*Proceedings of the Madras Government, Public Works Department,
6th July 1867.*

No. 174. Read the following letter from the Acting Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 27th June 1867, No. 521:—

1. I have the honour to forward an estimate, amounting to Rupees 1,450, together with a plan for reconstructing the cross dam across the Poigayaur in Oluppachary limits, in the Tanjore District, and adding to it two head sluices.

2. The dam which was constructed within the last ten years had been so much injured during the freshes of last year, that it will not admit of being repaired. The whole of the foundation has been undermined, causing the work to sink, and the superstructure to crack in several places. Its reconstruction, therefore, at a point higher up the stream, where its banks are well defined, is proposed with the addition to it, at the same time, of two head sluices for the channels above it, which have at present at their heads only rectangular walls built three feet apart. The Collector has approved of the work, and as its immediate construction was necessary to prevent a total loss of revenue of Rupees 2,184 this year, the Range Officer was authorized to proceed with the work in anticipation of sanction, and it is now nearly completed.

3. I request, therefore, that the Government will be pleased to sanction the above proceeding, and that the necessary provision may be made from the Reserve fund.

No. 175. ORDER THEREON, 6th July 1867, No. 2,024.

IRRIGATION, No. 12.

1. The proceedings of the Superintending Engineer of the 6th Division, as reported in this letter, are approved.

2. The Government sanction the estimate of Rupees 1,450 for the reconstruction of the cross dam across the Poigayaur, and they will endeavour to adjust the outlay that is being incurred by the transfer of savings on the allotments for other new irrigational works.

(True Extract.)
