No. 535. Read the following letter from the Acting Superintending Engineer 1st Division, to the Secretary to Government, Public Works Department, dated Camp, Cocanada, 9th April 1867, No. 11:—

1. I have the honour to submit, with my approval, a plan and an estimate amounting to Rupees 690, for alterations and additions to the Survapuram inlet, together with an explanatory letter* from Mr. Sage, in whose range the work stands.

* No. 903, dated 27th March 1867.

2. If the Government be pleased to sanction the estimate in question, the necessary funds may be appropriated from the current year's Reserve.

From the Officer in charge of No. 1, or Eastern Delta Range, Godavery District, to the Superintending Engineer, 1st Division, dated Dowlaishweram, 27th March 1867, No. 903.

When Colonel Moberly came to Dowlaishweram on 27th ultimo, he told me bridge over Survapuram inlet was much cracked, and requested me to look at it; and, if necessary, pull it down: accordingly, on 12th instant, I inspected the inlet, which has been in a shaky state for some time, and found it was very dangerous, the cracks in centre arch admitting a hand to be passed into them, and the other two arches very nearly as bad. I therefore directed the arches to be removed at once, and now forward an estimate and two plans for so doing, and also for putting a timber platform bridge in lieu of arches, as the failure of former arches appears to be owing to subsidence of the two piers, and I did not think it safe to rebuild the arches. Early sanction is requested, as the work is in hand to prevent delay to traffic on road, which is now very great.

No. 536. Order thereon, 29th April 1867, No. 1,265.

IRRIGATION, No. 30.

The proposed additions and alterations to the Survapuram inlet, in the Godavery District, are sanctioned for immediate execution from the Reserve under "Agricultural."
