SUBJECT.

Submitting to Govern-
ment, Revenue Department,
with remarks, letter from the
Collector of Vizagapatam and
requesting that early orders
may be issued for placing
all famine relief works in
the Vizagapatam District under
the control of the Public Works
Department.

Order (Press) 4th 244
7-4-97.

The Board's proposal to
place all famine relief works
in Vizagapatam under the P.W.D.
is sanctioned. Orders will issue
in the P.W.D. for taking over
the two works already opened
and for starting such new works
as may be proposed by the
Collector.

Dated 29 March 1897.

No. 2352 Miscellaneous

READ

the following letter from the Collector of Vizagapatam dated 20 March 1897 R.C. No. 840

I have the honor to report that the two Test works opened at Gazunaka and Dakamarri in Vizagapatam and Bimlipatam taluqs respectively have filled in a remarkable manner, and that they establish beyond doubt the existence of ^{disturbs sufficient to} ~~another~~ ^{call for an extension of works.} I shall report on Monday in detail on these Tests with figures of numbers working &c, but my present information is that there are about 1100 Coolies at Dakamarri and 500 at Gazunaka and the numbers will without doubt increase. I spent Monday and Tuesday at Dakamarri and Thursday morning and Friday afternoon at Gazunaka. My object in addressing the Board now, before I submit my detailed reports, is to represent that if such extension of work as I believe to be necessary is to take place in proper time no time should be ^{lost} ~~wasted~~ in addressing the Government to put the works in this District under the Public Works Act, on

Department.

2. The agency at my disposal is only that of the District Board. Local Fund Engineers, in a backward District like this, are not equal to managing a work of any size in a satisfactory manner far less to starting it.

They require the presence of a ^{Superior} ~~Superior~~ officer without whom it is hopeless to expect from them the necessary discrimination as to lacking organisation and if necessary fining for shoddy work and in whose absence order and discipline are difficult to maintain. Fining I have up to date forbidden without sanction of Superior authority, nor have I found it necessary, as the workers really work very well and the oldest and fullest show a most praiseworthy preference for work over gratuitous relief. I will report details of tasks done. The Local Fund Engineer is superintending Gazwaka and the ^{Supervisor} ~~Superior~~ Dakamarri. Both officers are working in a praiseworthy manner. The Deputy Tahsildars are doing paymaster's work and endeavouring to train paymasters and Kitchen Superintendents. Head Coolies at annas 4 a day are hardly to be got. They find the work too much and disappear. Under these circumstances I do not feel able to send the Engineer and the Supervisor to open other works. I had requested Mr. Scott to depute the Supervisor as soon as possible to open another work in his Division, but with over 1000 workers on the work already started he cannot really be spared.

I am going to open another work at Pandur to some villages out of reach at Gazwaka, on Wednesday and have entrusted the work

28
the work to Mr. Keaney, Assistant Collector, who I am confident will do his best, though he will only have the assistance of an overseer, but Mr. Arbuthnot will be able to visit this work and Superintend it as well as Gazwaka to a certain extent. I think further works will be needed, and really things develop so rapidly that it is necessary not to waste time.

3. Under present arrangements I must point out that the Local Fund Engineer and his Supervisor are unable to attend to their ordinary work at all and the Inspection necessary before the end of the year is at a standstill, while the accounts for the year have to be sent in by the 15th April.

The Public Works Department Subordinate Staff is far superior to that of the Local Funds and a Public Works Department Officer deputed for this work would have nothing else to attend to.

4. I do not mean to be alarmist or to convey the idea that immediate Extension of work is urgently called for to save life, but I am bound to conclude from the facts under my observation that it is called for if the people are not to be allowed to fall into noticeable distress before work is provided for them. I fully expect the Pandur work to fill, and I think that by the end of next week there will be 3000 people on Test works. They seem to have lost, on trial their fear of them, it is now

to Dakamari for 5 days, in spite of any amount of publication and Explanation, but when a few came they began to pour in.

This shows that until work is actually opened it is impossible to say whether people will come or not. Their statements on the subject are not to be relied on ^{one} ~~any~~ way or the other.

5. I will submit my report on the Tests as promised but I beg that the Board will move the Government to take up the steps I have indicated and to depute the necessary staff. I have ample works available, my trouble is to find the agency to work them.

Resolution

Submitted to Government with the request that early orders may be issued for placing all famine relief works in the Vizagapatam District under the control of the Public Works Department.

2. The Collector states that "the oldest and feeblest show a ~~work~~ most praiseworthy preference for work over gratuitous relief" is evidence of a very satisfactory spirit and the same spirit has been noticeable everywhere.

3. The Board hopes that the recent rain fall, which is known to have occurred but of which official information has not yet been received

may

may somewhat ameliorate the position.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 29th March 1897, Mis. No. 2352 :—

Read—the following letter from the Collector of Vizagapatam, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 20th March 1897, R. C. No. 840 :—

I have the honour to report that the two test works opened at Gazuvaka and Dakamarri in Vizagapatam and Bimlipatam taluks, respectively, have filled in a remarkable manner, and that they establish beyond doubt the existence of distress sufficient to call for an extension of works. I shall report on Monday in detail on these tests with figures of numbers working, &c., but my present information is that there are about 1,100 coolies at Dakamarri and 500 at Gazuvaka and the numbers will, without doubt, increase. I spent Monday and Tuesday at Dakamarri and Thursday morning and Friday afternoon at Gazuvaka. My object in addressing the Board now, before I submit my detailed report, is to represent that if such extension of work, as I believe to be necessary, is to take place in proper time, no time should be lost in addressing the Government to put the works in this district under the Public Works Department.

2. The agency at my disposal is only that of the District Board. Local fund overseers, in a backward district like this, are not equal to managing a work of any size in a satisfactory manner far less to starting it. They require the presence of a superior officer, without whom it is hopeless to expect from them the necessary discrimination as to tasking organization and if necessary fining for short works and date forbidden without sanction of superior authority, nor have I found it necessary, as the workers really work very well and the oldest and feeblest show a most praiseworthy preference for work over gratuitous relief. I will report details of tasks, &c., done. The Local Fund Engineer is superintending Gazuvaka and the Supervisor, Dakamarri. Both officers are working in a praiseworthy manner. The Deputy Tahsildars are doing paymaster's work and endeavouring to train paymasters and kitchen superintendents. Head coolies at As. 4 a day are hardly to be got. They find the work too much and disappear. Under these circumstances, I do not feel able to send the Engineer and the Supervisor to open other works. I had requested Mr. Scott to depute the Supervisor as soon as possible to open another work in his division, but with over 1,000 workers on the work already started, he cannot really be spared.

I am going to open another work at Pendur to serve villages out of reach at Gazuvaka on Wednesday, and have entrusted the work to Mr. Heaney, Assistant Collector, who, I am confident, will do his best though he will only have the assistance of an overseer, but Mr. Arbutnot will be able to visit this work and superintend it as well as Gazuvaka to a certain extent. I think further works will be needed, and really things develop so rapidly that it is necessary not to waste time.

3. Under present arrangements I must point out that the Local Fund Engineer and his Supervisor are unable to attend to their ordinary work at all and the inspection necessary before the end of the year is at a stand still, while the accounts for the year have to be sent in by the 15th April.

The Public Works Department subordinate staff is far superior to that of the Local Funds and a Public Works Department officer deputed for this work would have nothing else to attend to.

4. I do not mean to be alarmist or to convey the idea that immediate extension of work is urgently called for to save life, but I am bound to conclude from the facts

under my observation that it is called for, if the people are not to be allowed to fall into noticeable distress before work is provided for them. I fully expect the Pendur work to fill, and I think that, by the end of next week, there will be 3,000 people on test works. They seem to have lost, on trial their fear of them. No one came to Dakmarri for five days, in spite of any amount of publication and explanation, but when a few came they began to pour in.

This shows that, until work is actually opened, it is impossible to say whether people will come or not. Their statements on the subject are not to be relied on one way or the other.

5. I will submit my report on the tests as promised, but I beg that the Board will move the Government to take up the step I have indicated and to depute the necessary staff. I have ample works available, my trouble is to find the agency to work them.
