SEPTEMBER.

Nos. 248-249.

Payments to Religious Institutions, etc., in South Canara.

Passing orders on Board's Proceedings on this subject.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

No. 248. Read the following Proceedings of the Board of Revenue, dated 19th July 1867, No. 4563.

Read the following letter from the Collector of South Canara, to the Secretary to the Board of Revenue, dated Mangalore, 20th October 1866, No. 204:—

1. With reference to the Board's Proceedings, dated the 16th May 1864, No. 2980, and the Order of Government thereon, dated the 26th March last, No. 748, I have the honour to submit, herewith, four lists shewing the different payments made in this district to institutions as well as to individuals in the form of deductions from the Kistbundy Beriz, arranged and classified in accordance with the instructions therein laid down.

2. The above lists are now complete and embrace the whole of the money payments an account of the Brahmadaya, and other allowances in this district, which have not hitherto been exhibited in my accounts, including also the permanent remissions allowed since the district came into the possession of the British Government, and of which a statement was forwarded to the Board by Mr. Morris, with his letter, dated the 17th February 1864, No. 80.

3. In preparing the above lists, and in the classification of the grants, I have generally followed the arrangement adopted by the Board in their Proceedings above referred to, with the exception, however, that in a few cases I found it necessary to transfer the Inams from one class to another, for reasons which have been explained in the lists opposite the items concerned.

4. The result of the classification, as now finally adopted, is as follows:—

Talooks.	Amount of the Grants.			
	To be commuted for land.	To be paid in cash and brought under audit.	To be resumed.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Old Mangalore	646 11 7	1,411 10 0	238 19 10	2,296 3 5
Old Hantwal	270 0 8	306 7 2	67 11 11	644 12 9

Total ..	11,262 8 10	2,695 8 3	664 14 7	14,622 13 7

5. As desired by Government, propositions for commutation of the existing allowances for land have been made in the case of all the religious grants which fall under Class I., as also those placed under Class II., which are of a permanent and religious character. The remaining grants in Class II., as also those included in Classes III. and IV., have of course been proposed to be converted into cash payments, whether the parties in possession of those allowances were hitherto in enjoyment of permanent remissions from the Beriz on their lands, or whether that Beriz was once collected by Government and repaid to the parties.

6. In regard to grants under Class I., and also such of those under Class II., for which lands are proposed to be assigned, the commutation has been proposed in all cases on the very lands on which the Inams was originally assigned. This arrangement, though seemingly incongruous, as it entails the distribution of the assessment of one Wurg among a number of Inamdars, and again in some cases the necessity of clubbing together parcels of several estates to make up the aggregate amount of the grant, was the best that could be made under the circumstances, as the holdings are nearly in all cases, and with very few exceptions, in the possession of the parties themselves, and an assignment on other than these lands would, perhaps, have been disliked by the Inamdars, as also disagreeable to the owners of such lands. On the other hand, the holders of the Inams can have no reasonable grounds for complaint in case they are dissatisfied with the commutations proposed, inasmuch as previous to the conversation of these Jhari Brahmadaya Inams into money payments, they were actually collecting for themselves the revenue of the estates now proposed to be assigned, and the present change will have no other effect than that of restoring the Inamdars to their original position.

7. An assignment on one single estate, or on as few as possible, in the case of each grant, would, doubtless, have been a more preferable arrangement, as the assignments would then be more compact and convenient, but this would have necessitated a long inquiry in order to ascertain what other lands that could be conveniently made available for the commutation were in possession of the different Inam holders, and also to consult their wishes in respect to the same. In consequence, however, of the limited time allowed for the preparation of the statements, and the subsequent calls made for the same, these inquiries could not be made, and I am obliged to submit the statements as they are. If the Board should, however, consider that this course should be pursued, I will take the necessary steps, during my next Jummahbundy tour, for obtaining the requisite information.

8. I have also to note in connection with this subject, that in the case of some of the grants I have not been able to propose an individual assignment of land to each office-holder attached to each Inam, but have entered the revenue of certain estates in lump for the whole Inam, as it was not known in whose possession among the respective holders of the grant the lands so assigned or portions of such lands were, and any distribution which could be made in my office without reference to the talooks and a local inquiry, would have proved erroneous. I propose to make this inquiry hereafter, and to distribute the Beriz of the lands specified fairly and equitably among the different incumbents.

9. I now proceed to state, briefly, my views as to how I would wish to treat these Inams in future.

10. The religious grants included under Class I., and those under the second class which are of a similar nature, will, of course, be placed under the existing trustees, and where there may be no separate trustees, under the Inamdars themselves, in the capacity of such trustees, subject to the provisions of Act XX of 1863; and, therefore, I presume the Collector's interference as regards these Inams will cease so long as the conditions attached to each grant as regards the maintenance of the edifices and the performance of the religious services are fulfilled, but where such conditions are not observed, I would propose that the lands should be immediately resumed with the reservation, however, to the parties of the right to reclaim the grants by renewing the object for which they were made within a period of twelve years.

11. The other grants which are simply of a charitable nature are mere subsistence grants which have no prescribed service, but are of a personal nature, should, I think, be made liable to resumption on failure of legal heirs.

12. The remaining grants which are not permanent, will be treated each according to its nature.

Enclosures Nos. 1 to 4.—Statements.

1. In Government Order, dated the 26th March 1866, No. 748, the Government reviewing a Proceedings of the Board, making certain suggestions with regard to the classification of the Inam grants in the South Canara District, the major part of which it was proposed to commute in land, they having hitherto consisted of deductions from the Kistbundy Beriz, approved of the Board's propositions generally, but desired that the Collector would exercise his discretion in classing the grants according to his own view of the most correct mode of applying the principles laid down. The Board proposed that the grants should be divided into four classes—

Paragraph 5.

1. Religious Endowments;
2. Service Emoluments;
3. State Pensions;
4. Personal Grants;

and were of opinion that the first should be commuted in land and placed under the management of the Religious Committees appointed under Act XX of 1863; that the service emoluments should be brought under regular audit, those of them which were for religious service being commuted in lands; that the State pensions should form an addition to the permanent pension list; and that the personal grants should be treated in the same way in cases where good grounds existed for believing the allowances were hereditary, but be continued as life-pensions to the present holders only in other cases.

2. The Statements received with the Collector's letter, above recorded, contain the classification of the grants made by the Collector on the principles laid down. The Board have given them a careful consideration, and have compared them with the Statements previously forwarded. They would suggest the following alterations.—

3. All the allowances in Statement I. should, of course, be commuted as the Collector proposes in land, and placed under the Temple Committees. The allowances noted in the margin, taken from Statements II. and IV. which the Collector proposes also to commute in land, should equally be under the control of the Committees. They are essentially Pagoda and Mosque Inams granted for religious service. The allowances to Roman Catholic Churches should be converted into land and vested in the Bishop for the time being.

Statement II.—Gen. Nos. 1, 2, 34, 35, 40, 67, 68, 72, 81, 88, 98, 101, 102, 105, 106, 107, 109, 124, 125, 126, 127, 136, 138 to 175 inclusive, 186 to 190 inclusive, 198, 199, 202, 214, 221, (b), 227, 228, 229, and 230, 232, 235 to 257 inclusive, 268, 274, 288, 298, 313, 331, 333, 337, 338, 339, 340.
Statement IV.—Gen. Nos. 3, 4, 5, 8, 9, 10, 47, 63, 90.

4. The Board agree with Mr. Morris, the late Acting Collector, in thinking that Agraharum grants are personal allowances, which it is not incumbent on the State to continue in perpetuity. With the single exception of restricting the recipient to residence in a particular locality, they are not burdened with conditions, and have not attached to them any service at all in which the community are interested. The Board recommend that these allowances be paid in money, under regular audit, to the present recipients *for their lives*, in cases where the conditions as to residence have been broken, and that in other cases they be continued *for two lives*. The Board consider this measure of consideration ample. Should, however, the Government be of a different opinion, the Board suggest that all conditions should be waived. They do not see the use of imposing any personal restriction on mere pensioners.

Statement II.—Gen. Nos. 3 to 7 inclusive, 8 to 13 do., 17 to 27 do., 30 to 33, 37 to 45, 50, 51, 53 to 63, 65, 69, 70, 71. 73, 74, 75 to 80, 82 to 87, 90 to 97, 99, 100, 103, 104, 108, 110 to 114, 116 to 123, 128 to 135, 137, 191, 192 to 197, 200, 203, 204 to 207, 210 to 213, 216 to 218, 220, 221, (a), 223 to 226, 273, 275, 289, 290, 320 to 330, 332. 342.
Statement IV.—1, 2, 6, 11, 12, 14, 15, 62, 66 to 89.

Statement II.—Gen. Nos. 8, 14, 15, 16, 28, 29, 46, 47, 48, 52, 64, 89, 115, 201, 208, 209, 212, 215, 219, 224, 261, 262, 263, 264, 266, 267, 269, 270, 271, 272, 276, 277, 278 to 286 inclusive, 289, 290 to 297 inclusive, 299 to 306 inclusive. 307 to 311 inclusive, 312, 314, 315 to 319 inclusive.

Statement IV.—Gen. Nos. 7, 13, 16, 59.

Statement II.—Nos. 66, 176 to 185, 258 to 260, 334 and 335, 343 to 360.

5. The numbers in the margin will of course be resumed. The last holders are dead, and the houses in which they lived in the Agraharums are no longer in existence.

6. The grants noted in the margin are for keeping up water-pandals. The Board see no reason why they should not be resumed on the death of the present incumbents: unless in particular instances the Collector may think it for the convenience of the public they should be continued. These cases he should report for orders on the occurrence of lapses. The payments will henceforth be brought under audit.

Statement No. II.—Gen. Nos. 231, 233, 234, 336.

Statement No. IV.—41, 42, 43, 44, 50 to 55, 60, 61, 64, 65.

7. The Inams in the margin are purely charitable grants. The Board do not think it necessary they should be continued to the heirs of the present holders.

8. Nos. 91 to 96, Statement IV., Grants for the remuneration of "an Astrologer" and "not known" should be similarly dealt with. Nos. 17 to 40, Statement IV. are clearly personal, and should be restricted to the present incumbents. The Almanac allowance, No. 341, Statement II., might be similarly restricted.

9. The hereditary grants will of course be continued on the terms of each.

10. It is very desirable that, wherever it is possible, the land grants should be concentrated on single estates.

11. With the above alterations, the Board would recommend the acceptance of the Collector's classification.

No. 249. Order thereon, 13th September 1867, No. 2164.

1. The Government approve the additions proposed by the Board to be made to Statement No. I. and direct that No. 91 of Statement No. II. be similarly added as it appears to be of the nature of a service endowment.

Miscellaneous.

2. These grants when commuted, as proposed, will come under the management of the temple committees, appointed under Act XX. of 1863.

3. As regards the proposals of the Board for dealing with the "Jhari Agraharum" allowances, the Government concur with the Board as to the expediency of relieving them from all conditions of residence or service, which cannot be enforced; but they hesitate as to the propriety of retaining them as merely temporary money allowances for terms of lives.

4. They observe from the previous correspondence that these grants in the majority of cases, and probably in all, originated in the payment by some individual of a "Kanikay" or "Nuzzur," often of considerable amount, to the Government of the day, in consideration of which he obtained the assignment of the State revenue from certain estates or holdings (Wurgs) generally his own, which assignment he distributed at his pleasure among certain Temple office-holders, and in *quasi* charity allowances for maintenance to persons who were "to reside in the Agraharum and perform religious duties."

5. The peculiarity of landed tenures in Canara which precluded the actual assignment of land for Agraharums, as was done generally throughout the country, necessarily weakened the tie of the recipients of these allowances to the particular localities and led to their non-performance of the condition specified, which it may safely be assumed was equally the original condition of all Agraharum grants throughout the country.

6. But had it not been for the imposition of the full demand by Government on all the Wurgs whose revenue had thus been assigned by the State for a valuable consideration received, and the conversion of these assignments on the Wurgdars into Kistbundy deductions or cash payments from the Government collections, it may safely be assumed that wherever the estates remained capable of producing the necessary annual sum, the allowances to the grantees would have continued to be made, notwithstanding their failure in the performance of the condition, or at least that the representatives of the grantor would have substituted for them, persons actuated by mere scrupulous regard for their obligations, and thus would have maintained the right which the grantor had acquired by a kind of purchase or redemption, to dispose at pleasure of the assigned dues of the State from particular Wurgs.

7. The grants themselves can scarcely be deemed less deserving of consideration than an Agraharum or Brahminical endowment elsewhere, though these last may have conveyed the actual possession of land; and as it appears that the commutation can almost invariably be effected by a re-assignment or charge on the revenue of the particular estate from which the grant was originally provided, the Government deem it the more strictly just arrangement to carry out the commutation as proposed in the lists submitted by the Collector, resuming only the allowances of share-holders deceased without direct heirs.

8. The Board will instruct the Collector accordingly.

9. The Government are averse to the resumption of any grants for maintaining water-pandals for the refreshment of way-farers, one of the most ancient and appropriate forms of public charity in all countries, and merely desire that the Collector will insist on the performance of the service, and exercise his discretion as to transferring the pandal to a more useful site, when that in which it was originally established is clearly shewn to be no longer suitable for the object of the endowment. The payments will be brought under regular audit, as disbursements from the Treasury.

10. As regards the grants referred to in paragraph 7 of the Board's Proceedings, Nos. 231, 233 and 234 of Statement II. appear, from the detailed Statement for Udipi talook, to be purely personal charity or Bhuttavrity allowances, and their resumption on lapse seems unobjectionable.

11. No. 336, Statement No. II. appears, from the detailed Statement for old Bekul talook, to have originated in a grant of land for maintaining a public charity, and may be continued, but will be brought under regular audit.

12. The resumption of Nos. 41 and 43, Statement IV., the latter on the death of the present incumbent, and the former on that of his successor, as already ordered, appears unobjectionable, the grants being purely personal charity allowances.

13. Nos. 42 and 44 have, it is observed, already been resumed.

14. No. 49, Statement IV. being the grant made for three lives to Naraina Baliga, in recognition of valuable services rendered to the State in the rebellion, in 1837, in the Lower Coorg talooks, is not noticed by the Board, but appears to Government to be one in which the rules of the Inam Department, for enfranchising a grant from liability to lapse, might most properly be applied if the grantee or rather the present holder is willing.

15. The present holder is the second life, and an immediate reduction in the amount of the remission, according to the Inam Commissioner's scale for additional quit-rent on grants of land for terms of lives, would operate precisely as the charge of additional quit-rent, but would make the remaining remission a *permanent* reduction of tax on the family's estate, and would perpetuate this memorial of the loyalty of their ancestor.

16. The Collector will communicate with the Inam Commissioner and Inamdar, and report the result.

17. The resumption on lapse of No. 50, Statement No. IV., which form the detailed Statement for old Pootoor talook, appears to have been granted for petty services in a Mhutt which are no longer rendered, is unobjectionable.

18. Nos 51, 52, 53 and 55 which appear to have been grants made by the former Coorg Governments, to old public servants, in recognition of their faithful discharge of their public duties, and intended by the grantor to be permanent, should be continued.

19. No. 54 appears to have been made by a Coorg Rajah on the occasion of his entering a new palace, and its continuance, beyond the life of the present incumbent, appears to be unnecessary.

20. No. 60 has already been resumed.

21. The propriety of resuming No. 61, which is designated a "Kazi-pir-zada Inam," seems questionable. From the Talook Statement it appears that it originated in a remission of land tax granted by the ruling authority of the day, in consideration of a Nuzzur presented by the land-holder; in fact, a redemption of the tax. The Government consider that the grant should be upheld, and commuted for an assignment of revenue on the original estate, if possible.

22. The resumption on lapse of Nos. 64 and 65, which seem to be mere personal charity for maintenance, appears unobjectionable.

23. No. 91 appears, from the detailed Talook Statement, to have been a purely personal grant to an individual, in recognition of his personal acquirements in astrology. Its continuance, beyond the life of the present holder, is clearly uncalled for.

24. The resumption of Nos. 92, 93, 95, and 96, on lapse, seems unobjectionable.

25. No. 94, it is observed, has already been resumed.

26. Nos. 17 to 40 will be treated, as above directed, in the case of "Jhari Agraharum" grants.

27. No. 341, Statement II., may be continued and commuted as proposed by the Collector, being of the nature of a Service Inam.

28. The Political hereditary allowances will, of course, be continued in the terms of the grants, but must be brought under audit.

(Signed) W. HUDLESTON,
Secretary to Government.

From H. S. THOMAS, Esq., Acting Collector of South Canara, to the Acting Secretary to the Board of Revenue, dated Mangalore, 26th April 1869, No. 460:—

WITH reference to the orders of the Board of Revenue noted in the margin, I have the honor to submit herewith, in triplicate, the statement therein called for, showing the money allowances disbursed in the Revenue Department in this district, and to state that the payments included therein are all that are now made in cash from the Treasury, with the exception of the salaries of public Officers and Superannuation pensions.

						These grants (Nos 51 to 55) are hereditary in the families of the respective incumbents and the allowances are now paid by a permanent remission of the Beriz of certain Betels in the possession of the holders of the grants. It however the allowances are in future to be brought under Audit, a money payment is considered preferable & has accordingly herein been proposed in substitution of the remission allowed hitherto in the Beriz

Proceedings of the Madras Government
Under date the 13th ~~August~~ Sept. 1867. No 28 II

Read the following Proceedings of the Board of Revenue.

Recommending acceptance of classification of Inam grants proposed by Collector of South Canara District

Received 19th July 1867 No. 4563.

The Government approve the additions proposed by the Board to be made to Statement No I and direct that No 91 of Statement No II be similarly added as it appears to be of the nature of a service endowment.—

These grants when committed, as proposed, will come under the management of the Temple Committees appointed under Act XX of 1863.—

been presented.

The propriety
of presuming No 61 which
is designated as "Kuzz
per-grada Swami" seems
from the Taluk state-
ment and
it appears that it originated in a decision of last Sep
the Collector of the district
granted by the ruling authority of the day
in consideration of a fuzz as presented by the Land holder
in fact a redemption of the rent. The Sr. considers that
the grant will be upheld and commuted from ecclesi-
