*Proceedings of the Madras Government, Revenue Department,*
**15th *July* 1867.**

No. 230. Read the following Proceedings of the Madras Government in the Public Department :—

Passing orders on letter from Inspector General, Medical Department, regarding the supply of Chlorodyne brought by the "Hindoostan," and the further supply of the medicine on its way in the ship "Roxburgh." } (Here enter 5th July 1867, No. 808.)

No. 231. ORDER THEREON, 15th July 1867, No. 1,565.

Miscellaneous. Communicated to the Revenue Board.

(True Extract.)

(Signed) W. HUDLESTON,
*Secretary to Government.*

To the Board of Revenue, with Proceedings Public Department, No. 808.

Exd. S. T. Augustin.

*Proceedings of the Madras Government, Public Department,*

*5th July* 1867.

No 93. Read the following letter from the Inspector General, Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 4th July 1867, No. 258.

With advertence to the Proceedings of Government, Public Department, and Orders thereon, noted in the margin, I have the honor to report that the ship *Hindoostan* is now in the Madras Roads, and that the supply of Chlorodyne sent by her (lbs 40) will probably be received in a few days.

Revenue Department, No. 1176, of 25th May 1867.

2. This supply should, in accordance with the Order of 25th May 1867, No. 1176, above referred to, be handed over to Collectors, for distribution in the Districts; but, within the last fortnight, several *urgent* requisitions have been received from Deputy Medical Store-keepers, and Executive Medical Officers, for supplies of this medicine, for the use of European Military Hospitals, and the stock of it in the Presidency Medical Stores being entirely exhausted, it has not been possible to comply with these demands. I, therefore, beg to solicit the sanction of Government to the supply now expected being retained for that purpose.

3. A further supply of 40 lbs. of Chlorodyne is on its way from England in the ship *Roxburgh*, which may be expected here about the middle of next month. In the meantime, I would suggest that the Chlorodyne made in the Presidency Stores here be issued for distribution by Collectors in the Districts.

4. This preparation, though it has been objected to by some Officers of the British Medical Service, does not appear to have given dissatisfaction to Medical Officers of the Indian Service, who have been supplied with it. It is far less costly than the patent medicine of the same name procured from England, and I think is likely to prove a serviceable remedy amongst the Native population.

No. 94. Order thereon, 5th July 1867, No. 808.

Under the circumstances stated in the foregoing letter, the Inspector General, Medical Department, is authorized to retain the supply of Chlorodyne received per Ship *Hindoostan* in the Presidency Medical Stores, for distribution to the European Military Hospitals, on the understanding that the supply expected in the Ship *Roxburgh* is allotted as directed in Government Order, Revenue Department, dated the 25th May last, No. 1176.

(True Extract).

*Acting Chief Secretary.*

To the Inspector General, Medical Department.
