No. 20. Read the following Proceedings of the Government of India, Financial Department, dated Fort William, 21st March 1867, No. 1557A.

Read—

The Budget Estimates of Local Funds for 1867-68, submitted by the several Local Governments and Administrations, with the exception of Bombay.

RESOLUTION.—The Governor General in Council observes that the only Presidency from which neither the Budget Estimate of Local Funds for the next year 1867-68, nor a telegraphic report of the totals thereof, has been received, is Bombay, and this is owing to the estimates of several Collectorates not having been received by the Local Accountant General, although the Collectors were called upon directly by that Officer, and also through the Local Government to furnish them without delay. This delay should not have occurred, and His Excellency in Council desires that a suitable expression of disapproval be conveyed by the Government of Bombay to the several Officers concerned. In the absence of any information from Bombay, the figures of that Presidency for 1866-67 have been taken in making up the total probable receipts and charges of Local Funds in the several Governments and Administrations during 1867-68 :—

2. The figures for the North-Western Provinces, shown above, were taken from a telegram, dated 19th February last, received from the Accountant General of those Provinces. But after the Budget Estimates for 1867-68 were closed, a telegram, dated 2nd March, was received from that Officer which showed the probable receipts and charges for 1867-68, as approved by the Lieutenant Governor, at Rupees 61,07,932 or £610,793, and Rupees 62,03,069 or £620,307, respectively. The estimate has since been received, and the figures shown below have been taken from it.

3. The estimated charges in 1867-68 may be classified as follows :—

Calcutta do.	11,10,901

5. It is understood that the debit balance against the Bengal Amalgamated District Road Fund will be considerably reduced by the adjustment of the balances of the several Funds which feed this head; and that the debit balance against the Calcutta Port Fund will also be greatly reduced by the measures sanctioned in Financial Order No. 498, dated 24th January 1867.

6. The estimate of British Burmah alone provides interest on the funds which require pecuniary aid from the Government. The Governor General in Council desires that information may be furnished as to whether the insolvent Port Funds in the other provinces are charged with interest or not on the advances made to them by the Government.

7. The balances to credit of the Local Funds in the several Presidencies and Provinces on 31st March 1868 are estimated as follow :—

	Rs.

grand total of receipts and charges of all the Funds, including totals under each class of rece
charges, have not been made; in the Madras Estimate the totals of each class or descri
receipts and charges have been omitted.

9. In the Central Provinces Estimate the amount of expenditure on Public Works Officers of the Public Works Department has not been shown distinctly, only notes havin given under each Fund of the sums to be disbursed by such Officers.

10. The Governor General in Council hopes that future estimates will be prepared manner already prescribed in the Financial Resolutions noticed above.

11. On an inspection of the accompanying Statements marked A. and B., the Gover neral in Council observes that in several provincial returns, great disagreements are appi the figures of 1865-66, although, as such figures represent only the actual transaction should exist. He desires, therefore, that the Accountants General concerned should fur this Office and the Comptroller General of Accounts, Central Accounts Branch, full explo of these differences.

12. The separate accounts of Local Funds for the year 1865-66 ordered to be sub have not yet been received from several provinces, as will appear on the face of the Sta marked A. and B. It is requested that the accounts in question be submitted without del
