Government on the subject on the 7th August last and his communication was sent to the Government Astronomer and the Board of Revenue for their observations

Mr.

3. Mr. Pogson it will be seen disapproves of Mr. Webb's proposals and the Govt. concurs in his views - that the adoption of them would not be advantageous so far as this Presidency is concerned.

4. This Government has recently proposed to the Supreme Government a scheme for procuring more reliable and complete Meteorological statistics in this Presidency which they feel satisfied will prove effective and sufficient for every useful purpose - These statistics will of course, be periodically published for general information -
