Proceedings of the Madras Government, Revenue Department,
17th May 1867.

No. 275. Read the following Proceedings of the Board of Revenue, dated 11th May 1867.

Read the following:—

Season Report for the fortnight ending 30th April 1867.

1. Rain fell heavily during the fortnight in most of the talooks, and several tanks received supplies of water. Two or three tanks and anicuts have been already breached. In the Uttengeri and Usur talooks, where no rain fell, paddy crops are drooping away for want of sufficient water. The harvest consisted of "car" paddy in some of the talooks.

2. The market prices in Kistnagherry and Trichengode talooks have slightly fallen, and those in others are stationary.

3. In some parts of the district public health has not been good. A few deaths have occurred from fever and ague. Small-pox is also prevalent. The Vaccine Department is working in all the talooks, except Namkul and Trichengode.

4. Want of sufficient pasture and water is being felt in some places. Cattle suffered from Gumári in Darampuri and Kistnagherry talooks.
