Proceedings of the Madras Government, Revenue Department,
26th September 1867.

No. 427. Read the following Proceedings of the Madras Government in the Public Works Department:—

Sanctioning estimate for constructing a calingulah to the Rajama tank, in Godavery District. } (Here enter 21st September 1867, No. 2,934.)

No. 428. ORDER THEREON, 26th September 1867, No. 2,251.

Irrigation, No. 16. Communicated to the Revenue Board.

(True Extract.)

(Signed) F. H. WILKINSON,
Acting Under Secretary to Government.

To the Board of Revenue, with Proceedings Public Works Department, No. 2,934.

Exd. S. T. Augustin.

Proceedings of the Madras Government, Public Works Department, 21st September 1867.

No. 519. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Dowlaishwaram, 7th September 1867, No. 123:—

Three Enclosures.

1. I have the honor to submit for sanction the accompanying plan and estimate, amounting to Rupees 930, for constructing a calingulah to Rajama tank at Rajahboopalpatam, in the Peddapore talook, of No. 6 Range, Godavery.

2. A specification, showing the nature of the work proposed, is also enclosed.

3. This tank is a very large one, and receives a large quantity of water as it has many feeding channels. At present there being no calingulah to it, the Ryots make a breach in the bund to let the surplus water pass, but the force of the water escaping through this cut so enlarges the opening that they find it difficult to close it after the surplus water has been drawn away, and that they have, therefore, been compelled at times to allow the tank to nearly empty itself; thus the tank does not retain sufficient quantity of water for Sarawa and Dalwa crops, both of which the Ryots state fail to a great extent.

4. Under these circumstances it has been found necessary to estimate for the work proposed.

5. The ayacut of this tank is 466 acres, and the highest year's revenue is Rupees 1,610-3-0.

6. The necessary funds will be found later in this year by transfers from one head to another.

No. 520. ORDER THEREON, 21st September 1867, No. 2,934.

IRRIGATION, No. 25.

Under the circumstances explained by the Acting Superintending Engineer of the 1st Division, the Government sanction the estimate of Rupees 930, for constructing a calingulah to the Rajama tank in the Godavery District, and grant authority for the work being proceeded with on the condition that the outlay is hereafter adjusted by the Superintending Engineer.

(True Extract.)
