Proceedings of the Madras Government, Revenue Department,
15th January 1867.

No. 335. Read the following Proceedings of the Board of Revenue, dated 14th January 1867.

Read the following :—

Season Report for the second fortnight of December 1866.

1. The district is healthy, with the exception of five talooks in which fever prevails. Cattle are free from disease.

2. Preparations are being made for cultivating the Vysaak crop, and paddy has been sown in lands under wells and channels. The later white cholum, cotton, and other dry crops are generally thriving, but the cholum crops in a few villages in the talooks of Tadpatry, Raidrug, Gooty, and Bellary, are blighted. The Moongari or early cholum, corra, raggy, and cumboo crops have been reaped, and the early or Kartik wet crops are now being cut.

3. The collections are, on the whole, fair. Poor houses are still open for the relief of infirm destitute persons, while such of the able-bodied poor as cannot find work from the ryots or on the railway are employed on the famine roads.

4. A good deal of cotton is being exported to Koomptee; grain is being imported from the Nuggur Division, Dharwar, and Hurryhur.

5. Rates are still high, although they have fallen in some places, and are falling in others.
