Revenue DEPARTMENT.

G.O. No. 2084 Press Mis.

574-577

Dated 30 — 8 — 1867

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 30th August 1867.

Read the following papers :—

No. 574. Proceedings of the Board of Revenue, dated 23rd July 1867, No. 4,657.

Read the following letter from the Superintendent of Revenue Survey, to the Secretary to the Board of Revenue, dated Chepauk, 17th June 1867, No. 1,183-33.

1. With reference to what passed, at the Board of Revenue, on Monday the 3rd instant, I have the honor to submit a proposal for an increase to the Central Survey Office Establishment, and more especially to the Lithographic Department, to which I propose to add two additional Presses.

At present	4	Presses.
Proposed	2	do.
Total ..	6	do.

2. The out-turn of lithographed Village Maps since 1859, in square-miles, is given below. The average out-turn since 1862 is 2,320 square-miles, and though, in 1863, square-miles 3,199 were lithographed, I think no larger amount than square-miles 3,000 can be calculated on with the present establishment:—

1859.	1860	1861.	1862.	1863.	1864.	1865.	1866.
57·3	487·7	1191·4	2659·1	3198·9	2473·2	1300·4	1970·1

3. The average annual out-turn of four* parties since 1861 (six years) has been square-miles 3,470. In most cases, the Maps will not be received for lithography for some considerable time after the land has been surveyed. Still, taking into account the existence of a fifth Survey party (and now a sixth) the future annual estimate of square-miles 4,500 will not, I think, be very far out. That the present Lithographic Establishment cannot keep pace with the Survey is very evident. In fact it apparently falls in arrear nearly 600 square-miles annually.

* Four have been taken to permit of the mean of a larger number of years being used for calculation.

4. The Central Office Establishment and that for Lithography were both included in the original sanction, dated 12th March 1858, the former at Rupees 880, and the latter at Rupees 751 per mensem. Since then (with the exception of Rupees 30 to the latter as Saderwarid granted in 1862) no increase whatever has been made to the sanctioned cost of either.

5. When first established, in 1859, there were only four Survey parties sanctioned, of which but three were actually in existence. The scale of the parties, moreover, was small compared to what it now is. In 1859 the monthly expenditure for one party was limited to Rupees 4,700. At present there are six parties sanctioned at a monthly expenditure each of about Rupees 8,000. In addition to this increase to Survey Establishments, three Demarcation parties have been added to the department, at a cost per mensem of Rupees 12,000.

6. Thus, whilst the sanctioned establishments in the field have been nearly trebled, the Central Office Establishment is on the same footing as in 1859.

7. In March 1862, the necessity of an increase to the Lithographic Establishment had made itself felt, and a proposal for an increase to the extent of Rupees 179 per mensem was submitted by me to the Board through the Director of Revenue Settlement. Government, however, do not seem to have ever considered the proposal.

8. The undertaking of Demarcation by the Survey Department, and the addition of a sixth party would, perhaps, have been the fittest time for submission of the application I now make. At this time, however, I was absent in England on sick leave, and Major Hessey, *not unnaturally*, felt unwilling to make proposals for any change in my Office Establishment during my absence.

9. No provision whatever having been made for any establishment to check Demarcation records and supervise its progress, I have thought it necessary to add to the Central Office a small establishment for that purpose, the monthly cost of which will be Rupees 248. I trust this will be considered sufficiently economical. As the full additional expenditure now applied for, Rupees 1,265 per mensem, will not be required at once, the amount likely to be wanted during the present official year, will be met from the Budget provision.

10. The only items of increase that I think may call for explanation are—

I. *The raising of the Head Draughtsman's pay from Rupees* 90 *to* 150.—Irrespective of the larger and more responsible charge that he will have, I deem this augmentation of salary requisite to retain the services of the present Head Draughtsman. He has passed the required examination at the Civil Engineering College with a view to bettering himself by employment in a District Establishment, where he can and doubtless would very shortly obtain a salary of Rupees 150. A glance at the salaries given in the Government Lithographic Press Establishment will show that the proposed pay is not extravagant.

II. *The addition of* 28 *Watchmen.*—It will be observed in my application for employment of temporary Watchmen, dated 17th April 1867, that the services of extra men of this class had been found necessary by the Acting Superintendent so far back as October 1866, and no objection was made on this score till just after my return from sick leave in January last. Any explanation or information on other points that may be required by the Board shall be afforded.

11. As connected with the subject of this letter, I beg to point out that at this moment the Revenue Survey is being carried on in eight districts and demarcation in three. Besides the regular Survey, moreover, what may be called special

Proceedings of the Madras Government, Revenue Department,
30*th August* 1867.

or subsidiary Surveys are in progress in several localities. Demarcation will be extended almost immediately, and one at least more special survey must be undertaken. It will be readily understood that the supervision and inspection of work so widely extended necessitates frequent journeys and at times prolonged absence from head-quarters.

12. My object in entering into these details is to show the necessity for some assistance in Office. This is required when I am absent from Madras on tours of inspection, and more particularly if (as has once already happened) Mr. Starr's services are at the same time required in the field. There is, no doubt, under these circumstances, that some additional supervision is necessary, although the Manager of the Central Office and the Head Draughtsman are both excellent and trustworthy men.

13. The emergency might be met by permitting me to appoint, when occasion required, a Deputy or Assistant Superintendent to take charge of the Central Office, and also when necessary to employ him on some of the special duties for which a Survey Officer is continually required. I would propose that, whatever his rank in the department, he should, whilst employed on either of the above duties, receive Rupees 100 per mensem in excess of the total of what he usually receives, and that when engaged on special duty, he should draw the usual mileage for rapid travelling. His place in the District Establishment to be temporarily filled by an Officer deputed by me to act for him.

No. 585, dated 20th April 1868.

Office of the Superintendent of Revenue Survey.

P

1. With the foregoing letter, the Superintendent of Revenue Survey submits an application, in the prescribed form, for an increase to the Central Survey Office Establishment and to the Lithographic Department.

2. The Board's attention having been attracted to the great delay in the completion of the Survey Maps, they had a conference with Colonel Priestley and discussed the subject. It appeared that the cause of the delay was the weakness of the Lithographic Department, which had not been augmented so as to enable it to keep pace with the increased strength of the Survey. It also appears that the monthly expenditure of each Survey party which, in 1859, was limited to Rupees 4,700, has now been raised to about 8,000 Rupees, and that three Demarcation parties have also been added to the department, at a monthly cost of Rupees 12,000.

3. In the Board's opinion these circumstances justify the increase applied for by the Superintendent of Revenue Survey, and the early completion of the Maps is most important for Settlement purposes. Besides the increase to the existing establishments, Colonel Priestley proposes an addition of a small separate establishment to the Central Office, to check the Demarcation records and supervise its progress, there being no provision at present for the purpose.

4. The entire establishment now proposed, amounts to Rupees 2,936 per month, involving an increase of Rupees 1,205* per month, or Rupees 15,340 per annum. The Board are fully satisfied of the necessity of this increase in order to render the establishment really efficient, and to enable it to cope with the augmented work in the Survey Department, and they accordingly recommend that the monthly increase of Rupees 1,205 may be sanctioned. The Superintendent puts down a monthly sum of Rupees 80, sanctioned for Saderwarid and Contingencies, as an item of decrease; but the Board believe that the sum in question should remain as at present to meet all ordinary contingent charges in every month. Colonel Priestley states, in paragraph 9 of the letter, that the full additional expenditure of Rupees 1,205 per month now applied for will not be required at once, and that the amount likely to be wanted for the payment of so much of the additional establishment as he would wish to entertain during the present official year will not form the Budget sanction.

5. Colonel Priestley shows that the present increased work of Revenue Survey, and the gradual extension of Demarcation to the districts, necessitates frequent journeys on his part, and at times prolonged absence from head-quarters, and that, therefore, some assistance is necessary in his Office. He proposes that the emergency should be met by permitting him to appoint, when occasion requires, a Deputy or Assistant Superintendent to take charge of the Central Office, and also when necessary to employ him on some of the special duties for which a Survey Officer is continually required. The Board recommend this proposal for

* Superintendent's Office 298
Demarcation Department to be newly created 243
Lithographic Press 719
1,205

the sanction of Government as a temporary measure. They believe that, with the growing amount of work in the Superintendent's Office, it will in no long time be found necessary to give him a permanent Assistant.

No. 575. From the Superintendent of Revenue Survey, to the Under Secretary to Government, Revenue Department, Fort Saint George, dated Chepauk, 1st August 1867, No. 1,508-41.

1. I have the honor to inform you, in reply to the call for information contained in your Official Memorandum of the 30th ultimo, that no addition whatever was made to my Office Establishment when the duty of Demarcation was transferred to the Survey Department.

No. 86.

2. As it is possible, however, that you may refer to the Survey Department generally, I beg to state that one full Demarcation party each was authorized to be set on foot in the Madras and Coimbatore Districts, and a Survey party and Demarcation party each at half the usual strength was ordered to be organized in Ganjam.

No. 576. Official Memorandum from the Officiating Director of Revenue Settlement, to the Secretary to Government, Revenue Department, Fort Saint George, dated Madras, 5th August 1867, No. 984-22.

As requested in the Official Memorandum from the Under Secretary to Government, dated 30th ultimo, No. 85, the Officiating Director of Revenue Settlement has the honor to append a statement shewing the reductions effected in his establishments consequent on the transfer of the Demarcation to the Survey Department. These reductions were made gradually as the demarcation of the several districts was completed. The aggregate cost of the establishments of the Settlement Department in June 1867 was nearly fifty per cent. below the expenditure

on the same account in December 1864, the date of the order of Government directing the transfer of the Demarcation to the Survey Department.

Statement showing the Demarcation Establishments maintained in December 1864, and since dispensed with, owing to the transfer of the duty of Demarcation to the Survey Department.

MADRAS,
5th August 1867.

No. 577. ORDER THEREON, 30th August 1867, No. 2,034.

Land Revenue

1. Ordered that the requisite application be made to the Government of India for sanction to the proposed increase of the Establishment of the Superintendent of Revenue Survey, the cost of which can be met for the present year from savings out of the Budget grant, as the whole will not need to be entertained at once.

2. It is observed that an annual saving of Rupees 1,21,000 has been effected in the cost of Establishments under the Director of Revenue Settlement since the transfer of the Demarcation to the Survey Department, while the addition to the cost of the Survey Establishment from the same cause has been only Rupees 1,00,036, so that even with the proposed net addition of Rupees 15,180, the total yearly additional cost of the Survey Establishment, viz., Rupees 1,15,216, will be considerably less than the saving effected in the Settlement Department.

3. The necessity for accelerating the out-turn of the Survey Maps (village) for settlement purposes is obvious, and pressing.

4. The temporary arrangement suggested by Colonel Priestley for the control of his Office during his occasional absence on duty and for special service, which is advocated by the Board, is sanctioned.

REVENUE DEPARTMENT,
FORT SAINT GEORGE,
30th August 1867.

No. 2,035.

No. 578.
To

THE SECRETARY TO THE GOVERNMENT OF INDIA.

SIR,

Land Revenue.

Dated 23rd July 1867, No. 4,657.

1. I am directed to forward, for the consideration and orders of the Government of India, the accompanying Proceedings of the Board of Revenue, submitting, with their recommendation in its favor, an application from the Superintendent of Revenue Survey for an increase to the Central Survey Office Establishment and to the Lithographic Department.

2. The Field Establishments have been much augmented since 1859; but the Central Survey Office and the Lithographic Establishments have continued on their original footing, and are, therefore, unequal to the increased work in the department. The necessity for accelerating the out-turn of the Survey Maps (Village) for settlement purposes, which, from the weakness of the Lithographic Establishment, have been much delayed, is obvious and pressing.

3. Besides the increase to existing Establishments, the Superintendent proposes an addition of a small separate Establishment to the Central Office to check the Demarcation records and supervise its progress, there being no provision at present for the purpose.

4. The cost of the entire Establishment, as now proposed, amounts to Rupees 2,936 per mensem, involving an additional charge of Rupees 1,265 per mensem, or Rupees 15,180 per annum.

5. The Superintendent has satisfactorily shewn the necessity of the proposed addition to his Establishment, and I am directed to recommend it for the sanction of the Government of India. The cost can be met for the present year from savings out of the Budget grant, as the whole of the additional Establishment will not need to be entertained at once.

6. It will be seen from the papers marginally* noted, copies of which are also forwarded, that an annual saving of Rupees 1,21,000 has been effected in the cost of Establishments under the Director of Revenue Settlement since the transfer of the Demarcation to the Survey Department, while the addition to the cost of the Survey Establishment from the same cause has been only Rupees 1,00,0?6, so that even with the proposed net addition of Rupees 15,180, the total yearly additional cost of the Survey Establishment, viz., Rupees 1,15,216, will be considerably less than the saving effected in the Settlement Department.

* Letter from Superintendent of Revenue Survey, 1st August 1867, No. 1,503-41.
Memorandum from Director of Revenue Settlement, 5th August 1867, No. 981-22.

7. A tabular Statement in the prescribed form is enclosed.

I have the honor to be,
Sir,
Your most obedient servant,

(Signed) W. HUDLESTON,
Secretary to Government.

Exd. S. T. Augustin.

Revenue Department

No. 2034.

(Proceedings of the Madras Government
Under date the 30th August 1867.

Read the following Papers

Proceedings of the Board of Revenue
Recommending application of Supt.
Revenue Survey for an increase to central
Office Establishment and to Lithographic
Department. — (Here enter 23rd July 1867 No. 4657.)

From the Superintendent Revenue Survey
Informing, that no additions were
made to his Office Establishment when
the work of Demarcation were transferred
to the Survey Department. — (Here enter 1st August 1867 No. 1508/41)

From the Offg Director Revenue Settlement.
Forwarding a Statement shewing the
reductions effected in the Settlement Estab-
lishments Consequent on the transfer
of the demarcation to the Survey. — (Here enter 5th August 1867 No. 984/22.)

Ordered that the requisite
application be made to the Gover
of India for sanction to the
proposed increase to the estab-
lishment of the Superintendent
of Revenue Survey, the cost of
which can be met for the present
year from Savings out of the
Budget

Budget grant as the rehab will not exceed to be entertained above.

It is observed that an increase saving of Rs 101,000 does have effected in the cost of establishment under the Director of Revenue Settlement since the transfer of the Revenue section to the Survey Dept^t while the addition to the cost of the Survey Establishment due to the same cause has only Rs 100,036 - so that increase with the proposed net reduction of Rs 15,180 - the total yearly reduction of the Survey establishment viz Rs 115,216 will be considerably less than the saving effected on the Settlement Department.

The necessity for cancelling the particulars of this

Survey map (reckoning) for settlement purposes to be observed, and preserving

Rec'd 30 Aug 1867

of the Survey Department (Village) for Settlement purposes, which, from the creation of the Lithographic Establishment, have been made daily, as and when required.

3. Besides the increase in carrying establishments, the Director proposes an addition of a small depôt establishment to the Central Office to check the Despatch Clerks and enforce the proper rules. There is no increase at present for the purpose.

4. The cost of the entire establishment, as now proposed, amounts to Rs. 9,985 per annum, including an additional charge of Rs. 1,985 for increase on the 1,700 per annum.

5. The Director has therefore only shown the necessity of the proposed increase of his establishment, but I would recommend that the cost of the establishments under the Director of Surveys be taken separately, and the addition to the cost of the Survey Establishment from the same cause has been only Rs. 1,000 so that even with the proposed addition of Rs. 1,985 the total yearly additional cost of the Survey Establishment, viz. Rs. 1,520 will be considerably less than the saving effected in the Settlement Dept.

Letter from Supt. Revenue Survey & Settlement Dept. Dated 1st Aug 1865 No. 1502 41. Received 7th Aug 1865 No. 981 22.

The cost can be met for the present year from the Budget provision of the Survey Department, and the whole of the additional establishments will be entertained as a charge.

6. I would recommend the papers marginally noted, copies of which are also forwarded, that an annual saving of Rs. 12,000 has been effected in the cost of establishments under the Director of Revenue Settlement & Agriculture, while the addition to the cost of the Survey Establishment from the same cause has been only Rs. 1,000 so that even with the proposed addition of Rs. 1,985 the total yearly additional cost of the Survey Establishment, viz. Rs. 1,520 will be considerably less than the saving effected in the Settlement Dept.
