**Proceedings of the Madras Government, Revenue Department,
7th September 1867.**

No. 124. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Coonoor, 2nd September 1867, No. 96 :—

1. The estimate sent in by Major Farewell for the bridge referred to in G. O. No. 2,618 of 27th August, amounts to Rupees 1,335, and provides for its re-construction rather than repair. And I am of opinion that if public money is to be laid out on the work, it should be on the larger scale contemplated by the Executive Engineer, the approaches being raised, and waterway increased to an extent sufficient to insure against damage from future floods; and as permanent communication for carriages is most desirable at the site in question, Major Farewell's proposition to widen the roadway for the purpose should also be carried out.

2. In submitting the estimate in question for sanction, I propose to provide funds for carrying it out from the Toll collections at Craigmore cutting, on the southern approach into Ootacamund.

Referred to the Revenue Department, with Public Proceedings No. 1,017 of the 20th August 1867.

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.
