Proceedings of the Madras Government, Revenue Department, 16th May 1867.

No. 245. Read the following Proceedings of the Board of Revenue, dated 7th May 1867.

Read the following :—

Season Report for the fortnight ending 15th April 1867.

1. There were a few good showers of rain in four of the talooks during the fortnight, but none of the tanks received a supply. With the exception of the Uttengherry and Usur talooks, there has been a considerable sowing.

2. Nunja and Punja crops have been harvested in Darampury, Uttengherry, and Kistnagherry talooks, and sugar-cane in the Tripattur.

3. The market prices have been stationary in four out of the nine talooks, and they are reported to have slightly fallen in the rest.

4. Public health has not been good. Fever and small-pox have prevailed in almost all the talooks, and a few deaths have occurred in the talooks of Salem and Kistnagherry.

5. Pasture and water are getting scarce in some of the talooks, while in others they are sufficient. Cattle disease (Gomary) is reported still prevalent in some places in the Uttengherry and Kistnagherry talooks.

(Signed) C. N. POCHIN,
Collector.
