490-491

Dated 24—1— 1867.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 24th January 1867.

No. 490. Read the following letter from the Chief Secretary to the Government of Bombay, Revenue Department, to the Chief Secretary to the Government of Madras, dated Bombay Castle, 8th January 1867, No. 81 :—

1. I am directed by His Excellency the Governor of Bombay in Council to enclose extracts of a Report lately furnished by Mr. Ashburner, the Collector of Khandeish, suggesting certain steps which should be taken to improve the breed of cattle in that Collectorate, and to promote the employment of effective and economical machinery for irrigational purposes.

2. His Excellency the Governor of Bombay in Council would esteem the favor highly, if His Lordship the Governor of Madras in Council would permit the transfer of twenty bulls and ten cows from the Stud Farm at Hunsoor to the Bombay Government.

3. I am further directed to express a hope that the Government of Bombay may be favored with a working model of the pump used for irrigation at the experimental Farm near Madras, which appears to be well suited to several districts of the Bombay Presidency.

Extracts part of paragraph 1 *and paragraph* 5 *from a letter from the Collector of Khandeish, No.* 2,430, *dated* 13*th December* 1866.

1. During my late tour in the Madras Presidency, I made enquiries about the best breeds of cattle and their cost. The best cattle for draft purposes are those bred at Hunsoor, about forty miles west of Mysore. The Madras Government has there a Farm for breeding cattle for Commissariat and Ordnance purposes. • • • The Stud has lately been re-established, and is now under the able charge of Captain McGrath of the Madras Army, he told me that he was paying Rupees 100 for cows of the best breed and form, and about the same for bulls; he has an establishment of 4,000 cows, and a suitable number of bulls. It is probable that the Madras Government would not object to transfer twenty bulls and say ten cows to the Bombay Government without actual payment. • • • •

5. I would suggest that the Madras Government should be moved to send us a working model of the pump made use of for irrigation at the experimental Farm. Major Shaw Stewart, who superintends the Farm, told me that it was very efficient and economical.

(True Extracts.)

(Signed) WASSOODEO PANDOORUNG,
Assistant Secretary to the Government of Bombay.

No. 491. ORDER THEREON, 24th January 1867, No. 233.

Miscellaneous.

1. The requisite instructions will be issued to the Commissary General, in the Military Department, on the subject of the cattle required by the Bombay Government.

2. The Sydapet Farm Committee will be good enough to have a working model of the pump in question prepared at Government cost for transmission to Bombay.

(True Extract.)

(Signed) W. HUDLESTON,
Secretary to Government.
