Proceedings of the Madras Government, Revenue Department, 18th July 1867.

No. 305. Read the following Proceedings of the Board of Revenue, dated 4th July 1867, No. 4,170:—

Read the following Proceedings of the Madras Government, dated 10th May 1867, No. 167, Revenue Department.

ABSTRACT.—Reviewing the Board's Proceedings submitting report on the operations of Local Funds during 1865-66, and calling for information on certain points connected with the Endowment Fund in Tanjore, Madura, and Tinnevelly; Irrigation Cess in Trichinopoly, and Village Service Fund in Kurnool.

1. Ordered to be communicated to all Collectors for information. Their particular attention is drawn to the remarks of Government in paragraphs 7, 9, 11, and 12 of the Order.

2. Adverting to paragraph 9, Collectors will, in future, calculate the cost of supervision by the Public Works Department with reference to the sums actually expended by them, and then charge it to the accounts of Local Funds in the last month of the official year.

3. With reference to paragraph 15 of the Order, the Collectors of Tanjore, Tinnevelly, and Madura are requested to state, whether any portion of the accumulations in the Choultries may be utilized in any way without violating the intention of the original endowments.

4. In paragraph 18 the Government remark that the proportion of cost of establishment to cost of feeding in the Munro's Choultry at Gooty, in Bellary, is still exceptionally large. With reference to a similar remark by Government on the Local Fund Report for 1864-65, the Collector of Bellary has stated in his letter, dated 8th February 1867, that in consequence of the rise in prices, the cost of the establishment appears to be disproportionate, and that the establishment cannot be reduced, and the Board did not then think it proper to insist on any reduction. It has, however, come to the knowledge of the Board that the number of travellers frequenting the Choultry are not so great as to justify the outlay of a large proportion of the annual proceeds of the endowment of the Choultry on the establishment. The outlay on establishment is still larger when the rations allowed to the Choultry servants are included. The Board, therefore, consider that a reduction is quite feasible, and accordingly propose the establishment noted in the margin at a monthly cost of Rupees 34 instead of Rupees 49. The Brahmin Cook should be allowed rations, but none of the other servants.
